

QSOLAR LIMITED

FOR IMMEDIATE RELEASE

QSOLAR CONTINUES SALES MOMENTUM AT CLOSE OF SECOND QUARTER

Calgary, Alberta, Canada – July 10, 2014 (CSE:QSL, FSE:Q2O) – QSolar Limited (“QSolar” or the “Corporation”) is pleased to provide an update on sales progress at the close of the second quarter and year to date. Approximately 2.51 megawatts (“MW”) in additional new sales for the second quarter ended June 30, 2014 has been secured and booked. This represents an increase in sales of 188% in this second quarter over the Corporation’s previous first quarter. Together with the 0.87 MW sales announced for the first quarter, the Corporation has generated sales totaling 3.38 MW this year to date. All these sales have been generated from off electrical grid non-certified product and are a direct result of new sales initiatives and marketing efforts centralized out of Shanghai, China since the beginning of the year.

QSolar has been utilizing an internet pay per click advertising program since the beginning of the year, and has now seen repeat solar panel orders from customers and a noticeable increase in demand for the QSF family of flexible, ultra-thin, high efficiency solar panels. The QSF solar panels address a new range of specialty solar applications not offered by other solar manufacturers. Solar panel product has been shipped or is currently being coordinated for shipment from inventory on hand and is being sold at prices within pricing parameters commensurate with the region.

About QSolar Limited

QSolar trades under the symbol QSL on the Canadian Securities Exchange (“CSE”) and Q2O on the Frankfurt Securities Exchange (“FSE”). There are currently 73,748,912 common shares issued and outstanding.

QSolar Limited (www.qsolar.net) and its wholly-owned subsidiary, QSolar Ltd., and its wholly-owned subsidiary, QSolar (Shanghai) Photovoltaic Technology Co. Ltd., develop proprietary trade secret solar related processes and technologies, and manufacture and sell proprietary solar products. The Corporation currently manufactures solar photovoltaic (PV) panels in Shanghai, China using its proprietary trade secret Spraytek® and ESS process and its own QLite and QSS family designs. QSolar Spraytek® panels offer several advantages over competing products as they have significantly lower losses in hot climates due to their design, offer superior solar cell encapsulation for better protection, significant weight savings and durability features over existing competitors PV modules.

Additional information on the operations or financial results of QSolar Limited are included in reports on file with applicable securities regulatory authorities and may be accessed through the CSE website (www.cnsx.ca) and Sedar website (www.sedar.com) under the profile for QSolar.
