
AbattisBioceuticals Receives Breakthrough Nitric Oxide WIPO Patent Publication

Vancouver, BC – June 23, 2014 – AbattisBioceuticals Corp. (the “Company” or “Abattis”) (OTC Pink: ATTFB) (CSE: ATT), a specialty biotechnology company focused on cultivating, licensing, and marketing proprietary ingredients, bio-similar compounds, equipment, and consulting services to North American medicinal markets, today announced that its wholly-owned subsidiary, BioCell Laboratories, Inc. (“BioCell”), was awarded an International Patent for refining the optimum natural sources of nitric oxide in the human body.

“Our International Patent signifies the groundbreaking nature of our discovery,” said BioCell Laboratories, Inc. advisor, Brazos G. Minshew. “We are on the cusp of creating real-world solutions to the tragedies of our times. Nitric Oxide regulation holds the key to managing conditions from heart to brain to immune system function. Everyone benefits from Nitric Oxide “NO” balance; everyone needs these products.”

Nitric Oxide is known as the “molecule of the millennium” in popular literature, with medical applications in fertility, sports performance, memory, sexual function, blood circulation, blood pressure, and immune function. About 100 years after Alfred Nobel patented Nitroglycerine for use in heart, brain, and immune system disorders, FeridMurad and others received the Nobel Prize in Medicine for discovering the key component in nitroglycerine – Nitric Oxide.

“Abattis and BioCell plan to develop, patent, and market over three dozen products that are firmly grounded in the science underpinning the regulation of Nitric Oxide in the human body,” said AbattisBioceuticals Corp. President & CEO Mike Withrow.

About AbattisBioceuticals Corp.

Abattis is a specialty biotechnology company with capabilities through its wholly owned subsidiaries of cultivating, licensing and marketing proprietary ingredients, bio-similar compounds, patented equipment and consulting services to medicinal markets in North America. The Company is positioned to capitalize on the fast growing trend toward marijuana legalization in the United States and for medicinal use in Canada and international jurisdictions, by supplying and partnering with companies to employ its mass cultivation systems, extraction equipment/technology, and strategic marketing support to licensed growers. The Company also has an extensive pipeline of high-quality products and intellectual property for the rapidly expanding botanical drug market. We follow strict standard operating protocols, and adhere to the applicable laws of Canada and foreign jurisdictions. For more information, visit the Company's website at: www.abattis.com.
