Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is exploring precious metal related business opportunities focused on Nicaragua, Costa Rica, and Ecuador. It has been collaborating with qualified people experienced in acquisition of precious metals from various sources, including artisan miners, recycling, private sellers and internal production in these regions and examining processing technologies in collaboration with the Norman B. Keevil Institute of Mining Engineering at the University of British Columbia.

Processing systems testing continued in Costa Rica where the Company's gravity concentration system proved effective in upgrading the materials from an average of 22 grams per tonne to +300 grams per tonne of gold. A second phase of the circuit has been purchased and, when operational, it is expected to recover the fine gold and increase recovery by ten times the current amounts.

In keeping with the strategy of delivering operational cash flow to support organic growth, the Newlox team has continued to ramp-up a gold trading platform in Latin America whereby the company purchases gold from various sources in the field before reselling the metal through established networks. During the quarter, Newlox achieved an average profit margin of 11% per trade; a result management feel is robust in spite of the decline in the gold price.

2. Provide a general overview and discussion of the activities of management.

Management has been recruiting new Principals, investors and experts as part of their plan to apply optimal processing technologies to existing tailings stockpiles in Latin America to achieve environmental reclamation and precious metals recovery.

On the 1st of May management announced the completion of a Private

Placement subscription for proceeds of \$25,200 by issuing 360,000 units at a price of \$0.07 per unit. Each unit consists of one common share and one common share purchase warrant entitling the holder to purchase one further common share of the Company at an exercise price of \$0.15 per share for a term of 12 months from the issuance. The funds were used for general working capital as Newlox continues to develop its precious metal related business opportunities in Latin America.

Management also made progress on their aim to expand the opportunity for European investors to trade the Company's shares. On the 7th of May the Company's shares began trading on Deutsche Börse Group's XETRA® trading platform, with the requisite bank sponsorship under the symbol NGO. The shares continue to trade on CSE and Frankfurt. XETRA® is Europe's leading trading platform and will provide European investors with an avenue to trade the Company's shares on a respected and high liquidity trading platform.
