About Eyelogic Systems Inc.

Eyelogic Systems Inc. provides automated refraction eye testing solutions primarily in Canada, the United States, France, and Italy. It operates in two segments, Eyelogic System & Corporate and Investment Structures. The company owns proprietary and patent rights to a software package that allows technicians to perform eyesight testing. It also sells computer and ophthalmic equipment packages, including automated refractors, autorefractors or autorefractors/keratometers, autolensometers, computer equipment, customer hardware interface, and customer interface cabling, as well as its software to opticians, optometrists, eyeglass dispensaries, and other optical related businesses. In addition, the company purchases controlling interests of private companies. Eyelogic Systems Inc. was founded in 1996 and is headquartered in Calgary, Canada.
