Management Discussion and Analysis

For the three and nine months ended July 31, 2019

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

This Management's Discussion and Analysis ("MD&A") relates to the financial position and results of Yukoterre Resources Inc. (formerly 2560344 Ontario Inc.) (the "Company") for the three and nine months ended July 31, 2019. This MD&A should be read in conjunction with the condensed interim financial statements for the three and nine months ended July 31, 2019 and 2018 and the audited financial statements for the year ended October 31, 2018 and for the period from incorporation (February 8, 2017) to October 31, 2017. Unless otherwise noted, all references to currency in this MD&A are in Canadian dollars.

All financial statement information discussed in this MD&A have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and the payment of liabilities in the ordinary course of business. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they come due.

The Company's certifying officers are responsible for ensuring the financial statements do not contain any untrue statement of material fact or omit a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made. The Company's officers certify that the financial statements fairly present, in all material respects, the financial condition, result of operations and cash flows, of the Company as of the date hereof. The Board of Directors approves the financial statements and ensures that management has discharged its financial responsibilities. The Board of Directors' review is accomplished principally through the Audit Committee, which meets periodically to review all financial reports, prior to filing.

This MD&A is as of September 26, 2019. The reader should be aware that historical results are not necessarily indicative of future performance.

OVERVIEW

The Company is an independent Canadian coal exploration company focused on pursuing the exploration, evaluation and development of resource assets. Yukoterre Resources Inc., formerly 2560344 Ontario Inc., was incorporated under the laws of the Province of Ontario, Canada by Articles of Incorporation, dated February 8, 2017, and on October 25, 2017 was renamed Yukoterre Resources Inc. The principal activity of the Company is the exploration and evaluation of coal. The Company's head office is located at 65 Queen Street West, 8th floor, Toronto, Ontario, M5H 2M5, Canada.

DIVISION MOUNTAIN

On August 8, 2017, the Company entered into a purchase agreement with PitchBlack Resources Ltd. in respect of the purchase of the Division Mountain Property in the Yukon Territory. The Division Mountain Property is located 90 km northwest of Whitehorse in Yukon Territory. The purchase included a total of 15 coal licenses (CYW0143 to CYW0157) and five coal leases. In late 2018, the Corporation renewed four of the coal licenses (CYW0154 to CYW0157) which covers the Division Mountain Property. The remaining coal license, which covered areas outside of the Division Mountain Property, was allowed to lapse.

On August 21, 2017, the Company, closed the purchase of the Division Mountain Property in consideration for cash payment of \$100,000 to PitchBlack Resources Ltd. (a NEX-listed company at the time). The Corporation assumed all property maintenance payments and obligations and indemnified PitchBlack Resources Ltd. against any environmental or reclamation obligations and liabilities. The Corporation is not a related party to PitchBlack Resources Ltd., its officers, directors or other insiders. The sale transaction was an arm's length transaction for the purposes of the policies of the NEX Board of the TSX Venture Exchange. This transaction was approved by the NEX Board of the TSX Venture Exchange.

Yukoterre Resources Inc.
Management Discussion and Analysis
For the three and nine months ended July 31, 2019

Since acquiring the Division Mountain Property, the Company has been focused on (a) reviewing historical drill reports and technical reports in respect of the Division Mountain Property to identify areas warranting further exploration and development and (b) conducting a drilling program in the northeast corner of Pit 4 of the Division Mountain Property to test the possible extension of coal seams in the area and to verify pit wall boundaries. In 2018, the Company conducted a total of four (4) rotary air blast ("RAB") drill holes for a total of 409 feet (the "2018 Drill Program") at a cost of \$109,838. Management reviewed the results of the 2018 Drill Program, along with historical drill reports and technical reports in respect of the Division Mountain Property and has developed a Phase 1 exploration plan for the Division Mountain Property (the "Phase 1 Exploration Program").

HIGHLIGHTS

On February 27, 2019, the Company issued 2,100,541 common shares at \$0.10 per share to settle the \$210,054 loan with 2227929 Ontario Inc.

The Company closed its initial public offering ("IPO") for gross proceeds of \$350,000 from the sale of 3,500,000 common shares at a price of \$0.10 on September 24, 2019. The company has applied to list its common shares on the Canadian Securities Exchange (the "CSE").

OUTLOOK

The Company's ongoing focus is to enhance shareholder value by identifying undervalued and producing assets with exploration upside potential and near term cash flow. Pursuant to the 2018 Drill Program and after the review of historical drill reports and technical reports, management has developed the Phase 1 Exploration Program, as recommended in the Technical Report, for the Division Mountain Property. Management expects to use the proceeds from the IPO to implement the Phase 1 Exploration Program.

SELECTED QUARTERLY INFORMATION

Three months ended	July 31, 2019	April 30, 2019	January 31, 2019	October 31, 2018	July 31, 2018	April 30, 2018	January 31, 2018	For the period from incorporation (February 8, 2017) to October 31, 2017

For the three and nine months ended July 31, 2019, the Company reported a loss of \$7,947 and \$45,346. For the three and nine months ended July 31, 2018, the Company reported a loss of \$16,452 and \$43,706. The Company had a working capital deficit of \$29,506 for the nine months ended July 31, 2019 compared to a working capital deficit of 186,646 for the year ended October 31, 2018.

The Company has and expects to continue to report negative earnings until the Company's exploration program finds and develops producing assets. The Company will continue to utilize proceeds from financing and equity issuances to fund its exploration program and general and administrative operating costs.

As at July 31, 2019, the Company had no operating assets and expects to generate negative cash flow from operations for the foreseeable future.

Cash provided by operating activities for the three months ended July 31, 2019 of \$1,319 resulted from the accumulation of amounts payable. Cash used in operating activities for the nine months ended July 31, 2019 was \$55,677. Uses during the current period were primarily related to consulting and professional fees. Cash was also utilized for the unwriting of the IPO. Cash provided by and used for operating activities for the three and nine months ended July 31, 2018 was \$50,570 and \$26,922 respectively. Uses in the previous period related mainly to consulting and professional fees.

For the three months ended July 31, 2019, the Company received a \$4,800 unsecured and interest free loan from 2227929 Ontario Inc. For the nine months ended July 31, 2019, the Company received a total of \$53,300 in loans from 2227929 Ontario Inc. of which \$39,000 of loans accrued interest at 12%. The loans were settled by the issuance of common shares on February 27, 2019. The Company also received a \$10,000 unsecured loan from Sulliden Mining Capital Inc. which does not accrue interest and has no specific maturity date. For the three and nine months ended July 31, 2018, 2227929 Ontario Inc. loaned \$30,000 and \$82,000 to the Company.

Investing activities used \$6,551 and \$7,568 for the three and nine months ended July 31, 2019 compared to \$89,847 and \$116,953 for the three and nine months ended July 31, 2018 all used to for developing the Division Mountain asset.

LIQUIDITY AND CAPITAL RESOURCES

The Company entered into various loan agreements with 2227929 Ontario Inc. between December 2017 and January 2019. Pursuant to the terms of the loans, 2227929 Ontario Inc. agreed to lend the Company \$196,000 at an interest rate of 12%. On February 27, 2019, the Company issued 2,100,541 common shares at \$0.10 per share to settle the loans and interest totaling \$210,054 to 2227929 Ontario Inc. 2227929 Ontario Inc. loaned a further \$14,300 in unsecured loans to the Company from March 8, 2019 to July 31, 2019. These loans were unsecured and had no interest accruing and were subsequently paid on September 24, 2019 with the proceeds from the IPO.

On December 13, 2018, the Company entered into a loan agreement with Sulliden Mining Capital Inc. for \$10,000. The loan was interest free with no specific maturity date. This loan was subsequently paid on September 24, 2019 with the proceeds from the IPO.

As at July 31, 2019, the Company had working capital deficit of \$29,506 and \$1,115 in cash compared to a working capital deficit of \$186,646 and cash of \$1,060 for the year ended October 31, 2018. The Company's primary cash flow needs are for development of its mining and exploration activities, administrative expenses and working capital.

Yukoterre Resources Inc.

Management Discussion and Analysis

For the three and nine months ended July 31, 2019

At present, the Company has no producing properties and consequently no revenue generating assets or operations. The recovery of the amounts expended for resource properties are dependent on the ability of the Company to obtain necessary financing to complete the development of the Division Mountain coal project or other potential projects and attain future profitable production. The Company's financial success will depend on its ability to raise financing to construct potential projects. At present, the Company has no established sources of income and the success of its exploration and development programs will be contingent upon the Company's ability to raise sufficient equity financing on terms favourable to the Company. The Company does not expect to generate any internal cash flows to help finance the development costs.

Going concern

Yukoterre Resources Inc. is an exploration stage enterprise. To date, the Company has not found proven reserves. The business of exploration for coal involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable operations. The Company's continued existence is dependent upon the acquisition of coal properties, preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. Consequently, the Company's ability to continue as a going concern is dependent on the Company's ability to obtain additional financing if, as and when required, and, ultimately, the attainment of profitable operations or the profitable sale of the Company's exploration interests.

COMMITMENTS AND CONTINGENCIES

Management contracts

The Company is party to certain management contracts. Currently, these contracts require payments of \$Nil as at July 31, 2019 (October 31, 2018 - \$Nil) to be made upon the occurrence of a change in control to the officers of the Company. The Company is also committed to payments upon termination of approximately \$9,600 (October 31, 2018 - \$9,600) pursuant to the terms of these contracts. As a triggering event has not taken place, these amounts have not been recorded in these financial statements.

Contingencies

Coal operations are subject to extensive controls and regulations imposed by various levels of government that may be amended from time to time. The Company's operations may require licenses and permits from various governmental authorities in the countries in which it operates. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to carry out exploration and development of its projects.

Environmental

The Company's exploration and evaluation activities are subject to laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

SHARE CAPITAL AND OFF-BALANCE SHEET ARRANGEMENTS

As at the date of this report, there are 7,020,541 common shares outstanding.

There are no off-balance sheet financing arrangements.

Yukoterre Resources Inc.
Management Discussion and Analysis
For the three and nine months ended July 31, 2019

RELATED PARTY TRANSACTIONS

Key management personnel compensation

For the nine months ended July 31, 2019 and 2018, no compensation has been issued to the executive officers of the Company.

The Company entered into loan agreements with 2227929 Ontario Inc., and Sulliden Mining Capital Inc. 2227929 Ontario Inc. is a company wholly owned by Fred Leigh, who has been a director of the Company since January 14, 2019. Deborah Battiston is a director and officer of Sulliden Mining Capital Inc. On July 31, 2019, there were loans to the Company in the amount of \$14,300 from 2227929 Ontario Inc. and \$10,000 from Sulliden Mining Capital Inc. These loans were subsequently paid on September 24, 2019 with the proceeds from the IPO.

CHANGES IN ACCOUNTING POLICIES

The Company will monitor the development of the relevant IFRS and change its accounting policies accordingly.

New accounting standards

During 2019, the Company adopted a number of new IFRS standards, interpretations, amendments and improvements of existing standards. These new standards and changes did not have any material impact on the Company's consolidated financial statements.

CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions about future events that affect the amounts reported in the financial statements and related notes to the financial statements. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results could differ from those estimates and these estimates could be material.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

Assets' carrying values and impairment charges

In the determination of carrying values and impairment charges, management looks at the higher of recoverable amount or fair value less costs to sell in the case of assets and at objective evidence, significant or prolonged decline of fair value on financial assets indicating impairment. These determinations and their individual assumptions require that management make a decision based on the best available information at each reporting period.

Impairment of exploration and evaluation assets

While assessing whether any indications of impairment exist for exploration and evaluation assets, consideration is given to both external and internal sources of information. Information the Company considers includes changes in the market, economic and legal environment in which the Company operates that are not within its control that could affect the recoverable amount of exploration and evaluation assets and goodwill. Internal sources of information include the manner in which exploration and evaluation assets are being used or are expected to be used and indications of expected economic performance of the assets. Estimates include but are not limited to estimates of the discounted future after-tax cash flows expected to be derived from the Company's assets, costs to sell the assets and the appropriate discount rate.

Reductions in coal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's exploration and evaluation assets.

Yukoterre Resources Inc.
Management Discussion and Analysis
For the three and nine months ended July 31, 2019

Income, value added, withholding and other taxes

The Company is subject to income, value added, withholding and other taxes. Significant judgment is required in determining the Company's provisions for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Company recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. The determination of the Company's income, value added, withholding and other tax liabilities requires interpretation of complex laws and regulations. The Company's interpretation of taxation law as applied to transactions and activities may not coincide with the interpretation of the tax authorities. All tax related filings are subject to government audit and potential reassessment subsequent to the financial statement reporting period. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax related accruals and deferred income tax provisions in the period in which such determination is made.

Contingencies and provisions

Contingencies can be either possible assets or possible liabilities arising from past events which, by their nature, will only be resolved when one or more future events not wholly within our control occur or fail to occur. The assessment of such contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events. In assessing loss contingencies related to legal proceedings that are pending against us or un-asserted claims, that may result in such proceedings or regulatory or government actions that may negatively impact our business or operations, the Company and its legal counsel evaluate the perceived merits of any legal proceedings or un-asserted claims or actions as well as the perceived merits of the nature and amount of relief sought or expected to be sought, when determining the amount, if any, to recognize as a contingent liability or assessing the impact on the carrying value of assets. Contingent assets are not recognized in the financial statements.

ADDITIONAL DISCLOSURES

Risks and uncertainties

The operations of the Company are speculative due to the high-risk nature of its business, which is the acquisition, financing, exploration and development of coal properties. These risk factors could materially affect the Company's future operating results and could cause actual events to differ materially from those described in forward-looking information relating to the Company.

Substantial capital requirements

The Company anticipates making substantial capital expenditures for the acquisition, exploration, development and production of mining reserves in the future. In addition, uncertain levels of near term industry activity coupled with the present uncertainty in global financial markets exposes the Company to additional financing risks. There can be no assurance that debt or equity financing, or funds generated by operations will be available or sufficient to meet these requirements or for other corporate purposes or, if debt or equity financing is available, that it will be on terms acceptable to the Company. The inability of the Company to access sufficient capital for its operations could have a material adverse effect on the Company's business financial condition, results of operations and prospects.

Regulatory

Mining and exploration operations are subject to extensive controls and regulations imposed by various levels of government that may be amended from time to time. The Company's operations may require licenses and permits from various governmental authorities in the countries in which it operates. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to carry out exploration and development of its projects.

Yukoterre Resources Inc.

Management Discussion and Analysis

For the three and nine months ended July 31, 2019

Litigation and arbitration

All industries, including the mining industry, are subject to legal claims, with and without merit. Legal proceedings and arbitration may arise from time to time in the course of the Company's business. Such litigation may be brought against the Company or its subsidiary in the future from time to time or the Company or its subsidiary may be subject to another form of litigation. Defense and settlement costs of arbitration or legal claims can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of the litigation and arbitration process, the process of defending such claims (or any other claims that may be brought against the Company), could take away from management time and effort and the resolution of any particular legal proceeding to which the Company or its subsidiary may become subject could have a material effect on the Company's financial position and results of operations.

Competition

The mining industry is competitive in all its phases. The Company competes with numerous other organizations in the search for and the acquisition of other properties and in the marketing of coal. Our competitors include mining companies that have substantially greater financial resources, staff and facilities than Yukoterre Resources Inc. Our ability to acquire properties in the future will depend on our ability to select and acquire suitable properties or prospects for exploratory drilling. Competitive factors in the distribution and marketing of coal include price and methods, reliability of delivery and control over key operations infrastructure

Conflicts of interest

Certain of the directors and officers of the Company may serve from time to time as directors, officers, promoters and members of management of other companies involved in mining or natural resource exploration and development and therefore it is possible that a conflict may arise between their duties as a director or officer of the Company and their duties as a director, officer, promoter or member of management of such other companies.

The directors and officers of the Company are aware of the existence of laws governing accountability of directors and officers for corporate opportunity and requiring disclosures by directors of conflicts of interest and the Company will rely upon such laws in respect of any directors' and officers' conflicts of interest or in respect of any breaches of duty by any of its directors or officers. All such conflicts will be disclosed by such directors or officers in accordance with applicable laws and the directors and officers will govern themselves in respect thereof to the best of their ability in accordance with the obligations imposed upon them by law.

Exploration, development and production risks

Mining operations involve many risks which even a combination of experience, knowledge and careful evaluation may not be able to overcome. The long-term commercial success of Yukoterre Resources Inc. depends on its ability to find, appraise, develop and commercially produce resources and reserves, which will depend not only on its ability to explore and develop any properties it may have from time to time, but also on its ability to select and acquire additional producing properties or prospects.

The Company may not be able to locate satisfactory properties for acquisition or participation. Moreover, if such acquisitions or participations are identified, Yukoterre Resources Inc. may determine that current markets, terms of acquisition and participation or pricing conditions make such acquisitions or participations uneconomic. There is no assurance that commercial quantities of coal will be discovered or acquired by the Company. Future exploration may involve unprofitable efforts from mines that are productive but do not produce sufficient coal to return a profit after drilling, operating and other costs. Completion of a mine does not assure a profit on the investment or recovery of drilling, completion and operating costs. In addition, drilling hazards or environmental damage could greatly increase the cost of operations, and various field operating conditions may adversely affect the production from a successful mine. These conditions include delays in obtaining governmental approvals or consents, insufficient storage or transportation capacity or other geological and mechanical conditions.

Yukoterre Resources Inc.
Management Discussion and Analysis
For the three and nine months ended July 31, 2019

SUBSEQUENT EVENT

On September 24, 2019, the Company completed its IPO of 3,500,000 common shares in its capital (each a "Share"), at a price of \$0.10 per Share for gross proceeds of \$350,000. The net proceeds from the IPO will be used for working capital and to carry out the Phase 1 exploration program at the Division Mountain coal deposit. See Note 8 to the interim condensed financial statements for the three and six months ended July 31, 2019.

PI Financial Corp. acted as agent (the "Agent") for the IPO. The Agent received a cash commission and a corporate finance fee in consideration for its services. Additionally, the Company has granted the Agent compensation options entitling the holder to purchase in aggregate 245,000 Shares at a price of \$0.10 per Share, exercisable on or before September 24, 2021.

The Shares were approved for listing on the Canadian Securities Exchange on September 20, 2019 and will begin trading on September 25, 2019 under the symbol YT.

FORWARD-LOOKING STATEMENTS

This MD&A contains forward-looking statements. Management's assessment of future plans and operations, capital expenditures, methods of financing capital expenditures and the ability to fund financial liabilities, expected commodity prices and the impact on Yukoterre Resources Inc., future operating costs, future transportation costs, results of arbitration or litigation proceedings; expected change in interest rates may constitute forward-looking statements under applicable securities laws and necessarily involve risks including, without limitation to, statements with respect to the Company's development potential and program; the Company's ability to raise required capital, the future price of coal; the impact of changes in management; the estimation of coal reserves; conclusions of economic evaluation; the realization of mineral reserve estimates; the timing and amount of estimated future production; costs of production; capital expenditures; success of exploration activities; currency exchange rates; potential and stability of foreign jurisdictions; government relations and regulation; and environmental risks. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is based on the opinions and estimates of management as of the date such statements are made. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements, including but not limited to risks related to: unexpected events and delays during exploration, development and construction; revocation of government approvals and contracts; timing and availability of external financing on acceptable terms; actual results of exploration activities; changes in project parameters as plans continue to be refined; future prices of coal; failure of plant, equipment or processes to operate as anticipated; litigation or arbitration proceedings; accidents, labour disputes; risks inherent in foreign operations and other risks of the mining industry. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
