

## Khan Files First Quarter 2015 Financial Results

**TORONTO, ONTARIO, Canada, February 26, 2015** – Khan Resources Inc. (CSE:KRI) ("**Khan**" or "**the Company**") announced today that it has filed its financial statements and management's discussion and analysis for the three months ended December 31, 2014 on SEDAR and has posted these documents to its website [www.khanresources.com](http://www.khanresources.com).

### Highlights

*International arbitration action against the Government of Mongolia* – All submissions and hearings have now been completed in respect of the international arbitration action against the Government of Mongolia for the illegal expropriation in 2009 of the Company's mining and exploration licenses for the Dornod uranium project in northeastern Mongolia. The hearing on merits and quantum was completed between November 11 and November 15, 2013 and two post-hearing briefs were subsequently submitted; the first on February 5, 2014 followed by a final brief on April 11, 2014. The Tribunal is continuing to formulate their decision which the Company believes should be forthcoming. The amount of damages sought by Khan currently exceeds \$350 million.

*Cash* – Substantial cash outflows for legal expenses related to the international arbitration came to an end by March 31, 2014. Management is now conserving its cash resources pending the judgment of the Tribunal. The Company's rate of cash expenditures has declined significantly since April 1, 2014. Cash balances are being supplemented by the exercise of outstanding options and by the sale of investments.

*Investments* – At December 31, 2014, the Company held 14.4 million common shares of Macusani Yellowcake Inc. ("Macusani") with a fair value of \$650,000, a decrease of \$289,000 from its value at September 30, 2014. There were no disposals of Macusani shares during the latest quarter. The Company's holdings represent 5.5% of the 259.7 million Macusani outstanding common shares.

*Corporate matters* – The Mongolian subsidiaries were closed on September 30, 2013 and all Mongolian tangible assets were retired. The office in Ulaanbaatar was closed on June 30, 2014. Due to circumstances in Mongolia impeding the legal dissolution of these subsidiaries, the Company determined that it did not have substantive control over these entities; accordingly the assets and liabilities of the Mongolian subsidiaries were derecognized at December 31, 2014.

The following table summarizes financial results of the Company for the first fiscal quarters ended December 31, 2014 and 2013.

In thousands of dollars

## **Forward-Looking Statements and Information**

This press release may contain forward-looking statements and forward-looking information, which are subject to certain risks, uncertainties and assumptions. Forward-looking statements and information are characterized by words such as "will", "plan", "expect", "project", "intend", "believe", "anticipate", "forecast", "schedule", "estimate" and similar expressions, or statements that certain events or conditions "may" or "will" occur. Forward-looking statements and information are not historical facts and are based upon a number of estimates and assumptions and are inherently subject to significant business, social, economic, political, regulatory, competitive and other risks and uncertainties, contingencies and other factors, including the impact of international, Mongolian and Canadian laws, trade agreements and regulatory requirements on Khan's business, properties, licenses, operations and capital structure, Khan's ability to re-instate or re-register the Dornod uranium project licenses, regulatory uncertainty and obtaining governmental and regulatory approvals, legislative, political, social, regulatory and economic developments or changes in jurisdictions in which Khan carries on business, the nature and outcome of pending and future litigation, arbitration and other legal proceedings, the speculative nature of exploration and development, risks involved in the exploration, development and mining business, changes in market conditions, changes or disruptions in the securities markets and market fluctuations in prices for Khan securities, the existence of third parties interested in purchasing some or all of the common shares or Khan's assets, the method of funding and availability of any potential alternative strategic transactions involving Khan or its assets, including those transactions that may produce strategic value to shareholders, the need to obtain, maintain and/or re-register licenses and permits and comply with national and international laws, regulations, treaties or other similar requirements, and uncertainty in the estimation of mineral reserves and resources. In addition, a number of other factors could cause actual results to differ materially from the results discussed in such statements and information, and there is no assurance that actual results will be consistent with them. For further details, reference is made to the risk factors discussed or referred to in Khan's annual and interim management's discussion and analyses and Annual Information Form on file with the Canadian securities regulatory authorities and available on SEDAR at [www.sedar.com](http://www.sedar.com). Such forward-looking statements and information are made or given as at the date of this news release, and Khan assumes no obligation to update or revise them, either publicly or otherwise, to reflect new events, information or circumstances, except as may be required under applicable securities law.
