ePlay Announces New Title Released to Google Play Store Big Swish has already been downloaded 10,000 times since its recent release

<u>ePlay Digital Inc</u>. (<u>CSE:EPY</u> |<u>OTC PINK:EPYFF</u> |<u>FSE:2NY2</u>) (the "Company") today announced it has new basketball games approved for Google Play Store. Big Swish has already been downloaded over 10,000 times and is the fastest growing ePlay download - growing at over 84% per week. Last month, the company announced it has surpassed 100,000 downloads of game titles featuring Howie Mandel. Big Swish has already accelerated overall download performance for the company. Today, the company can announce that it took 100 days to reach 100,000 downloads and 107 days to reach 125,000 downloads. Further acceleration is expected as additional marketing, cross-marketing, even more new titles, and new monetization channels are layered into early success.

Big Swish for Google Play is already ePlay's # 6 most downloaded game following #1 Outbreak for Play, #2 an augmented reality basketball title, SwishAR for App Store, #3 and #4 Howie Go Viral for App Store and Play and #5 Swish AR for Play. Last week, the company announced, just three of eleven ePlay titles served up nearly 95,000 ePlay downloads as the company looks to take this marketing success and apply it to game apps already available such as ePlay's eSports (ES) series and upcoming titles Fan Freak and Klocked.

"ePlay has an aggressive strategy for its upcoming app

releases," says Trevor Doerksen, CEO of ePlay Digital. "The Big Swish mini basketball game for Google Play is an important component in our cross-marketing sports and esports program which includes Big Shot Basketball, Howie's Games, Klocked and Fan Freak."

Last week the company also released its second beta of Klocked augmented reality running app. New courses and features continue to be added as the company builds community from early access sign-ups. The website at <u>Klocked.me</u> continues to accept early access participants. <u>Race</u> <u>organizers</u>, <u>charities</u>, and <u>brands</u> are also eligible for early access to see how Klocked can help their organizations drive human performance, donations, and revenues.

ePlay's mobile games and virtual worlds include Howie Mandel's <u>*Howie's Games*</u>, Robert Horry's <u>*Big Shot Basketball*</u>, and ePlay's running app, <u>*Klocked*</u>.
