Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer has been pursuing its business plan in accordance with the COVID-19 requirements and continues to monitor the effects that COVID-19 may have on its operations. Also see Item 3 below.

Due to COVID-19, The auditor of the Issuer has been unable to complete its annual audit and interim review and thus the Issuer has been unable to file its Annual Financial Statements, Management Discussion and Analysis and related CEO and CFO Certificates ("Annual Filings") and the Interim Financial Statements, Management Discussion and Analysis and related CEO and CFO Certificates for the period ended March 31, 2020 ("Interim Filings"). Due to this circumstance, the Issuer applied to its principal regulator and was granted a Management Cease Trade Order

(“MCTO”). The MCTO expired on July 15, 2020 and the Issuer prior to this expiry date, applied for an extension to this MCTO, however the Ontario Securities Commission, denied such extension request.

On July 15, 2020, the Ontario Securities Commission converted the MCTO to a failure to file cease trade order (“FFCTO”). During the FFCTO any person or company must not trade in or purchase a security of the Issuer for so long as the FFCTO remains in effect.

The Issuer’s board of directors and its management have confirmed that they are working expeditiously to meet the Issuer’s obligations relating to the filing of the Annual Filings and Interim Filings. Once the Annual Filings and Interim Filings are filed, it is expected that the FFCTO will be fully revoked and trading in the securities of the Issuer will resume.

One of the Issuer's subsidiaries owes one of its former principals – Brian Main an aggregate sum of US\$197,726.50. On July 20, 2020 the Issuer held its Annual General Meeting of Shareholders (the "AGM"). At the AGM the shareholders of the Corporation elected and confirmed the following individuals to act as the directors of the Corporation: Michael Caridi, George Barakat, Scott Reeves, Ommid Faghani, Kaivan Talachian and Fabio Gesufatto.

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The use of cannabis and its general acceptance, particularly for medical uses, continues to grow in the United States, Canada and internationally, as evidenced by the increasing number of jurisdictions adopting regulations to govern its use. However, it is not legal at the federal level in the United States and Canada has yet to implement its legalization process. CBD, in particular has garnered recent attention for efficacy in a variety of products, most notably, for the treatment of rare epileptic related disorders in children, however, until recently the legal status of CBD in the United States at a federal level was also tied to cannabis generally.

On December 20, 2018, the Agriculture Improvement Act of 2018 (the "2018 Farm Bill") was passed into law. Marked as genuinely historic for the cannabis industry, the passing of the 2018 Farm Bill has removed all confusion associated with "industrial hemp". While the Issuer has always utilized organically sourced US Dept. of Agriculture approved industrial hemp in its products, "hemp", defined as "the plant Cannabis sativa L. and any part of that plant, including the seeds thereof and all derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than 0.3 percent on a dry weight basis," has now been officially removed from the Controlled Substances Act in the United States. While the Issuer is still assessing the various implications of the new law, the development is extremely positive for the Issuer and its future development plans in the U.S. and elsewhere. See "Narrative Description of the Business – Regulatory Considerations" in the Listing Statement.

CBD has also been cited for benefits in the treatment of schizophrenia, some forms of cancer, type 1 diabetes, Alzheimer's, post-traumatic stress disorder, pain and inflammation, anxiety, addictions, mood symptoms, insomnia and acne. See "Narrative Description of the Business – Principal Products or Services" in the Listing Statement. A recent trend includes use of CBD in the beauty products

industry. Evidence of the benefits appears to be primarily anecdotal, however, an increasing number of studies and trials are being conducted to test the efficacy of CBD, particularly internationally. There are also an increasing number of delivery methods including vaporizers, oils, sprays, creams, capsules and microencapsulation (a process for putting CBD into tiny capsules to make it more readily absorbed by the body). As demand increases we can expect to see a number of technological advances.

The safety of CBD and cannabis related products will remain of paramount importance for the Issuer and will continue to be a focus for consumers and regulators alike. Regulation of the industry is expected to increase, including new regulations anticipated from the US Food and Drug Administration (FDA). Despite these challenges and a general lack of access to banking, the cannabis industry has so far enjoyed access to capital markets. The situation is constantly evolving and there is a great degree of uncertainty over how matters will be settled, however, it is likely that these US states that have legalized cannabis will fight any prohibition on its use as they are receiving significant amounts of tax revenue from the sale of cannabis. See “Narrative Description of the Business – Regulatory Considerations” and “Risk Factors” in the Listing Statement.
