Name of Listed Issuer: ***Telescope Innovations Corp.*** (the "Issuer").

Trading Symbol: ***TELI***

Number of Outstanding Listed Securities: ***80,805,298 common shares***

Date: ***June 5, 2026***

Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer is a developer of intelligent automation and advanced chemical manufacturing technologies. The Issuer builds and deploys enabling technologies including flexible robotic platforms and artificial intelligence

software that improves experimental throughput, efficiency, and data quality. The Issuer's "Self-Driving Labs" are fully autonomous, physical AI platforms that plan, execute, and analyse experiments far more efficiently than traditional manual approaches. Bio-pharmaceutical, high value specialty chemical, and advanced materials companies utilize the Issuer's products and services to accelerate the development and optimization of chemical processes, thereby cutting down time and costs from lab to market.

2. Provide a general overview and discussion of the activities of management.

The Issuer has maintained an active presence across scientific and investor events, reinforcing both the technical credibility and commercial momentum behind its platform. Outreach activities for spring 2026 included presentations, exhibitions, and keynote lectures showcasing the Company's advanced automation technology for chemical R&D — including Self-Driving Labs and DirectInject-LC™ - building on a program of engagement already underway. These activities serve to deepen relationships with existing stakeholders, broaden the Company's pipeline of prospective partnerships, and accelerate adoption of its technologies, positioning the Issuer for sustained long-term growth.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

Not applicable
