

## FORM 7

### MONTHLY PROGRESS REPORT

Name of Listed Issuer: Squire Mining Ltd. (the "Issuer").

Trading Symbol: SQR

Number of Outstanding Listed Securities: 40,364,500

Date: February 6, 2018

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

#### **General Instructions**

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

## Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company has received the report during October 2016 on the results of the soil sampling which was undertaken on the Star Property during June 2016. Due to forest fire closure and wild fires in the area of the Company's property, the Company did not carry out exploration work on the property during 2017. At October 31, 2107, the Company has not paid the required property payment or incurred the required exploration costs due by twenty-four months after the listing date. On February 1, 2018 the Company replaced the prior agreements with a new option agreement effective February 15, 2018 such that in order to earn the 51% interest in the Star Property, the Company shall pay a further \$60,000 in cash and incur a further \$785,000 in exploration work as follows:

Date	Payment	Exploration Work
February 15, 2018 (Paid Subsequently)	\$ 10,000	\$35,000
August 15, 2018	10,000	-
February 15, 2019	10,000	250,000
August 15, 2019	10,000	-
February 15, 2020	10,000	500,000
August 15, 2020	<u>10,000</u>	<u>-</u>
	<u>\$ 60,0000</u>	<u>\$785,000</u>

The term of the option shall be until August 15, 2020. If the option is not exercised or the cash and exploration work has not been paid in full on or before August 15, 2020, the option shall terminate.

The Company may earn an additional 14% interest in the Star Property by completing a preliminary economic assessment and a further 15% interest upon successful completion of a financing sufficient to carry out a feasibility study on the property.

Consequently, the Company is contemplating a two-phase work program for 2018, including Phase 1 trenching, geochemical, stream sediment sampling, prospecting on the southern part of the claims (estimated cost of \$35,000) and, subject to the results of Phase 1, Phase 2 diamond drilling (estimated cost of \$250,000). Phase 2 is subject to favorable results from Phase 1. There was no other exploration work conducted during January 2018.

On July 20, 2017, certain directors and insiders of the Company granted an option (the "Share Purchase Option") to Ore Capital Partners Ltd., a private British Columbia company, ("Ore Capital") and/or its assignees to acquire a total of 11,000,000 common shares of the Company (collectively the "Option Shares") for an aggregate purchase price of \$210,000 exercisable on or before December 31, 2017. The Option Shares represent approximately 50% of the current issued and outstanding shares of the Company and, if purchased, could result in the creation of Ore Capital as a control person of the Company. The Share Purchase Option closed in January 2018.

On December 18, 2017, as amended January 29, 2018, the Company reached an agreement in principle with an arm's length third party (the "Vendor") to acquire an 18% minority interest in an exclusive 8-year license (the "License") to commercially exploit a patented communications technology designed to create fully autonomous wireless communication networks without the need to connect to the internet, cellular or other communications infrastructure. The technology allows nearby wireless devices (such as smart phones, tablets or personal safety devices) to connect directly with each other wirelessly, and transfer data without the necessity for any intermediaries similar to the concept of walkie-talkie radios, but with the capability of smart phones to transfer text, video, voice, pictures and multimedia.

In consideration for a purchase price of \$225,000 (paid), the Company will acquired an undivided 18% interest in the License as it relates solely to commercial applications for the mining resource industry worldwide (the "Acquisition"). In turn, the Vendor must incur, within one year, a minimum of \$50,000 in qualified expenditures to develop mining related uses for the technology, failing which the Company's interest in the License will automatically increase to 25%. Once the Vendor has incurred its minimum expenditure, the parties will reassess the technology and, if warranted, determine a mutually agreeable plan to further fund and advance its development.

The Acquisition is subject to completion of formal documentation, applicable third-party consents.

2. Provide a general overview and discussion of the activities of management.

Management's activities were the follow up of the Company's exploration work program and negotiation of an extension in the Star Property payments and exploration work expenditures. See details in 1. above.

During January 2018, the Company received the final approximate \$50,000 to complete the non-brokered private placement financing of 10,133,333 units of the Company (the "Units") at \$0.06 per Unit for total gross proceeds of \$608,000 (the "Financing"). Each Unit consists of one common share and

one transferable share purchase warrant to purchase one additional common share at \$0.08, exercisable for a period of two years from the date of grant. The net proceeds of the Financing will be used for, among other things, general corporate and working capital purposes and to investigate new business opportunities and to fill key executive roles.

A finder's fee of 560,000 Units was paid to Faveo Capital Ltd. in connection with the Financing and all securities issued under the Financing are subject to a hold period of four months and one day.

Finally, the Company reached an agreement in principle with an arm's length third party (the "Vendor") to acquire an 18% minority interest in an exclusive 8-year license (the "License") to commercially exploit a patented communications technology designed to create fully autonomous wireless communication networks without the need to connect to the internet, cellular or other communications infrastructure. This was discussed in 1. above.

On January 12, 2018 directors of the Company exercised 750,000 share purchase options, as to 500,000 at \$0.12 per share and as to 250,000 at \$0.10 per share. Also, on January 12, 2018 the Company granted stock options to employees, directors, officers and consultants to purchase up to 3,233,334 common shares at \$0.15 per share, exercisable until January 12, 2020.

Also, on January 18, 2018, the Company announced that it has begun investigating other technology acquisitions in the internet-of-things, mesh networking and blockchain ecosystems. Acquisitions are resource-technology related, but the Company may consider making acquisitions that have global applications, including identifying partner to manage the non-resource-related aspects of the technology.

3. Describe and provide details of any new products or services developed or offered.
