The accompanying notes to the unaudited condensed interim consolidated financial statements are an integral part of these statements.

1. Nature of operations and going concern

Nature of business

Tartisan Nickel Corp. ("Tartisan" or the "Company") was incorporated on March 18, 2008 under the Business Corporations Act (Ontario). The Company's registered office is at 44 Victoria Street, Suite 1102, Toronto, Ontario, M5C 1Y2. The Company is listed on the Canadian Securities Exchange ("CSE"), trading under the symbol "TN" and is currently a member of the CSE Composite Index. On February 20, 2018, the shareholders of Tartisan approved the change of the Company's name to Tartisan Nickel Corp.

The Company is in the business of acquiring, exploring for and developing mineral properties in Canada and in Peru. Substantially all of the efforts of the Company are devoted to these business activities. The ability of the Company to carry out its business plan rests with its ability to achieve profitable business operations, to secure equity and other financing.

Although the Company has taken steps to verify title to the properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, undetected defects, unregistered claims, native land claims, and non-compliance with regulatory and environmental requirements.

COVID-19

Since December 31, 2019, the outbreak of the novel strain of coronavirus, specifically identified as "COVID19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, selfimposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Corporation and its operating subsidiaries in future periods.

The Company has determined that these events are non-adjusting subsequent events. Accordingly, the financial position and results of operations as of and for the three months ended June 30, 2020, have not been adjusted to reflect their impact. The duration and impact of COVID-19 pandemic, as well as the effectiveness of government and central bank responses, remains unclear at this time. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods.

While the Company for a period of time slowed business activities to ensure the safety of staff and consultants, the Company's operation has been able to continue moving forward on its exploration activities despite the significant global disruptions in business operations.

Going concern uncertainty

At each reporting period, management assesses the basis of preparation of the financial statements. These financial statements have been prepared on a going concern basis in accordance with IFRS. The going concern basis of presentation assumes that the Company will continue its operations for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to amounts and classifications of assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

1. Nature of operations and going concern (continued)

For the three months ended June 30, 2020, the Company incurred a net income of \$3,742,789 (three months ended June 30, 2019 loss - \$119,082) and had negative operating cash flows of \$35,095 (June 30, 2019 - \$191,423). The Company has an accumulated deficit of \$2,707,876 since inception (March 31, 2020 - \$6,450,665). This raises material uncertainties which may cast significant doubt as to the Company's ability to continue as a going concern. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon its ability to generate cash flows from operations and to complete negotiations to obtain and successfully close additional funding from debt financing, equity financing's or through other arrangements. While the Company has been successful in arranging financing in the past, there can be no assurance the debt financing or any equity offering will be successful. These conditions indicate the existence of a material uncertainty that may cast significant doubt regarding the Company's ability to continue as a going concern.

While the Company has been successful in securing financing's in the past, there is no assurance that it will be able to do so in the future. Accordingly, these consolidated financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these consolidated financial statements.

There are numerous risks involved in the mineral exploration industry. The Company's current or future operations, including development activities, are subject to environmental regulations which may make operations not economically viable or prohibit them altogether. The success of the operations and activities are dependent to a significant extent on the efforts and abilities of its management, outside contractors, experts and other advisors. Investors must be willing to rely to a significant degree on management's discretion and judgment, as well as the expertise and competence of outside contractors, experts and other advisors.

2. Basis of preparation

Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC").

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of August 31, 2020, the date the Board of Directors approved the statements.

The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual financial statements as at and for the year ended March 31, 2020, other than those noted below. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2021 could result in restatement of these unaudited condensed interim consolidated financial statements.

Basis of preparation

These unaudited condensed interim consolidated financial statements have been prepared on the historical cost basis and presented in Canadian dollars.

2. Basis of preparation (continued)

Basis of consolidation

These unaudited condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Canadian Arrow Mines Limited ("Canadian Arrow"), and Minera Tartisan Perú S.A.C. ("Minera"), which is incorporated in Peru. All significant inter-company transactions have been eliminated upon consolidation.

3. Significant accounting policies

New standards adopted

Definition of a Business (Amendments to IFRS 3)

The IASB has issued Definition of a Business (Amendments to IFRS 3) to clarify the definition of a business for the purpose of determining whether a transaction should be accounted for as an asset acquisition or a business combination. The amendments:

- clarify the minimum attributes that the acquired assets and activities must have to be considered a business
- remove the assessment of whether market participants can acquire the business and replace missing inputs or processes to enable them to continue to produce outputs
- narrow the definition of a business and the definition of outputs
- add an optional concentration test that allows a simplified assessment of whether an acquired set of activities and assets is not a business

The Company adopted this standard on April 1, 2020 and there was no material impact to the financial statements.

New standards not yet adopted

Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)

The IASB has published Classification of Liabilities as Current or Non-Current (Amendments to IAS 1) which clarifies the guidance on whether a liability should be classified as either current or non-current. The amendments:

- clarify that the classification of liabilities as current or non-current should only be based on rights that are in place "at the end of the reporting period"
- clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability
- make clear that settlement includes transfers to the counterparty of cash, equity instruments, other assets or services that result in extinguishment of the liability.

This amendment is effective for annual periods beginning on or after January 1, 2022. There is currently a proposal in place to extend effective date for annual periods beginning on or after January 1, 2023. Earlier application is permitted. The extent of the impact of adoption of this amendment has not yet been determined.

4. Mineral properties

Don Pancho Property

On March 30, 2017, Tartisan announced the closing of the acquisition of the Don Pancho polymetallic zinc-lead-silver manganese project in Peru.

Tartisan acquired a 100% undivided interest in the Don Pancho property by paying \$50,000 and issuing 500,000 common shares valued at \$0.14 per share totaling \$70,000. Upon completion of 5,000 metres of drilling and/or underground development a further 150,000 shares are payable, and if a NI 43-101 compliant resource is published, a further 150,000 shares are payable, and if the Company loses control of the Don Pancho project either by sale or joint-venture, a further 200,000 shares are payable. Duran Ventures will retain a 2% net smelter return royalty, of which half (1%) can be purchased by Tartisan for US\$500,000.

The Don Pancho polymetallic project is located in the Province of Huaral, in the Department of Lima Peru, 105 kilometres north-northeast of Lima, comprising one concession of 600 hectares and located approximately between 3,660 meters and 4,487 meters above sea level. A Technical Report on the Don Pancho Polymetallic Project (Zn, Pb,Ag,Mn) NI 43-101 has been filed on Duran Ventures SEDAR profile (2014).

Ichuna Property

On May 24, 2017, Tartisan completed the acquisition of the Ichuña Copper-Silver property in located in the Department of Moquegua in Southern Peru. Tartisan entered into an agreement with Duran Ventures Inc. ("Duran") to acquire 100 per cent interest in the Ichuña copper-silver property by paying Duran a cash payment \$50,000 and issuing 500,000 shares valued at \$0.125 per share totaling \$62,500. Upon completion of 5,000 metres of drilling and/or underground development a further 150,000 shares are payable, and if a NI 43-101 compliant resource is published, a further 150,000 shares are payable, and if the Company loses control of the Don Pancho project either by sale or joint-venture, a further 200,000 shares are payable. Duran retains a 2% NSR of which Tartisan may purchase half (1%) of the NSR for US\$500,000. The Ichuña property is contiguous to San Gabriel project owned by Peru's largest mining company Minas Buenaventura ("Buenaventura").

4. Mineral properties (continued)

Canadian Arrow Mines Limited (Kenbridge and Alexo Properties)

Effective on February 28, 2018, Tartisan closed the acquisition of Canadian Arrow Mines Limited ("Canadian Arrow") announced on October 20, 2017. Tartisan acquired all of the issued and outstanding common shares of Canadian Arrow by issuing common shares in the capital of Tartisan. Pursuant to the terms of the Agreement, Tartisan issued to each Canadian Arrow Mines Limited shareholder one common share of Tartisan for every 17.5 common shares of Canadian Arrow, resulting in the issuance of 7,858,841 common shares at a price of \$0.15 per share of Tartisan. Additionally, Tartisan would issue up to 4,056,767 common shares of Tartisan at \$0.15 per share to settle certain Canadian Arrow debt of \$608,515 pursuant to debt conversion agreements with various Canadian Arrow creditors. Transaction costs of \$130,646 have been included in the consideration paid to acquire Canadian Arrow. In addition, Canadian Arrow granted a 1% Net Smelter Return Royalty relating to its Kenbridge project as part of the debt settlement as it related to a previous loan.

This transaction did not meet the definition of a business combination and therefore, has been accounted for as an asset purchase of mineral property interests with the Company acquiring the outstanding shares of Canadian Arrow effective February 28, 2018 upon the final closing of the agreement. The consideration for the acquisition of Canadian Arrow has been allocated at the fair market value of the assets acquired and liabilities assumed, based on managements' best estimates and taking into account of the information available at the time of the acquisition.

The fair value of the total consideration paid and the aggregate fair value of identified assets acquired and liabilities assumed is summarized in the following table:

Purchase consideration

Common shares	\$ 1,178,826
Debt settlements	\$ 696,600
Transaction costs	\$ 130,646
Total purchase price	\$ 2,006,072

Net assets acquired

Cash	\$ 21,757
Accounts receivable	\$ 15,916
Reclamation deposit	\$ 277,608
Kenbridge exploration asset	\$ 1,843,274
Alexo-Kalex exploration asset	\$ 334,208
Total assets acquired	\$ 2,492,763
Less:	
Accounts payable	\$ (210,310)
Site restoration liability	\$ (276,381)
Total net assets acquired	\$ 2,006,072

The Company's subsidiary, Canadian Arrow, had originally recorded a site restoration liability of \$276,381 for the cost of restoring the Alexo project relating to bulk samples and mining in prior years. These costs are estimated by management and approved by the Ministry of Energy and Northern Development and Mines ("ENDM"). As part of the sale of the Alexo property, this restoration liability has been transferred to the buyer with no remaining obligation to the Company.

4. Mineral properties (continued)

Sale of Alexo-Kalex Nickel Deposit Project

In October, 2018, the Company signed a Definitive Purchase Agreement with VaniCom Resources Limited ("VaniCom") of Perth, Western Australia for the sale of a 100% interest in the Company's Alexo-Kelex Nickel Deposit Project ("Alexo") located near Iroquois Falls, Ontario (the "Property"). The purchase terms included Cdn. \$150,000 to the Company in cash on closing of the Definitive Purchase Agreement. In addition, VaniCom will issue the Company 1,750,000 common shares in the capital of VaniCom with a deemed value of Cdn. \$350,000. As a result of an amalgamation between VaniCon and Class 1 Nickel and Technologies Inc. ("Class 1"), the shares held by the Company in VaniCom were converted to 1,529,720 shares of Class 1 at face value. These shares are subject to a four-month hold period. The Company will receive a 0.5% Net Smelter Return Royalty on any future production from Alexo.

The Company was required to issue reclamation bonds to cover the estimated restoration costs. During the year ended March 31, 2020, the reclamation deposit was received from Class 1 which was being held by the ENDM.

The Definitive Purchase Agreement also includes a requirement that expenditures of at least Cdn. \$750,000 on exploration and development on the Property over a 36-month period.

Sale consideration

Vanicom shares - 1,750,000 (subsequently converted into Class 1 shares)	\$ 350,000
Cash	\$ 150,000

Total sale price	\$ 746,881
Carrying cost of Alexo mineral property	\$ (368,261)
Gain on sale of Alexo mineral property	\$ 378,620

Sill Lake Property

During the year ended March 31, 2020, the Company completed the acquisition agreement with Klondike Bay Resources Limited to purchase a 100% interest in certain claims in the Sault Ste. Marie Mining District of Ontario.

The claims are located in Vankoughnet Township, Sault Ste. Marie Mining District, Ontario, and the purchase terms call for a total cash payment of \$15,000; issuance of 700,000 common shares of the Company and a 2% net smelter return royalty (subject to a 1% buy-back provision for \$250,000).

Tartisan Nickel Corp Notes to Condensed Interim Consolidated Financial Statements Three Months Ended June 30, 2020

(Expressed in Canadian Dollars) Unaudited

6. Investments

	As at June 30, 2020	As at March 31, 2020
Eloro Resources Ltd. Common Shares - 4,000,000 Class 1 Nickel & Technologies Ltd. Common Shares - 1,529,720	\$ 4,120,000 <u>917,832</u>	\$ 1,060,000 <u>152,972</u>
	\$ 5,037,832	\$ 1,212,972

The Common shares of Eloro Resources Ltd. ("Eloro") were acquired by Tartisan for investment purposes and depending on the restrictions imposed by the Lock-Up Agreement, market and other conditions, it may from time to time in the future increase or decrease its ownership, control or direction over securities of Eloro through market transactions, private agreements, or otherwise.

As at the June 30, 2020, year-end, the Company had 10.1% (March 31, 2020 – 10.1%) of the outstanding common shares of Eloro, Tartisan does not exert significant influence on Eloro since it does not have representation on the Board of Directors, does not participate in management or decision-making processes, does not share in any management personnel and there are no material business dealings or transactions between the Tartisan and Eloro going forward. Therefore, the Company is accounting for the Common Shares of Eloro as an investment.

As of June 30, 2020, the Eloro common shares were valued at \$4,120,000 (March 31 2020 - \$1,060,000) based on the market price of \$1.03 (March 31, 2020 - \$0.265). The investments in common shares are considered a Level 1 in the fair value hierarchy. As a result of changes in the fair market value of the shares held in Eloro, an unrealized gain of \$3,824,860 (2020 - \$60,457) has been recorded in the statement of comprehensive gain and loss.

Investment in Class 1 Nickel and Technologies Limited

During the year ended March 31, 2020, the Company acquired 1,750,000 shares of VaniCom, a private arms-length corporation existing under the laws of Australia. The shares were acquired in consideration for property sold by the Company to Vanicom at a price of \$0.20 per share. During the year ended March 31, 2020,, as a result of a reverse take-over transaction conducted by VaniCom and Class 1 Nickel and Technologies Limited ("Class 1"); the shares of VaniCom were exchanged for 1,529,720 shares of Class 1. The total shares owned by the Company represents a minority interest of the total issued and outstanding shares of Class 1. The shares held in Class 1 are classified as FVTPL and are a level 2 investment. Subsequent to June 30, 2020, Class 1 obtained a successful listing on the Canadian Securities Exchange, and as a result has become a Level 1 investment.

During the period ended June 30, 2020, the Company marked up the investment in Class 1 to \$917,832 as a result of a change in fair value of the shares held from updated fair value prices as a result of the Company obtaining a successful listing and becoming a Level 1 investment.

Fair value hierarchy

Financial instruments recorded at fair value on the consolidated statements of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

6. Investments (continued)

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at June 30, 2020 and March 31, 2019.

	Level 1	Level 2	Level 3	Total
March 31, 2020 - Investments	\$ 1,060,000 \$	152,972 \$	-	\$ 1,212,972

10. Related party transactions

Related party transactions conducted in the normal course of operations are measured at the exchange value (the amount established and agreed to by the related parties).

The Company paid or accrued the following amounts to related parties of the Company as defined as directors, management, and companies controlled by directors and management or companies having common directors during the three months ended June 30, 2020 and June 30, 2019:

	June	e 30,
	2020 \$	2019 \$
Chief Financial Officer services	17,361	5,417
Consulting and management fees	36,000	25,000
Director fees	9,000	9,000

As of June 30, 2020, accounts payable and accrued liabilities include \$46,133 (March 31, 2020 - \$40,236) due to these related parties.

Amounts due from related parties are due from a senior advisor of the Company and Company's controlled by senior advisors to the Company, and bears interest at 2.5% per annum, due on demand and secured by specific investment holdings held by the borrower.

11. Loss per share

For the period ended June 30, 2020, basic and diluted loss per share has been calculated based on the loss attributable to common shareholders of \$(3,742,789) (June 30, 2019 - \$119,082) and the weighted average number of common shares outstanding of 100,148,784 (June 30, 2019 - 99,737,391). Diluted loss per share did not include the effect of stock options and warrants as they are anti-dilutive.

12. Commitments and contingencies

On June 22, 2017, Tartisan was served with court documents in Peru relating to a legal claim for labour rights filed by a former general manager of the Company. In January 2017, Tartisan had previously reached a settlement agreement with the claimant and had paid the settlement amount satisfactory to the claimant and with no further amounts or obligations due. On April 16, 2018, the Company through a court proceeding successfully entered into a settlement agreement with the claimant for an amount substantially lower than the original amount sought by the claimant. The proceeding has now terminated.

On June 14, 2018, Tartisan was served with court documents in Canada relating to a legal claim by a supplier under contract with the Company. The Company intends to vigorously defend this case in court and has filed a defence and counterclaim against the supplier. No amount has been accrued in the financial statements.
