BioMark Receives BIAP funding from NRC-IRAP

Vancouver, British Columbia – (March 31, 2015)–BioMark Diagnostics Inc. (“BioMark”) (CSE: BUX, FSE: 20B, OTCQB : BMKDF) is pleased to announce that it has been awarded by NRC – IRAP the Business Innovation Access Program (BIAP) funding for development and optimization of its novel recombinant antibodies.

Rashid Ahmed, President and CEO, comments “This project will help optimize the potential production recombinant antibodies with work to be conducted by Dr. Bach at UBC. These antibodies will be critical in the commercial development of our cancer diagnostic kits. We are excited to be able to develop the antibodies with rich features that can help secure source and quality necessary for medical application kit development”.

BioMark would like to thank both NRC and UBC for their help in this endeavor that can yield both medical and economic benefit to Canada at large.

About BioMark Diagnostics Inc.

BioMark is developing proprietary, non-invasive, and accurate cancer diagnostic solutions which can help detect, monitor and assess treatment for cancer, early and cost effectively. BioMark is currently conducting Phase 3 multi site clinical trial for lung, breast, gastro intestinal and prostate cancers. Additionally trials related to assess response to lung cancer treatment and surgical interventions are being established.

Further information about BioMark is available under its profile on the SEDAR website www.sedar.com and on the CSE website www.thecse.ca.
