

FORM 7
MONTHLY PROGRESS REPORT

Name of CNSX Issuer: **EXCALIBUR RESOURCES LTD.** (the "Issuer").

Trading Symbol: **XBR**

Number of Outstanding Listed Securities: **82,924,831**

Date: **July 8, 2015**

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by the CNSX Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the CNSX.ca website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the CNSX Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is a junior mining company focused on the discovery, development and mining of economically viable precious and base metal mineral resources in Canada and Peru. The Company sold its 49% interest in Minera Catanava within the Municipality of Pinos, State of Zacatecas, Mexico to its 51% partner Minera Apolo in May 2015.

See Press Release on June 3, 2015 "Excalibur Sells Minera Catanava"

On June 25, 2014, in order to develop a potential cash flow stream, the Company announced a Letter of Intent for the acquisition, through the issuance of 1 million shares to a Director, of a 900 hectare high grade gold concession being worked by local informal miners called San Pedro in the State of Piura in northern Peru.

On October 24, 2014 the Company acquired a 900 hectares mineral concession from the Peru government, called San Pedro II, adjacent to San Pedro I. A Peru subsidiary needs to be established in order for these concessions to be properly held in Excalibur's name.

2. Provide a general overview and discussion of the activities of management.

In Peru, the goal was to increase the production from San Pedro I. However, mining was stopped for 3 months due to a very unusual and extended rainy season and only recently was dry enough to resume operations. In future, to avoid the dependence on production solely from San Pedro, the company is now seeking new sources of gold and copper ore with similar gross margins of \$2-300 per ton. So the simpler strategy is to just buy high grade ore from informal miners in batches equivalent to container loads for direct sale into the international concentrate market from the nearest port. In order to attract and assess new sources of supply, the Company is looking into buying a 10 ton per hour 'dry' mill to crush ore to sand size that is high enough grade to be shipped directly to China without further local processing. This 'toll mill' would charge the local miners roughly US\$30 per ton and operate with similar margins generating up to US\$3000 per day as a complement to the 'ore trading' business model. This will require an investment in equipment of approximately US\$50,000 and take about 3 months to set up and permit. Strategically, Excalibur will have the option to choose which ore to buy, receive it as a deposit and/or blend it with other sources in order to maximize the profit margin and increase the frequency of these 'ore trades'.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
