

James Bay Resources Announces Closing of Final Tranche of Offering

TORONTO, ONTARIO -- (Marketwire – June 16, 2015)

NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE U.S.

James Bay Resources Limited (“**James Bay**” or the “**Company**”) (**CSE:JBR**) announced that it has now raised aggregate gross proceeds of \$3 million by way of a non-brokered private placement (the “**Offering**”) of unsecured convertible debentures (the “**Debentures**”). The third and final tranche of the Offering closed today for proceeds to the Company of \$75,000 bringing the aggregate gross proceeds to the full \$3 million (as previously announced in its press releases dated April 16, April 30, 2015 and May 29, 2015). Net proceeds from the Offering will be used to fund the Company’s working capital needs, including in particular any litigation issues stemming from the Company’s enforcement of its right to acquire a 45% participating interest in OML 25 in Nigeria (the “**Litigation**”), as further disclosed in the Company’s news releases dated March 9, 2015 and January 26, 2015.

Each Debenture bears interest at a rate of 15%, payable semi-annually, and has a maturity date that is three years following the date the Debenture is issued (the “**Maturity Date**”). However, if the Litigation is settled or is subject to a final decision with funds received by the Company prior to the Maturity Date, the purchasers of Debentures under the Ongoing Financing, including the purchasers of Debentures under the Offering (the “**Holder**s”), will have a right to demand payment in full of all amounts owing. In the event that the Company would be left with less than \$1 million dollars in free cash upon such a demand occurring, the amount payable to each Holder shall be reduced pro-rata to ensure that the Company retains \$1 million in free cash.

The Debentures are convertible, in whole or in part, at the option of the Holders, into common shares of the Company (each a “**Common Share**”) at a conversion price of C\$0.17 per Common Share (the “**Conversion Rate**”). Interest may also be converted into Common Shares at the market price at the date of any such conversion, at the option of the Holders. Any conversion of Debentures and interest accrued on the Debentures into Common Shares of the Company will be subject to receipt of all required approvals by the Company. The Debentures may be prepaid by the Company at any time, without penalty, on at least 15 days' notice to the Holders.

Upon completion of the final tranche of the Ongoing Financing, the Company will also concurrently sell and assign, pursuant to separate agreements with each Holder, a pro rata (based on all the Holders) entitlement for up to an aggregate of 30% of the net proceeds of the Litigation, if any (whether as a result of final judgement by a court of competent jurisdiction or settlement for which no appeal or further proceeding may be taken (the “**Final Award**”), after deduction of all related costs and taxes incurred by the Company in the Litigation (the “**Net Final Amount**”), payable to the Holders within 60 days from the receipt of the Final Award, if any. In the event the Company prepays the Debentures in full prior to that date which is one year

from the date of issue and prior to date of the Final Award, then the amount payable to the Holders under the agreement will be adjusted to reflect an aggregate entitlement of 15%.

The securities offered will not be registered under the U.S. Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an exemption from the registration requirements. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in any State in which such offer, solicitation or sale would be unlawful.
