**About VirtualArmor**

VirtualArmor is a cyber security company that delivers solutions to help enterprises build, monitor, maintain and secure their networks from cloud to core. As a managed security services provider, VirtualArmor’s services run 24 hours per day, 7 days per week, 365 days per year through its primary security operations center (“SOC”) located in Middlesbrough, U.K. and a secondary SOC located in Salt Lake City, Utah. Each member of VirtualArmor’s team supports the three main facets of its business: managed services, professional services, and hardware sales, by handling the design, configuration and installation of advanced network and cloud architecture solutions. VirtualArmor uses best-in-breed partnerships to provide solutions for customers that are affordable, highly reliable, scalable, and backed by thorough knowledge of the related technologies, products, and platforms. VirtualArmor has secured partnerships with established technology businesses specializing in network appliances, software, and systems and provides its services to the mid- to large- enterprise and service provider markets. VirtualArmor customers include a 13-location data center provider, a Fortune 100 oil and gas company, multiple service providers with presences throughout the United States, and household name enterprise organizations located primarily in the western United States.
