Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is engaged in artisanal tailings remediation and gold trading focused on Central America with expansion targets across Central and South America. The opportunities for production and trading arise from artisan mine tailings, recycling, private sellers, and internal production in these regions.

In collaboration with the Norman B. Keevil Institute of Mining Engineering at the University of British Columbia, the Company has implemented effective, innovative, and environmentally responsible processing and reclamation technologies.

During the month of June, 2015, the Company's operations team continued optimization work in the field building on the initial doré production and mercury recovery reported in May of 2015. Newlox is now applying a comprehensive plan to incrementally increase doré output toward its stated objectives.

Management has commissioned a NI 43-101 report on its activities, which will provide investors with additional insight into the Company's operations and opportunities while confirming that the company is not conducting exploration, orebody definition or mining and does not hold mineral properties, resources, or reserves. Work on this report has progressed rapidly and an advanced draft is now under review.

Newlox announced Newlox announced a private placement of 2,000,000 units at \$0.05 per unit on June 1st, 2015. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one common share of Newlox for a period of up to two years from the date of closing for \$0.10. A finder's fee of C\$4,000 was paid.

2. Provide a general overview and discussion of the activities of management.

Management has been applying modern processing technologies to existing tailings stockpiles in Latin America to achieve environmental reclamation and precious metals recovery.
