Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

   The Issuer pursued its business plan of developing a next-generation glucagon-like peptide ("GLP") and a patented therapeutic candidate designed to address obesity and metabolic disease with improved tolerability and delivery potential. The Issuer entered into four contracts with companies to provide media and marketing services.

2. Provide a general overview and discussion of the activities of management.

   During April 2026, management's principal activities included a continuation of work from the prior month, focused on reviewing the proposal from LabCorp for IND-enabling studies of our GEP-44 peptide formulation. Key areas of review included study protocols, material requirements, and the manufacturing and supply process. We are also evaluating the potential engagement of GenScript for GEP-44 manufacturing. The Issuer is in the process of finalizing contracts with its advisors. In addition, we have initiated a second pipeline focused on ibogaine and its derivatives for the treatment of neurological disorders, including addiction, through an academia-developed technology licensing deal. To support the planned development of both GEP-44 and ibogaine therapeutics, the Issuer has also been actively looking to expanding its Scientific Advisory Board (SAB).

   On April 24, 2025, the Issuer announced the granting of 1,500,000 stock options to certain of its directors, officers and consultants. The options vest immediately and are exercised at an exercise price of CAD $0.30 per common share, for a period of 3 years.
