On June 6, 2014, the Issuer announced that it has issued a total of 500,000 common shares to a third party consultant for amounts owed for consulting fees relating to business development and marketing services. The shares were issued at a deemed value of \$0.08 per share, which is greater than or equal to the discounted closing market price.

Also on June 6, 2014, the Issuer announced that it has granted a total of 250,000 options to purchase common shares at an exercise price of \$0.15 per share for a period of three years. The options were granted pursuant to the terms of a consulting agreement.

On June 17, 2014, the Issuer announced that it has approved an Advanced Notice Policy effective May 22, 2014. The Advanced Notice Policy was presented to the shareholders of the Issuer at the Issuer’s Meeting held on June 20, 2014 in the form of an amendment to the Issuer’s articles.

In accordance with the Advance Notice Policy, the deadline by which holders of record of common shares in the capital of the Issuer had to submit director nominations to the Issuer prior to the Meeting was June 9, 2014. The Board decided to extend the deadline to 5 PM Pacific Time, Wednesday June 18, 2014. No director nominations from shareholders were accepted for the Meeting after that time.

On June 18, 2014, the Issuer announced that it has entered into an LOI with the Municipality of Puerto Vallarta, Mexico to treat the leachate water at the Puerto Vallarta Landfill site (the “Plant”).

The Issuer and Puerto Vallarta Landfill are working towards finalizing an agreement for Puerto Vallarta Landfill to purchase the Plant for a price of approximately C\$2.21M including financing costs, payable over 72 monthly payments (the “Contract”). The LOI spells out the technology and commercial terms for the proposed undertaking.

Incorporating the Issuer’s proprietary NanoFiltration technology, the Plant reduces heavy metals and other contaminants by up to 99%, rendering the treated leachate fully compliant with the requirements of NOM-001-3 SEMARNAT (Mexico’s Environment Ministry). This will allow the Puerto Vallarta Landfill to clean water locally and safely dispose the treated wastewater into local water courses or use it for agricultural irrigation, saving money on offsite third party treatment and associated transportation charges.

There is a major problem with leachate disposal at a significant number of landfill sites in Mexico. The Issuer’s on site leachate treatment solutions reduce costs and ensure municipalities and private landfill owners are fully compliant with the strictest regulatory requirements. Currently, Mexico has 370 major government owned landfill sites and numerous privately-owned landfills. By law, leachate, which is highly polluted drainage water from land field sites, must be treated to reduce containments before being released into the environment.

On June 18, 2014, the Issuer announced that it has issued common shares to a third party consultant and certain key management for amounts owed for consulting fees. In connection with the issuance of the shares, the Issuer has also issued 1,453,850 warrants exercisable at \$0.13 per share for a term of three years.

The Issuer has also granted stock options to purchase a total of 1,150,000 common shares at an exercise price of \$0.15 per share for a period of three years, in accordance with the provisions of the Issuer's stock option plan. The option exercise price was set pursuant to CSE policies, whereby the exercise price must not be lower than the greater of the closing market prices on (a) the trading day prior to the option grant date, and (b) the date of the option grant.

On June 23, 2014, the Issuer announced that Martin Bernholtz and Brij P.S. Chadda were elected as new board members at the Meeting of the Issuer held on June 20, 2014.

("First Canadian") under which First Canadian will provide consulting services to the Issuer to raise investor awareness, attract investment and find strategic, financial partners, for a term of 12 months from the date of execution of the consulting agreement, for a fee of (i) \$5,000 per month, plus HST, and (ii) the grant a total of 400,000 incentive stock options to First Canadian, exercisable at \$0.15 per share for a period of three years. The grant of the options was announced in a press release on June 18, 2014.

On June 24, 2014, the Issuer announced the voting results of the Meeting held on June 20, 2014. A total of 32,137,416 common shares representing 37.79% of the issued shares of the Issuer were represented at the Meeting.

The Issuer has entered into management agreements as part of the Issuer's new compensation approach. Management has agreed to take part of their compensation in cash and part in shares in order to conserve the Issuer's cash during the current stage of the Issuer's development. The compensation structure adopted will result in a significant cash saving for the Issuer.

In addition, Bundeep Singh Rangar, interim CEO and Chairman of the Board, has incurred \$116,308 in expenditures on behalf of the Issuer during the second and third quarter of the current financial year. In lieu of being repaid in cash for the amounts owed to him by the Issuer, Mr. Rangar has elected to reinvest that amount back into the Issuer. Mr. Rangar has accepted the conversion of the \$116,308 debt into units of the Issuer, converted at \$0.08 per unit. Each unit consists of one common share and one common share purchase warrant, exercisable at \$0.13 per share for a period of three years.
