

Winrock Resources wholly owned subsidiary announces purchase of Bitcoin ATM machine

Vancouver, British Columbia – January 6, 2014 – Newnote Networks Inc., a wholly owned subsidiary of Winrock Resources Inc. (CSE: WR) has purchased its first Bitcoin ATM Machine. Delivery of the unit is expected in Q1 2014.

The ATM machine designed and manufactured by California based Lamassu Inc., enables users to convert fiat to Bitcoin in fifteen seconds and accepts notes from over 200 countries. Newnote is currently scouting locations for the machine. The purchase of additional ATM machines is planned pending a future financing.

Cautionary note: This report may contain forward-looking statements, particularly those regarding cash flow, capital expenditures and investment plans. Resource estimates, unless specifically noted, are considered speculative. Unless otherwise stated, any and all resource or reserve estimates are historical in nature, and should not be relied upon. By their nature, forward-looking statements involve risk and uncertainties because they relate to events and depend on factors that will or may occur in the future. Actual results may vary depending upon exploration activities, industry production, commodity demand and pricing, currency exchange rates, and, but not limited to, general economic factors. Cautionary Note to US investors: The U.S. Securities and Exchange Commission specifically prohibits the use of certain terms, such as "reserves" unless such figures are based upon actual production or formation tests and can be shown to be economically and legally producible under existing economic and operating conditions.
