

79North to Commence Trading on the CSE Today Under Ticker Symbol TWLV; Grants Options

TORONTO, June 16, 2020 -- 12 Exploration Inc. (CSE: TWLV), doing business as 79North, (the “**Corporation**” or “**79North**”) is pleased to announce that common shares of the Corporation (the “**Common Shares**”) will commence trading today on the Canadian Securities Exchange (the “**CSE**”) under the symbol “TWLV”.

The Corporation is led by a team with extensive mineral exploration expertise and a track record of discoveries and exits in South America and globally. The Corporation currently holds an indirect interest in mineral concessions in northern Suriname (formerly Dutch Guiana), and aims to become the premier junior exploration company in this underexplored district of the prolific Guiana Shield. The Corporation’s strategically located land package is located in close proximity to both the Merian Gold Mine of Newmont Corporation and the Rosebel Gold Mine of lamgold Corporation which have a substantial gold production history. The Corporation’s growing portfolio of high-quality targets which have not undergone modern exploration or drilling have a long history of artisanal mining and are strategically located within close proximity to modern gold mines operated by major mining companies.

“Our public listing is a significant milestone for us as we continue to grow our portfolio of high-quality gold exploration projects in Suriname. The Nassau Gold Project has had more than a century of artisanal gold mining and is in the same sequence of gold-bearing rocks that contain the Merian Gold Mine of Newmont Corporation and the Rosebel Gold Mine of lamgold Corporation. In spite of this, there has not been sustained modern gold exploration or diamond drilling at the Nassau Gold Project,” stated Jon North, President, CEO and Chairman of 79North.

Subscription Receipt Financing

As previously announced, the Corporation completed non-brokered private placements, resulting in the sale of an aggregate of 30,481,655 subscription receipts for aggregate gross proceeds of approximately C\$4,572,250 million (the “**Offering**”). The proceeds from the Offering were placed into escrow on completion of the Offering and have now been released from escrow to the Corporation less certain transaction fees and expenses. The net proceeds from the Offering will be used to fund exploration and development of 79North’s Nassau gold project, the acquisition of additional gold projects, and for general corporate purposes.

Other Corporate Matters

The Corporation announces the grant of an aggregate of 3,500,000 incentive stock options exercisable at CAD\$0.15 until June 16, 2025 pursuant to the Corporation’s stock option plan. The Corporation also announces that it has entered into an agreement with General Research GmbH to provide investor relations services for a monthly fee of €6,250 for a term of one year, subject to extension at the Corporation’s option.
