

## **Voyager and Market Rebellion Partner to Offer Zero-Commission Digital Asset Trading**

VANCOUVER, British Columbia--(BUSINESS WIRE)--October 30, 2019--Voyager Digital (Canada) Ltd (“Voyager”) (CSE.VYGR, Pink Sheets: VYGVF, Deutsche Bourse:UCD2.F), through its subsidiary, Voyager Digital, LLC, a licensed crypto-asset broker that provides investors with a turnkey solution to trade crypto-assets, and Market Rebellion, LLC, a leading provider of trading education, content and tools for independent investors, today announced that they have engaged in a strategic partnership to offer zero-commission trading for crypto trading for Market Rebellion's trading community.

Market Rebellion will offer its members the ability to trade a full array of crypto currencies using Voyager’s best-in-class crypto execution services and the aggregation of crypto exchange data feeds.

Steve Ehrlich, Voyager Co-Founder and CEO, said, “Demand continues to rise for digital assets and there is a clear desire by independent traders to participate in this emerging asset class. We are delighted to roll out our highly efficient and state-of-art trading infrastructure with such a top tier financial education provider. Now Market Rebellion will not only be able to offer insights on crypto trading to their members, they'll also be able to provide a way to execute trades with zero commissions.”

“We're excited about this partnership because it will allow us to deliver sophisticated digital asset trading capabilities to the independent traders we serve through Market Rebellion,” added Market Rebellion Co-Founder Jon Najarian. “We have been educating our members about the great opportunities in crypto trading and our new alliance with Voyager allows us to better enable our members to take advantage of them.”

As the demand for crypto trading continues to grow, this partnership enables Market Rebellion members to benefit from seamless execution services and the proprietary market data stream that aggregates data from all major crypto exchanges.
