

VirtualArmour Closes \$840K Contract with Global Non-profit

VANCOUVER, B.C., Feb. 28, 2018 -- Premier Managed Services Provider, VirtualArmour International Inc. (the "**Company**") (CSE:VAI) (F:3V3) (OTCQB:VTLR) announced today it had finalized a new two year contract with a global non-profit specializing in research and education.

The contract has a total value of USD\$840K over its term, with a scope that includes the complete redesign of its current network - spanning four different countries - supply and implementation of hardware and ongoing professional and managed security services in order to ensure compliance with varying regulatory environments.

"With technology changing so fast, many companies are simply unable to properly design or implement the solutions they require with their current staff," said Chad Schamberger, VP of Engineering Services at VirtualArmour. "Our ability to deliver specialist technical expertise, along with cutting-edge technologies and proven processes, helps ensure clients are fully compliant and secure."

Technologies delivered as part of this contract include those from Palo Alto Networks, Cisco, and Splunk.

Due to the sensitivities inherent within the industry, VirtualArmour's policy is not to disclose specific client details in press releases.

About VirtualArmour

VirtualArmour is a global cybersecurity and Managed Services provider that delivers customized solutions to help businesses build, monitor, maintain and secure their networks.

The Company maintains 24/7 client monitoring and service management with specialist teams located in its US and UK-based security operation centers ("SOC"). Through partnerships with best-in-class technology providers, VirtualArmour delivers only leading hardware and software solutions for customers that are both sophisticated and scalable, and backed by industry-leading customer service and experience. VirtualArmour's proprietary CloudCastr client portal and prevention platform provides clients with unparalleled access to real-time reporting on threat levels, breach prevention and overall network security.

VirtualArmour services a wide range of clients - which include those listed on the Fortune 500 - within several industry sectors, in over 30 countries, across five continents. Further information about the Company is available under its profile on the SEDAR website, www.sedar.com, on the CSE website, www.thecse.com, and on its website www.virtualarmour.com
