

Syntheia Launches AgentNLP Enterprise AI Platform to Commercialize with Enterprise Clients

February 17, 2026, Toronto, ON – Syntheia Corp. (“Syntheia” or the “Company”) (syntheia.ai), CSE – SYAI, a conversational AI technology company, is pleased to announce the official launch of AgentNLP™, its next-generation Enterprise AI Platform, scheduled for April 1, 2026.

AgentNLP™ is a Purpose-Built Enterprise AI Platform designed to enable organizations to deploy intelligent AI agents across voice, chat, and omnichannel communication environments.

The platform delivers:

- Advanced natural language processing (NLP)
- Context-aware AI agents
- Enterprise-grade API integrations
- Secure private and hybrid deployment options
- Scalable automation infrastructure

AgentNLP™ allows enterprises to integrate AI agents directly into CRM, ERP, customer support, and accounts receivable systems. The platform is engineered to support inbound and outbound communication workflows while maintaining full data governance and security controls.

The Company is also pleased to announce that Turnium Technology Group will be the first commercial client to implement AgentNLP™ within its operational environment. This deployment is expected to showcase the platform’s ability to integrate directly into enterprise communication systems while supporting scalable AI-driven customer engagement.

The platform has been developed using Syntheia’s years of real-world enterprise AI deployments and infrastructure optimization.

Paul Di Benedetto, Chief Technology Officer of Syntheia, commented “Over the past several years, we have continuously refined our AI models, and AgentNLP™ represents the culmination of those learnings. We have packaged the latest advancements in our AI technology into a highly intuitive, enterprise-ready platform designed specifically for the enterprise market.”

Positioning Syntheia for Enterprise Growth

The launch of the AgentNLP™ Enterprise AI Platform marks a strategic milestone in Syntheia's growth plan for 2026. As demand for AI-powered automation continues to expand across enterprise sectors, the Company believes AgentNLP™ will serve as the foundation for scalable AI adoption across North America and international markets.

Further details regarding enterprise onboarding and commercial availability will be provided ahead of the April 1, 2026, launch date.

About Syntheia

Syntheia Corp. is a conversational AI technology company focused on delivering scalable Enterprise AI Platform solutions for voice, chat, and omnichannel communications. The Company enables organizations to deploy AI agents that enhance customer engagement, streamline operations, and reduce infrastructure costs while maintaining enterprise-level security and performance standards.

Cautionary Statement

Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this news release.

This news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate", "may", "will", "would", "potential", "proposed" and other similar words, or statements that certain events or conditions "may" or "will" occur. These statements are only predictions. Forward-looking information is based on the opinions and estimates of management at the date the information is provided and is subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. Forward-looking statements in this news release includes, but are not limited to, the synergies derived from the acquisition of the assets in the Transaction. Readers are cautioned that forward-looking information is not based on historical facts but instead reflects the Company's management's expectations, estimates or projections concerning the business of the Company's future results or events based on the opinions, assumptions and estimates of management considered reasonable at the date the statements are made.

Although the Company believes that the expectations reflected in such forward-looking information are reasonable, such information involves risks and uncertainties, and undue reliance should not be placed on such information, as unknown or unpredictable factors could have material adverse effects on future results, performance or achievements. Please refer to the Company's listing statement available on SEDAR+ for a list of risks and key factors that could cause actual results to differ materially from those projected in the forward-looking information. Should one or more of these risks or uncertainties materialize, or should assumptions underlying

the forward-looking information prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected.

Although the Company has attempted to identify important risks, uncertainties and factors which could cause actual results to differ materially, there may be others that cause results not to be as anticipated, estimated or intended. The Company undertakes no obligation to update forward-looking information if circumstances or management's estimates or opinions should change unless required by law. The reader is cautioned not to place undue reliance on forward-looking information.

The securities of the Company have not been and will not be registered under the United States Securities Act of 1933, as amended and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirement. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful.
