

VirtualArmor Closes Over \$3,200,000 in Orders over Last 90 Days

Vancouver, B.C. – (March 8th, 2016) VirtualArmor International Inc. (“**VirtualArmor**” or the “**Company**”) (VAI:CSE) is pleased to announce that the Company has successfully closed over USD \$2,400,000 (CAD \$3,200,000) in orders for its managed security services, professional services, and hardware sales offerings over the last 90-day period.

“Since the beginning of December last year, we have capitalized on our previous years’ efforts to position VirtualArmor as a leader in the managed cybersecurity services business, and as a result, we saw a jump in sales for our various solutions offerings,” said Todd Kannegieter, President and CEO of VirtualArmor.

“It is apparent that our Company’s products are being well received by global brands that entrust us to provide them with leading customized network infrastructure, cybersecurity solutions and ongoing support,” said Matthew Brennan, Vice President of Sales. “In addition to the number of orders received, we have seen a major uptick in new customers to VirtualArmor, coming from a number of leaders in their respective industries that include education, healthcare, and banking.”

“Moving into 2016, we expect to continue adding to our customer base in managed security services, professional services, and hardware sales,” continued Todd Kannegieter. “We are also introducing CloudCastr, our own private cloud offering, which we expect to become a growing portion of our overall revenues. With the continued growth of our managed security solutions, we expect our gross margins to improve significantly, leading to further increase in our profitability.”

About VirtualArmor

VirtualArmor is a cyber security company that delivers solutions to help enterprises build, monitor, maintain and secure their networks from cloud to core. As a managed security services provider, VirtualArmor’s services run 24 hours per day, 7 days per week, 365 days per year through its primary security operations center (“SOC”) located in Middlesbrough, U.K. and a secondary SOC located in Salt Lake City, Utah. Each member of VirtualArmor’s team supports the three main facets of its business: managed services, professional services, and hardware sales, by handling the design, configuration and installation of advanced network and cloud architecture solutions. VirtualArmor uses best-in-breed partnerships to provide solutions for customers that are affordable, highly reliable, scalable, and backed by thorough knowledge of the related technologies, products, and platforms. VirtualArmor has secured partnerships with established technology businesses specializing in network appliances, software, and systems and provides its services to the mid to large enterprise and service provider markets. VirtualArmor customers include a 13-location data center provider, a Fortune 100 oil and gas company, multiple service providers with presences throughout the United States, and household name enterprise organizations located primarily in the western United States. Further information about the Company is available under its profile on the SEDAR website, www.sedar.com, on the CSE website, www.thecse.com, and on its website, <http://www.virtualarmor.com/>.
