

AMP German Cannabis Group to begin medical cannabis imports from the Netherlands

ERFURT and BERLIN, Germany, July 6th, 2020 – AMP German Cannabis Group Inc. (“AMP” or the “Company”) (CSE: XCX) (FSE: C4T, ISIN: CA00176G1028) announces further to its June 5, 2020 news release The Office of Medical Cannabis (“OMC”), the government organization of the Netherlands for distribution of medical cannabis products, has notified AMP that it will resume exports of EU-GMP medical cannabis to Germany. The OMC will deliver 3,000 grams per month to each German importer due to the high demand and restricted supply currently available for Germany.

AMP has ordered Bedrocan International branded products to be exported by OMC on a monthly basis beginning July 2020. AMP has received all the required licenses to import irradiated cannabis flowers from the Dutch and German government authorities.

Dr. Stefan Feuerstein, Director and President of AMP, commented: “All pieces of the puzzle have come together with the start of our first import. We will be booking our first revenue from the sale of our Bedrocan products this month and hope to receive a higher amount from the Netherlands in August 2020. We are also on track to sign a definitive supply agreement with a Canadian supplier and will be adding pharmaceutical distribution partners that focus on medical cannabis exclusively to our distribution network covering Germany. Our next step is to increase import volumes from Canada in conjunction with developing AMP’s medical cannabis brands for the German market.”

About AMP German Cannabis Group

AMP German Cannabis Group is licensed to import European Union - Good Manufacturing Practice (EU-GMP) medical cannabis and sell to pharmaceutical distributors or pharmacists directly, the only point-of-sale for medical cannabis to German patients.

AMP has entered into a non-exclusive distribution agreement for medical cannabis with a leading distributor of pharmaceuticals products to more than 13,000 pharmacies throughout Germany. AMP imports medical cannabis from the Netherlands and beginning the second half of 2020 from Canada.
