Date October 1 2014

#### **Report on Business**

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is exploring precious metal related business opportunities focused on Nicaragua, Costa Rica, and Ecuador. It has been collaborating with qualified people experienced in acquisition of precious metals from various sources, including artisan miners, recycling, private sellers and internal production in these regions and examining processing technologies in collaboration with the Norman B. Keevil Institute of Mining Engineering at the University of British Columbia.

Processing systems testing continued in Costa Rica where the Company's gravity concentration system proved effective in producing concentrate grading +500 grams per tonne of gold. The company currently has over 2.5 tonnes of concentrate inventoried.

In accordance with recommendations presented by the University of British Columbia a new ball mill and a new 6- Cell Denver Flotation Circuit, has been purchased, installed, and commissioned at the plant. This new equipment is designed to recover fine gold, which is not recovered by gravity concentration. The UBC lab testing has identified this additional recovery as the primary value driver in the tailings material.

The Company's operations team worked diligently during August and September with the aim of commissioning the flotation circuit, an event which was announced on the 4<sup>th</sup> of September, 2014.

With the flotation circuit commissioned, the Company's operations team is now focused on the optimization of the processing circuit.

In keeping with the strategy of delivering operational cash flow to support organic growth, the Newlox team has continued to ramp-up a gold trading platform in Latin America whereby the company purchases gold from various sources in the

field before reselling the metal through established networks. During the period, Newlox continued to achieve an average profit margin of 11% per trade; a result management feel is robust in spite of the decline in the gold price.

This issuer conducted its Annual General Meeting (AGM) on the 30<sup>th</sup> of September, 2014. All matters placed before the shareholders at its AGM were approved. The voting report of the Annual General Meeting is available for review on SEDAR.

Donald Gordon, Ryan Jackson, James Miller Tait, Ashok Katey, and Jefferey Benavides were unanimously re-elected as directors of the company for fiscal 2015.

2. Provide a general overview and discussion of the activities of management.

Management has been recruiting new Principals, investors and experts as part of their plan to apply optimal processing technologies to existing tailings stockpiles in Latin America to achieve environmental reclamation and precious metals recovery.
