

FUNDAMENTAL APPLICATIONS CORP.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2015

1.1 Date of Report: October 30, 2015

The following Management Discussion and Analysis (“MD&A”) of Fundamental Application Corp. (the “Company” or “Fundamental”) has been prepared by management, in accordance with the requirements of National Instrument 51-102 as of October 30, 2015 and should be read in conjunction with the consolidated financial statements and accompany notes for the year ended June 30, 2015 and the related notes contained therein which have been prepared under International Financial Reporting Standards (“IFRS”). The information contained herein is not a substitute for detailed investigation or analysis on any particular issue. The information provided in this document is not intended to be a comprehensive review of all matters and developments concerning the Company.

All financial information in this MD&A has been prepared in accordance with IFRS and all dollar amounts are quoted in Canadian dollars, the reporting and functional currency of the Company, unless specifically noted.

Forward-Looking Statements

This MD&A contains forward-looking statements and forward-looking information (collectively, “forward-looking statements”) within the meaning of applicable Canadian and US securities legislation. These statements relate to future events or the future activities or performance of the Company. All statements, other than statements of historical fact are forward-looking statements. Forward-looking statements are typically identified by words such as: believe, expect, anticipate, intend, estimate, postulate and similar expressions, or which by their nature refer to future events. These forward looking statements include, but are not limited to, statements concerning:

- the Company’s strategies and objectives, both generally and in respect of its existing business and planned business operations;
- the Company’s plans to acquire users for its products;
- the Company’s future cash requirements;
- general business and economic conditions;
- the Company’s ability to meet its financial obligations as they come due, and to be able to raise the necessary funds to continue operations; and,
- the timing, pricing, completion, regulatory approval of proposed financings if applicable.

Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Inherent in forward looking statements are risks and uncertainties beyond the Company’s ability to predict or control, including, but not limited to, risks related to the Company’s ability to raise the necessary capital or to be fully able to implement its business strategies, and other risks identified herein under “Risk Factors”.

The Company cautions investors that any forward-looking statements by the Company are not guarantees of future performance, and that actual results are likely to differ, and may differ materially, from those expressed or implied by forward looking statements contained in this MD&A. Such statements are based on a number of assumptions, which may prove incorrect, including, but not limited to, assumptions about:

- general business and economic conditions;
- conditions in the financial markets generally, and with respect to the prospects for small capitalization commercial/technology companies specifically;
- the Company’s ability to roll out its business plan which includes new product launches and associated planning in production, sales, distribution and marketing;
- the Company’s ability to secure and retain employees and contractors to carry out its business plans;

These forward-looking statements are made as of the date hereof and the Company does not intend and does not assume any obligation, to update these forward-looking statements, except as required by applicable law. For the reasons set forth above, investors should not attribute undue certainty to or place undue reliance on forward-

looking statements.

Historical results of operations and trends that may be inferred from the following discussion and analysis may not necessarily indicate future results from operations. In particular, up to September 12, 2014 the Company was operating as a private company with constrained resources and such period forms approximately one third of the comparative twelve month period to June 30, 2015. Accordingly, drawing trends from the Company's limited operating history is difficult.

1.2 Overall Performance

Nature of Business and Overall Performance

Fundamental was incorporated on July 14, 2014 under the Business Corporation Act of British Columbia under the name of Kluster Technologies Inc. The Company is in the development of Serum, a social media application for smartphones. On August 1, 2014, the Company changed its name to Antisocial Holdings Ltd. and later changed the name to Fundamental Applications Corp. on September 2, 2014.

On September 18, 2014, the Company commenced trading on the Canadian Securities Exchange ("CSE") under the trading symbol "FUN".

The head office of the Company is Suite 1820 – 925 West Georgia Street, Vancouver, British Columbia, V6C 3L2.

Fundamental designs, develops, markets, and acquires innovative mobile applications targeted at the "Millennials" generation; people born in an age of digital technology, internet access, and smartphones. This demographic is an early adopter of mobile technology, has significant discretionary income, and is lifestyle driven with a willingness to try new things. Their three leading mobile platforms are Foro: a peer-to-peer mobile ecommerce marketplace, Truth: a one-to-one anonymous messaging app, and Serum™: an app that enables users to post questions to their friends and receive answers anonymously.

Plan of Arrangement

On July 21, 2014, the Company entered into an arrangement agreement and plan of arrangement (the "Arrangement") with Antisocial Holdings Ltd. ("Antisocial"), and Salient Corporate Services Inc. ("Salient").

Pursuant to the Arrangement, the following principal steps were completed on September 12, 2014:

- Antisocial purchased all the issued and outstanding common shares of Fundamental, a wholly-owned subsidiary of Salient incorporated on July 14, 2014 for the sole purpose of the Arrangement, from Salient for consideration of \$10,000 and paid \$7,920 for estimated expenses that Salient incurred during the transaction;
- Fundamental acquired 13,700,000 common shares of Antisocial, being all the issued and outstanding share capital, from all the shareholders of Antisocial through a 1-for-1 share exchange;
- Fundamental issued 396,000 common shares of Fundamental to Salient for 1,000 common shares and \$7,920 in cash, which were subsequently distributed to the shareholders of Salient as of the record date of August 20, 2014, on a pro-rated basis according to their shareholdings;

Upon the Arrangement becoming effective on September 12, 2014, Fundamental became a reporting issuer in the jurisdictions of Alberta and British Columbia, and issued a total of 14,096,000 common shares.

As a result of the arrangement, the former shareholders of Antisocial, for accounting purposes, are considered to have acquired control of the Company. Accordingly, the arrangement has been accounted for as a reverse takeover that was not a business combination and effectively a capital transaction of the Company. As Antisocial is deemed to be the accounting acquirer for accounting purposes, its assets and liabilities and operations since incorporation on

April 4, 2014 are included in the consolidated financial statements at their historical carrying value. The consolidated financial statements are a continuation of Antisocial in accordance with IFRS 3, Business Combinations. The Company's results of operations are included from September 12, 2014 onwards.

The public company listing cost does not meet the criteria for recognition of an intangible asset in accordance with IAS 38 "Intangible Assets". Accordingly, the Company charged \$17,920 to the Statement of Comprehensive Loss on the date of the reverse acquisition.

Significant Acquisitions and Dispositions

On July 31, 2014, the Company completed an Asset Purchase Agreement with Vibecast Corp. for the purchase of the intellectual property and intellectual property rights, the application software, and the Trade-Marks using the term "Serum", for the Application Software named "Serum" which had been in development since April 15, 2014. In consideration, the Company issued to Vibecast Corp 3,000,000 common shares at a deemed price of \$0.02 to acquire all the assets relating to the Application Software (the "SerumTM Assets").

On April 8, 2015, the Company completed the acquisition of Foro Technologies Inc. ("Foro"), the owner of the intellectual property and rights for two organically built applications – Truth and Foro.

Pursuant to the terms of the Foro acquisition, Fundamental exchanged \$50,000 cash and 1.7 million shares for 100% of the issued and outstanding shares of Foro. 500,000 of the 1.7 million shares will be released immediately and the remaining 1.2 million shares will be subject to escrow restrictions and released upon the achievement of certain milestones. 600,000 of the escrowed shares will be released once Foro reaches a minimum of 25,000 regular users of Foro and the remaining 600,000 escrowed shares will be released once Foro reaches 50,000 regular users of Foro. If the milestones have not been achieved within 12 months of closing of the acquisition of Foro, all escrowed shares not yet released will be cancelled. Concurrent with the acquisition, Fundamental issued 464,927 shares and the cash consideration of \$50,000 was used to payout certain creditors of Foro Technologies Inc..

1.3 Selected Annual Information

The following data reviews the last two fiscal years and may be used for reference while reading this MD&A. There are no annual results to report prior to June 30, 2014 as the Company was incorporated on April 4, 2014.

1.4 Results of Operations for the Year Ended June 30, 2015

The Company incurred a loss of \$1,627,797 for the year ended June 30, 2015. The plan of arrangement having occurred on September 12, 2014 allowed the Company to expand its operations significantly. Due to this fact, the comparison of the year ended June 30, 2014 provides limited meaningful insights.

Trends in expenses and the composition of significant expenses during the year ended June 30, 2015 were:

- Non-cash share-based payments of \$337,469 represents the fair value of the share purchase options granted throughout the year to directors, officers and consultants of the Company;
- \$501,817 in marketing expenses were incurred in connection with: the live launch of Serum application and advertising and promotion of the application on North-American and European markets; and, marketing expenses including branding and awareness campaigns in connection with the Foro and Truth applications following the April 8 acquisition;
- The Company incurred legal costs of \$91,577 during the year which were a result of the plan of arrangement transaction, preparing private placement and debt settlement agreements, the Foro transaction, and routine legal services
- A listing expense of \$17,920 was paid as consideration to Salient pursuant to the terms of the Arrangement. The balance of listing costs were charged in connection with the listing on the CSE;
- Incurred consulting fees of \$211,029 consisting of \$25,000 paid to a company with a director in common, \$52,000 paid to key management, \$9,728 for an evaluation report on the intellectual property of Vibecast Corp., and \$124,301 to other consultants. Consulting fees include key consultants involved with the Arrangement and consultants devoted to developing and executing product and marketing programs.
- The Company incurred \$236,451 during the year associated with the development of the Company's applications.

1.5 Summary of Quarterly Results

The following is a summary of the Company's financial results for the most recently completed quarters. There are no quarterly results to report prior to June 30, 2014 as the Company was incorporated on April 4, 2014.

Three months ended	Total revenues	Net loss	Loss Per Share (basic and diluted)
June 30, 2015	Nil	\$(454,802)	\$0.04
Mar 31, 2015	Nil	(123,654)	0.01
Dec 31, 2014	Nil	(569,349)	0.05
Sep 30, 2014	Nil	(479,992)	0.04
June 30, 2014*	Nil	(57,069)	0.01

* Period of inception (April 4, 2014) to June 30, 2014

Q1 and Q2 were busy periods during and after the completion of the Arrangement in September 2014. The Company had high costs associated with the Arrangement itself and focussed on developing and executing marketing and awareness campaigns in connection with the Serum application. Q3's loss of \$123,654 was comparatively lower than those in Q1 and Q2 (\$479,992 and \$569,349), while marketing efforts were analyzed. Q4 saw another rise in expenses (total loss in Q4: \$454,802) which were connected to the acquisition, marketing, and development of Foro.

1.6 Liquidity

As at June 30, 2015, the Company had working capital deficiency of \$510,743, including \$27,322 in cash as compared to working capital of \$203,612, including cash of \$241,612 at June 30, 2014.

The Company has not pledged any of its assets as security for loans, or otherwise is not subject to any debt covenants. Based on current information, the Company anticipates that its working capital is insufficient to meet its expected ongoing obligations for the coming year.

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments. See section 1.16 Subsequent Events for additional information.

Short-term Loan

During the year ended June 30, 2015, a former director of the Company advanced \$367,000 to the Company for working capital. The advance bears interest of 8% per annum, is unsecured and is due on demand.

During the year ended June 30, 2015, a shareholder of the Company advanced \$35,000 to the Company for working capital. There are no specific terms for interest payment or repayment of this advance.

1.7 Capital Resources

The Company does not have any other commitments for material capital expenditures.

1.8 Off Balance Sheet Arrangements

There are no off-balance sheet arrangements to which the Company is committed.

1.9 Transactions with Related Parties

Related party transactions are comprised of services rendered by directors and/or officers of the Company or a company with a director in common. Related party transactions are in the ordinary course of business and are measured at the exchange amount.

Key management compensation

The Company considers its Chief Executive Officer, Chief Financial Officer and directors of the Company to be key management.

	Year Ended June 30, 2015	Year Ended June 30, 2014
Administrative expenses		
Consulting fees	\$ 52,000	\$ -
Management fees	10,000	-
Research and development costs	192,250	-
Share-based payments	269,445	-
	<u>\$ 523,695</u>	<u>\$ -</u>

During the year ended June 30, 2015, a former director of the Company advanced \$367,000 to the Company for working capital. The advance bears interest of 8% per annum, is unsecured and is due on demand.

At June 30, 2015 a balance of \$18,000 (2014: \$0) is owing to the Chief Executive Officer and director for consulting fees.

1.10 Fourth Quarter

The net loss for the period was \$454,802 primarily due to the following individual items:

- Research and Development Costs of \$236,451 – primarily concerned with Serum – were incurred in the fourth quarter;
- Consulting fees rose from \$18,000 to \$133,900 due primarily to consultants associated with the Foro development and marketing campaign;
- Depreciation increased by \$38,056 to \$39,544 compared to \$1,488 in the previous quarter;

During the period, basic and diluted loss per shares was \$0.03.

1.11 Proposed Transactions

There are no proposed transactions that will materially affect the performance of the Company.

1.12 Critical Accounting Estimates

Significant Estimates and Assumptions

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the fair value measurements for financial instruments and estimating the fair value for share-based payment transactions. The assumptions and models used for estimating fair value for share-based payment transactions.

Significant Judgements

The preparation of financial statements in accordance with IFRS requires the Company to make judgments, apart from those involving estimates, in applying accounting policies. The most significant judgments in applying the Company's financial statements is the classification of financial instruments and the going concern assumption.

1.13 Changes in Accounting Policies

No changes in accounting policies.

Significant Accounting Policies

New accounting policies that the Company has adopted during the year ended June 30, 2015 or expects to adopt are noted below (also disclosed in the annual June 30, 2014 financial statements):

The following new standards and interpretations are not yet effective and have not been applied in preparing these financial statements. The Company is currently evaluating the potential impacts of these new standards and does not anticipate any material changes to the financial statements upon adoption of this new and revised accounting pronouncement.

IFRS 9 – Financial Instruments (effective January 1, 2018) introduces new requirements for the classification and measurement of financial assets, and will replace IAS 39. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options available in IAS 39.

1.14 Financial Instruments and Risk Management

As at June 30, 2015, the Company's financial instruments consist of cash, accounts payable and accrued liabilities.

Fair value

The carrying value of cash, accounts payable and accrued liabilities approximate their fair value due to the relatively short-term nature of these instruments.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

The Company is exposed to varying degrees to a variety of financial instrument related risks:

Credit risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and amounts receivable. The risk arises from the non-performance of counterparties of contractual financial obligations. The Company has not experienced any significant credit losses and believes it is not exposed to any significant credit risk.

Liquidity risk

The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances and through short-term borrowing. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

The Company intends to meet its current obligations in the following year with funds to be raised through private placements.

Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Management does not believe the Company is exposed to significant interest rate risk as liabilities and cash are non interest bearing as at June 30, 2015.

1.15 Other MD&A Requirements

This MD&A was prepared on October 30, 2015. This MD&A should be read in conjunction with the audited financial statements for the year ended June 30, 2015. This MD&A is intended to assist the reader's understanding of Fundamental Applications and its operations, business, strategies, performance and future outlook from the

perspective of management. The documents mentioned above, as well as news releases and other important information may be viewed through the SEDAR website at www.sedar.com.

This MD&A may contain management estimates of anticipated future trends, activities, or results; these are not a guarantee of future performance, since actual results may vary based on factors and variables outside of management's control. Management is responsible for the preparation and integrity of the financial statements, including the maintenance of appropriate information systems, procedures and internal controls. Management is also responsible to ensure that information disclosed externally, including the financial statements and MD&A, is complete and reliable. Fundamental Application's Board of Directors follows recommended corporate governance guidelines for public companies to ensure transparency and accountability to shareholders. The Board's Audit Committee meets with management to review the financial statement results, including the MD&A, and to discuss other financial, operating and internal control matters. The Audit Committee is free to meet with the independent auditors throughout the year.
