*Includes 2,290,000 & 2,000,000 shares pending issuance on revocation of CTO.

Note 1: Nature of Business and Corporate Information

First Choice Products Inc. (FCI or the Company) was incorporated under the laws of British Columbia on October 4, 2002. It is a business of design and manufacture of a variety of innovative products. The company's primary focus is presently in the marketing and sales of existing product lines.

On June 13th 2008 the shares of the company commenced trading on the Canadian National Stock Exchange (CNSX) under the trading symbol FCI.

Note 2: Significant Accounting Policies

Basis of Presentation and Statement of Compliance
The Company adopted International Financial Reporting Standards (IFRS) October 1, 2011 with a transition date of October 1, 2010. These condensed interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting as issued by the International Accounting Standards Board (IASB) and its interpretations and are covered by IFRS 1 - First Time Adoption of IFRS. These are the Company's second IFRS condensed consolidated interim financial statements. Accordingly these condensed consolidated interim financial statements do not include all of the information and footnotes required by IFRS for complete financial statements for the year-end reporting purposes.

These condensed consolidated interim financial statements, including comparatives, have been prepared on the basis of IFRS. As a result of ongoing review and possible amendments by interpretive guidance from the IASB and International Financial Reporting Interpretations Committee (IFRIC) may differ from IFRS and interpretation statements applied in preparing these condensed consolidated interim financial statements.

The Company's condensed consolidated interim financial statements were previously prepared in accordance with Canadian Generally Accepted Principles (Canadian GAAP). Canadian GAAP differs in some areas from IFRS. In preparing the condensed consolidated interim financial statements, management has amended certain accounting and presentation methods previously applied in the Canadian GAAP financial statements to comply with IFRS. The comparative figures for 2010 have been restated to reflect these adjustments. Note 12 contains reconciliations and descriptions of the effect of the transition from Canadian GAAP to IFRS.

These condensed consolidated interim financial statements have been prepared on a going concern basis, under the historical cost convention, except for financial assets and financial liabilities which are measured at fair value through profit and loss.

The preparation of the financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed later in note 2.

Basis of Consolidation

The Company consolidates subsidiaries controlled by the Company. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the condensed consolidated interim financial statements from the date that control commences until the date the control ceases.

These condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, PetroQuest Ventures Inc. Inter company balances and transactions, including any unrealized income and expenses arising from intercompany transactions, are eliminated in preparing the condensed consolidated interim financial statements.

Business Combinations

The identifiable assets, liabilities and contingent liabilities of a subsidiary, joint venture entity or an associate, which can measured reliably, are recorded at their provisional fair values at the date of acquisition. Goodwill is the fair value of the consideration transferred (including contingent consideration and previously held non-controlling interests) less the fair value of the Company's share of identifiable net assets on acquisition. Transaction costs incurred in connection with the business combination are expensed. Provisional fair values are finalized within twelve months of the acquisition date.

Goodwill in respect of subsidiaries and joint ventures is included within intangible assets. Goodwill relating to associates is included within the carrying value of the associate.

Where the fair value of the identifiable of the net assets acquired exceeds the cost of acquisition, the surplus, which represents the discount of the acquisition, is recognized directly in the statement of income (loss) and total comprehensive income (loss) in the period of acquisition.

Foreign currency translation

The financial statements are presented in Canadian dollars. Foreign denominated monetary assets and liabilities are translated to their Canadian dollar equivalents using foreign exchange rates that prevailed at the balance sheet date. Non-monetary items are translated at historical exchange rates, except for items carried at market value, which are translated at the rate of exchange in effect at the balance sheet date. Revenue and expenses are translated at average rates of exchange during the year. Exchange gains or losses arising on foreign currency translation are included in the determination of operating results for the year.

Financial Instruments

The Company's financial instruments consist of cash, accounts receivable, bank indebtedness, accounts payable and accrued liabilities, due to shareholders and long term debt.

The Company recognizes financial assets and liabilities on the balance sheet when it becomes a party to the contractual provisions of the instrument.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and on demand deposits, together with short term, highly liquid investments that are readily convertible to a known amount of cash and that are subject to an insignificant risk of changes in value. Cash and cash equivalents are measured at par value.

Trade receivables

Trade receivables do not incur any interest, are short term in nature and are measured at their nominal value net of appropriate allowance for estimated irrecoverable amounts. Such allowances are raised based on an assessment of debtor ageing, past experience or known customer circumstances.

Investments

Investments, other than investments in subsidiaries, joint ventures and associates, are financial asset investments and are initially recognized at fair value. At subsequent reporting dates, financial assets that the Company has the expressed intention and ability to hold to maturity (held to maturity) as well as loans and receivables are measured at amortized cost, less any impairment losses. The amortization of any discount or premium on the acquisition of a held to maturity investment is recognized in the statement of income (loss) and comprehensive income (loss) in each period using the effective interest method.

Investments other than those classified as held to maturity or loans and receivables are classified as either at fair value through profit or loss (which includes investments held for trading) or available for sale financial assets. Both categories are subsequently measured at fair value. Where investments are held for trading purposes, unrealized gains and losses for the period are included in the statement of income (loss) and comprehensive income (loss) within other gains and losses. For available for sale investments, unrealized gains and losses are recognized in equity until the investment is disposed or impaired, at which time the cumulative gain or loss previously recognized in equity is included in the statement of income (loss) and comprehensive income (loss).

Impairment of financial assets including receivables

A financial asset not measured at fair value through profit or loss is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. Losses are recognized in the statement of income (loss) and comprehensive income (loss). When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through the statement of income (loss) and comprehensive income (loss).

Impairment losses relating to available for sale investments are recognized when the decline in fair value is considered significant or prolonged. These impairment losses are recognized by transferring the cumulative loss that has been recognized in the statement of comprehensive income to the statement of income (loss) and comprehensive income (loss). The loss recognized in the statement of income (loss) and comprehensive income (loss) is the difference between the acquisition cost and the current fair value.

Financial liabilities and equity instruments

Financial liabilities and equity instruments are classified and accounted for as debt or equity according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs.

Trade payables and accrued liabilities

Trade payables are not interest bearing and are measured at their nominal value until settled.

Derecognition of financial assets and financial liabilities

Financial assets are derecognized when the rights to receive cash flows from the asset have expired, the right to receive cash flows has been retained but an obligation to pay them in full without material delay has been assumed or the right to receive cash flows has been transferred together with substantially all the risks and rewards of ownership.

Financial liabilities are derecognized when the associated obligation has been discharged, cancelled or has expired.

Offsetting financial assets and liabilities

Financial assets and liabilities are offset and the net amount is presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Derivative financial instruments

Inventories

Inventories are valued at the lower of cost and net realizable value. Cost is determined on a weighted average basis and includes all costs of purchase, costs of conversion (direct costs and an allocation of fixed and variable production overheads) and other costs incurred in bringing the inventory to their present location and condition. Net realizable value is the estimated selling price less estimated costs to complete.

Equipment and leasehold improvements

Equipment and leasehold improvements are carried at cost, less accumulated depreciation and accumulated impairment losses. The cost of an item of equipment and leasehold improvements consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use, and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation is recognized at rates calculated to write off the cost of equipment and leasehold improvements, less their estimated residual value, using the declining balance method.

Asset

Computer software	-	100%	declining balance method
Furniture and fixtures	-	20%	declining balance method
Tools and dies	-	20%	declining balance method
Patent	-	20 year	straight line method
Vehicle	-	30%	declining balance method
Equipment and capital lease	-	20%	declining balance method

An item of equipment and leasehold improvements is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal of the asset, determined as the difference between the net disposal proceeds and the carrying amount of the asset, is recognized in profit or loss in the consolidated statement of comprehensive income or loss.

Where an item of equipment and leasehold improvements comprises major components with different useful lives, the components are accounted for as separate items of plant and equipment. Expenditures incurred to replace a component of an item of equipment and leasehold improvements that are accounted for separately, including major inspection and overhaul expenditures, are capitalized and amortized over their estimated useful life.

Intangible assets

Intangible assets which represent patents are being amortized over a period of twenty years on a straight line basis.

Revenue recognition

Revenues from the sale of products are recognized when the title and risk of loss transfers to the customer, which is generally upon shipment .

Income taxes

Income tax on the profit or loss for the periods presented comprises current and deferred tax. Income tax is recognized in profit or loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates substantively enacted at period end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided using the liability method providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of assets or liabilities that affect neither accounting nor taxable profit and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. To the extent that the Company does not consider it probable that a future tax asset will be recovered, it provides a valuation allowance against that excess.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Earnings (Loss) per share

The Company presents basic and diluted earnings (loss) per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is determined by adjusting the profit or loss attributable to common shareholders and the weighted average number of common shares outstanding for the effects of all dilutive potential of common shares, which is comprised of restricted shares, share purchase warrants and share options granted to employees and directors of the Company.

Significant accounting judgments and estimates

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, profit and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.
Judgments made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the current and following fiscal years are discussed below:

- Estimated useful lives – the estimated useful lives of equipment and leasehold improvements and intangible assets and the related depreciation;
- Trade receivable valuation – the recoverability of trade receivables
- Share-based payments- the inputs used in accounting for share-based payment expense

During the three months ended June 30th 2014 there were no reversals of previous inventory write downs.

Note 7: Intangible assets

The Company's intangible assets are broken down as follows:

	Patents and trademarks	Deferred development
Balance as at Oct 1, 2010	50,118	35,584
Additions	3,288	
Amortization	(3,400)	
Balance as at Sept 30, 2011	50,006	33,360
Additions	1,450

Management's Discussion and Analysis

For the Nine Months Ended

June 30, 2014 (Unaudited)

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS
Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.
The accompanying unaudited financial statements of First Choice Products Inc. have been prepared by and are the responsibility of First Choice Products Inc. management. First Choice Products Inc.' independent auditor has not performed a review of these financial statement

MANAGEMENT'S DISCUSSION AND ANALYSIS

This management's discussion and analysis (the "MD&A") of First Choice Products Inc. (the "Company") is dated June 30, 2014. The MD&A should be read in conjunction with the unaudited financial statements and related notes thereto for the period ended June 30, 2014, which have been prepared in accordance with and using accounting policies in full compliance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), and are available on SEDAR at www.sedar.com.

All dollar figures stated herein are expressed in Canadian dollars, unless otherwise specified.

FORWARD-LOOKING STATEMENT

This MD&A includes certain forward-looking information and forward-looking statements (collectively "Forward-Looking Statements") concerning the future performance of the Company's business, operations and financial performance and condition, as well as management's objectives, strategies, beliefs and intentions. Forward-Looking Statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend" and similar words referring to future events and results. Forward-Looking Statements are based on the current opinions and expectations of management. All Forward-Looking Statements are inherently uncertain and subject to a variety of risks and uncertainties including, but not limited to, competitive risks and the availability of financing, changes in laws or regulations, changes in the financial markets and changes in general economic conditions, as described in more detail in our recent securities filings available at www.sedar.com. Such Forward-Looking Statements are based on a number of assumptions, including but not limited to the level and volatility of the price of molybdenum, the availability of financing, the accuracy of reserve and resource estimates and the assumptions on which those estimates are based and the ability to achieve and maintain certain operational efficiencies. Should one or more risks and uncertainties materialize or should any assumptions prove incorrect, then actual events or results may differ materially from those expressed or implied in the Forward Looking-Statements. Investors are cautioned against placing undue reliance thereon. The Company undertakes no obligation to revise or update the Forward-Looking Statements, except as required by applicable law.

OVERALL PERFORMANCE

Corporate Structure and History

First Choice ("FCI' or the "Company) was incorporated under the laws of British Columbia on October 4, 2002. It is in the business of design, patent acquisitions and manufacture of a variety of innovative products. The Company's primary focus is presently in the marketing and sales and, development of its new patent pending oil well testing Tool. I addition the company is a representative and distributor of a new wind turbine technology the "exoPower Wind Turbine Technology". The technology incorporates a horizontal axis based blade system unlike the prevailing vertical axis blade ("tri-blade") method of generating electrical power.

ITI World Investment Group Inc. ("ITR') was a public company originally listed on the NEX Exchange, a separate board of the TSX Venture Exchange. ITI was incorporated under the laws of Alberta on January 12, 1989 and has registered as an extra-provincial company under the Company Act of British Columbia. Prior to June 12, 2008, ITI had no primary business activity.

On June 12, 2008, ITI completed the Share Exchange Agreement dated May 23, 2008 with the shareholders of First Choice Products Inc. ITI acquired all the issued and outstanding shares of First Choice through the issuance of 10,449,900 shares of common stock of ITI to the shareholders of First Choice. As a result of the acquisition, First Choice became ITI's wholly-owned subsidiary.

On June 13, 2008, the shares of the Company commenced trading on the Canadian National Stock Exchange ("CNSX") under the trading symbol "FCI' and were delisted from the NEX Exchange at the same time.

On October 1, 2008, First Choice Products Inc. amalgamated with mWorld Investment Group Inc. and on January 29, 2010 the name of the Company was changed to First Choice Products Inc.

The Company received the following cease trading orders pending receipt of the Company's September 30, 2012 audited financial statements:

British Columbia Securities Commission	February 4, 2013
Ontario Securities Commission	February 11, 2013
Alberta Securities Commission	May 15, 2013

Description of Business

It is in the business of design, patent acquisitions and manufacture of a variety of innovative products. The Company's primary focus is presently in the marketing and sales and, development of its new patent pending oil well testing Tool. I addition the company is a representative and distributor of a new wind turbine technology the “exoPower Wind Turbine Technology”. The technology incorporates a horizontal axis based blade system unlike the prevailing vertical axis blade (“tri-blade”) method of generating electrical power.

DISCUSSION OF OPERATIONS

The financial results of the Company for the nine months ended June 301, 2014, and comparative quarters are summarized as follows:

	Nine Months Ended June 30 2014 ($)	Nine Months Ended June 30 2013 ($)	Nine Months Ended June 30 2012 ($)
Net Loss	(6,447)	(55,389)	(105,205)
Basic/Diluted Loss per Share	(0.00)	(0.00)	(0.00)
Total Assets	98,970	394,142	394,142
Total Liabilities	139,129	952,488	952,488

During the nine months ended June 30, 2014, the Company had a net loss of $??? consisting primarily of professional fees, filing fees and regulatory fess. Included in accounts payable and accrued liabilities is $131,000 (2013:$206,000) due to officers of the Company .These amounts are unsecure, non-interest bearing and have no specific terms for repayment.

PROPOSED TRANSACTIONS

March 14, 2014 – **First Choice Products Inc.** is pleased to announce that it has closed on the non-brokered financing announced on November 22, 2013. The Company has raised $ 114,700.00 through a non-brokered private placement of 2,294,000 units with each unit consisting of one common share at $0.05 per common share, and one share purchase warrant, good for 24 months from closing of the private placement, exercisable at $0.10 per common share. The common shares are subject to a hold period of 4 months and one day from the date of closing of the non-brokered private placement.

The funds raised will be utilized for ongoing re-organization of the Company, and the completion and filing of the Company's 2012 and 2013 Audited Financial Statements. Upon filing of the said Audited Financial Statements with the requisite regulatory agencies, the Company shall take the steps to be re-instated for trading on the Canadian Securities Exchange. In addition to the issuance of the private placement units, the Company has negotiated a debt settlement of $100,000.00 by way of issuance of 2,000,000 common share units at a deemed price of $0.05 per share and one share purchase warrant, good for 24 months exercisable at $0.10 per common share. This is concurrent with the closing of the non-brokered financing and is subject to regulatory approval. The private placement share issuance and shares for debt issuance and respective hold periods are subject to the revocation of the CTO currently against the company.

March 20, 2014 – **First Choice Products Inc.** (the "**Company**", or "**First Choice**") announced its intention by way of Special resolution 51.6% of the shareholders approved a consolidation ratio of one (1) post-consolidation Common Share for every Ten (10) pre-consolidation Common Shares. Prior to the consolidation there were 30,800,214 common shares (the "Common Shares") issued and outstanding. Following the consolidation there will be 3,080,021 Common Shares issued and outstanding. Any fractional shares resulting from the consolidation will be converted to whole shares. The announcement was issued on July 29, 2013.
The record date for the share consolidation is July 29, 2013.The consolidation is to be effective August 9, 2013.
The consolidation is still pending subject to revocation of the current CTO.

The Company is pleased to announce that it has entered into a letter Of Intent (LOI) with SP Power Farm Group Ltd. and SP Power Farm Group (BC) Ltd. to acquire certain distribution rights to the following unique new technologies more fully described as : "exoPOWER" wind turbines, "exoHOUSING", and "exoTOWER", which collectively make up the "exoPOWER System". This proprietary, patent-pending technology has created a new class of turbines, referred to as the "external axis wind turbines", or "EAWT". FCI will receive the following distribution rights for the exoPOWER wind turbine system for small-wind[1] and mid-wind[2] applications for Canada under a private label and further exclusive distribution rights for the exoPOWER wind turbine system for small-wind and mid-wind sectors for Canada for oil field applications. The consideration to be paid is the issuance of 2,500,000 common shares over a 18 month period. Over a 270 day period FCI will increase its board of directors to 5 and appoint 3 from the management and technical staff of the SP Power Group. Concurrent with the acquisition FCI will raise funds through a non-brokered private placement of up to 3,000,000 units a t $0.05 per unit with a 24 month warrant exercisable at $0.10 per warrant share. Funds are to enable ongoing re-organization of FCI and to the end the 2012 Audited financial Statements are being prepared and the 2013 interim financial statements and MD&A have also been prepared for subsequent auditing. A digital presentation of the exoPower System will be available to those interested by sending a request to info@firstchoiceproductsinc.com.As at June 30, 2014 the agreement between the parties expired due to prolonged period of FCI reaming under a CTO and a definitive agreement not completed by the parties.

During the nine months ended June 30, 2014, and up to the date of this MD&A, there were no other proposed transactions of the Company, other than as disclosed herein.
