Corporate Activity and Update

On September 10, 2019, the Corporation was approved for and commenced a Normal Course issuer bid (the "**NCIB**"). During the period the Corporation purchased under its NCIB 3,258,000 common shares of the Corporation ("**Common Shares**") at an average price of \$0.015. To date the Corporation has purchased a total of 6,197,000 Common Shares.

On February 21, 2020, the Corporation announced a subsequent investment in Galenas, LLC ("**Galenas Ohio**"). The Corporation purchased a convertible promissory note ("**GOH Note**") with a face value and cost of US\$3.3 million. As of this date, total outstanding including accrued interest on the GOH Note is approximately US\$3.8 million. The GOH Note was purchased from Medical Investor Holdings, LLC (d.b.a. Vertical Companies) ("**Vertical**"). The GOH Note is convertible upon the holder's option and subject to regulatory approvals, into a 35% non-dilutive equity interest in Galenas Ohio. On July 22, 2019, the Corporation loaned Vertical \$4 million for inventory and general working capital purposes (the "**Vertical Loan**"). The purchase price was satisfied through the release and discharge of all amounts owing to the Corporation under the Vertical Loan, resulting in the retirement and settlement of the Vertical Loan.

Subsequent Transactions

On July 3, 2020, the Corporation announced the purchase of a US\$1.3 million Convertible Promissory Note issued by Galenas (the "**\$1.3 MM Note**") for a cost of US\$1.3 million. The purchase price was satisfied through the issue of an Unsecured Convertible Debenture ("**Debenture**") to the sellers of the \$1.3 MM Note. The \$1.3 MM Note has an interest rate of US\$10,400 per month, matures August 1, 2021, and converts, at the Corporation's option, into 223 membership units of Galenas (approximately 10.3% equity interest).

The Debenture matures on July 3, 2022, has an interest rate of 8.0%, and is convertible at the option of the holder into 26,000,000 Common Shares. The Corporation may, in its sole discretion, extend the maturity date an additional two years, in which case the interest rate shall be 9.2% and the holder may convert the Debenture at its option into 29,900,000 Common Shares. Interest shall accrue and be payable on January 31, April 30, July 31, and October 31 of each year with the initial payment being due July 31, 2020. The Corporation may elect to defer the accrued interest or pay the accrued interest in cash or Common Shares at the prevailing share price (or any combination thereof). The Corporation may force conversion if the Corporation's 20-day VWAP equals or exceeds US\$0.075 per Common Share. Further, if the \$1.3 MM Note is retired or sold at less than the outstanding amount under the \$1.3 MM Note, the amount owing under the Debenture shall be reduced by the same amount.

COVID-19

The Corporation cautions that current global uncertainty with respect to the spread of the COVID-19 virus and its effect on the broader global economy may have a significant negative effect on the Corporation. While the precise impact of the COVID-19 virus on the Corporation and its US cannabis related investments remain unknown, rapid spread of the COVID-19 virus may have a material adverse effect on global economic activity, and can result in volatility and disruption to global supply chains, operations, mobility of people, consumer spending and the financial markets, which could in turn affect interest rates, credit ratings, credit risk, inflation, business, financial conditions, results of operations for the Corporation's current and future investments and other factors relevant to the Corporation.
