Bloombox Club UK was founded by Dr. Katie Cooper in 2015 after she was working as a psychologist and saw some positive results with clients after introducing plants into her therapeutic practice. In the last few years, Bloombox Club UK has delivered over 55,000 plants to over 24,000 customers across the UK and achieved a high 4.4 star rating on Trustpilot. Further, Bloombox Club UK will provide PlantX with deep industry expertise in the house plant vertical and help the Company grow in the US and Canadian markets utilizing the strategy that made them so successful in the UK.

The acquisition provides us an immediate presence in the UK and serves as a launchpad for expansion into the rest of Europe and internationally. We have identified numerous synergies that will allow both businesses to scale and accelerate growth. We look forward to growing our future operations around the world with their help."

"We are very excited to join the PlantX family and be part of a larger company with a bold vision. Sean and the rest of the PlantX team are aligned with the Bloombox Club team with a focus on delivering customers plant-based education and products that provide holistic health benefits both physically and mentally. We are eager to accelerate our own growth by expanding into Europe and North America while leveraging the deep e-commerce and technical skills of PlantX," said Dr. Katie Cooper, Bloombox Club UK Founder.

PlantX will continue to source plants from Geponics, but plans to grow its selection by having Bloombox Club UK locate additional partners where the Company can API into their inventory and provide their ecommerce platform.

A Note From Katie

I founded Bloombox Club after working as a psychologist and introducing plants into my therapeutic practice. In some cases, the act of nurturing plants was the only thing that allowed me to get through to my clients. Having looked at the extensive evidence linking plants to improved health, and seen the effects of active plantcare firsthand, I am convinced that nature can have a profound impact on our wellbeing.

Time and again, scientific research has shown that houseplants reduce stress levels, increase productivity, and boost our wellbeing. The demands of our fast moving lives mean less of us are taking the time to connect with nature, when it couldn't be more important to do so. I feel passionately about the power of plants and Bloombox Club is a means of sharing that far and wide.

I very much hope you enjoy your plants and the wellbeing benefits they'll bring.

Katie
