Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The BacTech bioleaching technology can be applied to the remediation of polluted mine waste in an economically beneficial manner. The BacTech bioleaching technology has been used commercially in the past for the liberation of precious and base metals from difficult to treat mine concentrates and ores. The business plan for BacTech Environmental Corporation is to apply the BacTech bioleaching technology to abatement

projects to remove harmful elements such as arsenic and sulphur from the environment, where this can be assisted by a positive cash flow from metal recovery. Metals which could be extracted include gold, silver, cobalt, nickel, copper, uranium and zinc.

In November 2013, the Company closed a private placement for gross proceeds of \$100,000. The Company issued one million units priced at 10 cents per unit. Each unit consisted of one common share and one common share purchase warrant. Each warrant entitles the holder to acquire one common share at a price of 15 cents until November 9, 2016.

In October 2013 the Company launched a Crowd funding campaign to raise capital for test work for the Telamayu tailings remediation project in Bolivia. The Company is attempting to harness the potential of Crowd funding to raise \$30,000 to fund all the necessary flotation and bioleach test work to determine if the project is viable.

2. Provide a general overview and discussion of the activities of management.

The Company continues work on the bioleach plant proposed to be built in Snow Lake, Manitoba to remediate an Arsenopyrite Residue Stockpile (ARS) located there. Work on the Closure Plan is nearing completion, and the Front End Engineering and Design (FEED) plans should be finalized in August. The Company continues to hold discussions on financing the plant.

The Company continues to receive and evaluate other expressions of interest and potential projects from many different countries and companies.
