Report on Business

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.

During the reporting period, Xebra Brands Ltd. (“Xebra” or the “Company”) continued to face the same corporate and operational challenges previously disclosed, primarily related to its delayed financial reporting and the resulting

regulatory consequences. There were no material changes to the status of these matters during the reporting period.

As previously reported, the Company was unable to complete its audited annual financial statements, management's discussion and analysis, and related certifications for the year ended February 28, 2025 by the extended deadline. As a result, on September 3, 2025, the British Columbia Securities Commission issued a Failure-to-File Cease Trade Order ("CTO") in respect of the Company's securities. The CTO will remain in effect until the Company completes all outstanding filings and obtains a revocation order from the BCSC.

Since the issuance of the CTO, the Company has also been unable to complete its interim financial statements, interim management's discussion and analysis, and the related certifications for the first, second and third quarters of the current fiscal year. These filings remain outstanding.

In addition, the Company's previously announced ten-for-one share consolidation, originally expected to take effect on September 19, 2025, remains delayed pending revocation of the CTO. The Canadian Securities Exchange requires that all regulatory conditions be satisfied prior to implementing the consolidation. Under the proposed consolidation, the Company's issued and outstanding common shares would be reduced from approximately 80.6 million to approximately 8.1 million on a post-consolidation basis, and all convertible securities would be adjusted accordingly. No name or trading symbol change is anticipated.

The Company continues to work toward completing its outstanding financial filings and restoring compliance with applicable securities regulations.

Other than the matters described above, there were no additional material developments during the reporting period.
