

**NEWLOX GOLD VENTURES CORP.**  
**500-900 W Hastings St.**  
**Vancouver B.C. V6C 1E5**

**PRIVATE PLACEMENT \$450,000 TRANCHE CLOSED, APPOINTMENT OF  
PROFESSOR MARCELLO VEIGA P.Eng., AS SENIOR TECHNICAL ADVISOR**

---

**Vancouver, BC, February 12, 2014** – Newlox Gold Ventures Corp. (“Newlox”) is pleased to announce that further to the release of January 10, 2014 announced a private placement of a maximum of 10,800,000 units at \$0.05 per unit proceeds the \$450,000 tranche comprising 9,000,000 units has closed. The balance of the offering remains open for a limited time. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share of Newlox until for a period of two years from the date of closing for \$0.10. The funds will be used for general working capital. Newlox agreed to pay a finder’s fee of 10% from the total funds raised.

Newlox is pleased to announce that Professor Marcello Veiga, P.Eng., PhD. of the Norman B. Keevil Institute of Mining Engineering, at the University of British Columbia has joined the Newlox team as Senior Technical Advisor. The Company has entered into an agreement with Dr. Veiga and the Norman B. Keevil Institute of Mining Engineering of UBC to prepare a report on optimal tailings processing for gold extraction based on material provided by Newlox from tailings from Costa Rica.

Professor Veiga has 31 years of experience as a metallurgical engineer and environmental geochemist in the mining industry. As an associate professor since 1997 at the Norman B. Keevil Institute of Mining Engineering at the University of British Columbia, his has focused his research on sustainable mining and the mitigation of environmental impacts. Professor Veiga’s work led him to be called to serve as Chief Technical Advisor for the United Nations Industrial Development Organization’s Global Mercury Project in Vienna. Through his research, teaching, and work with the United Nations; Professor Veiga has become an internationally recognized expert on environmentally and socially responsible mineral exploitation. Professor Veiga states: “Small Mining is Beautiful...produces faster, less environmental footprint and more social acceptance”

Newlox Gold Ventures Corp. is a gold processing and trading company exploring precious metal related business opportunities focused on Nicaragua and Costa Rica. In collaboration with the Norman B. Keevil Institute of Mining Engineering at the University of British Columbia and the addition of qualified people experienced in Central America it is applying processing technologies for precious metals extraction and soil remediation from tailings. The Company is also engaged in gold trading opportunities from various sources, including artisan miners, recycling, and private sellers.

ON BEHALF OF THE BOARD

*“Donald Gordon”*

President
