Axios Mobile Assets Corp. Receives Second Contract

VAUGHAN, Ontario, April 30, 2014 – Axios Mobile Assets Corporation (CSE: AXA) today announces that they have signed a second five year, long term contract with Centrum Valley Farms (Centrum). This second contract complements the initial Trillium Farms (Trillium) contract that was signed earlier in the month that continues the deployment of the Axios pallet and technology platform to the egg industry.

As with Trillium, Centrum and CCF Brands have identified the first logistics lanes between the Centrum facilities and their customers Distribution Centers. Centrum has begun mapping the roll out process with Axios and their pallet pooling Division, Axios Logistics Solutions Inc. with the intent of having product shipped on the Axios platform in the month of May 2014.

“We are very pleased to have been awarded this second contract for Axios Logistics Solutions Inc. in such a short time. These awards move the company to cash flow in a very condensed time frame and we are excited to be able to continue on at this pace,” said Rich MacDonald, President and CEO of Axios Mobile Assets Corp.

About Axios Mobile Assets

Axios Mobile Assets Corp. is a logistics enabler, providing greater supply chain visibility. The Axios Solution features next generation lightweight composite pallet technology. The Axios Solution, when applied with its proprietary tracking and information system delivers actionable data and metrics for the users in the value chain. The Axios Solution is gaining market acceptance at Vendors and Retailers based on its unique attributes: lower total cost, longer useful life, and customized configurations. The Axios Solution will increase sustainability performance for its users through the generation and subsequent retirement of carbon credits. It is also possible to monetize the generated credits to provide users with an additional revenue stream, to assist in the overall reduction of cost within their supply chain.
