

FORM 5

QUARTERLY LISTING STATEMENT

Name of CNSX Issuer: CINS Holding Corp. (the “Issuer”).

Trading Symbol: CHD

This Quarterly Listing Statement must be posted on or before the day on which the Issuer’s unaudited interim financial statements are to be filed under the *Securities Act*, or, if no interim statements are required to be filed for the quarter, within 60 days of the end of the Issuer’s first, second and third fiscal quarters. This statement is not intended to replace the Issuer’s obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by the CNSX Policies. If material information became known and was reported during the preceding quarter to which this statement relates, management is encouraged to also make reference in this statement to the material information, the news release date and the posting date on the CNSX.ca website.

General Instructions

- (a) Prepare this Quarterly Listing Statement using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the following items must be in narrative form. When the answer to any item is negative or not applicable to the Issuer, state it in a sentence. The title to each item must precede the answer.
- (b) The term “Issuer” includes the CNSX Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

There are three schedules which must be attached to this report as follows:

SCHEDULE A: FINANCIAL STATEMENTS

The Company’s unaudited condensed interim consolidated financial statements for the three and six months ended June 30, 2013 are attached.

SCHEDULE B: SUPPLEMENTARY INFORMATION

The supplementary information set out below must be provided when not included in Schedule A.

1. Related party transactions

Provide disclosure of all transactions with a Related Person, including those previously disclosed on Form 10. Include in the disclosure the following information about the transactions with Related Persons:

- (a) A description of the relationship between the transacting parties. Be as precise as possible in this description of the relationship. Terms such as affiliate, associate or related company without further clarifying details are not sufficient.
- (b) A description of the transaction(s), including those for which no amount has been recorded.
- (c) The recorded amount of the transactions classified by financial statement category.
- (d) The amounts due to or from Related Persons and the terms and conditions relating thereto.
- (e) Contractual obligations with Related Persons, separate from other contractual obligations.
- (f) Contingencies involving Related Persons, separate from other contingencies.

See Note 13 of the Company's unaudited condensed interim consolidated financial statements for the three months ended June 30, 2013, a copy of which is attached.

2. Summary of securities issued and options granted during the period.

Provide the following information for the period beginning on the date of the last Listing Statement (Form 2A):

- (a) summary of securities issued during the period,

No securities were issued during the three months ended June 30, 2013.

- (b) summary of options granted during the period,

No options were issued during the three months ended June 30, 2013.

3. Summary of securities as at the end of the reporting period.

Provide the following information in tabular format as at the end of the reporting period:

- (a) description of authorized share capital including number of shares for each class, dividend rates on preferred shares and whether or not cumulative, redemption and conversion provisions,

500,000,000 common shares with par value of US\$0.0001

- (b) number and recorded value for shares issued and outstanding,

Common shares issued and outstanding as at June 30, 2013: 21,387,083

- (c) description of options, warrants and convertible securities outstanding, including number or amount, exercise or conversion price and expiry date, and any recorded value, and

	Number	Exercise or Conversion price	Expiry date
Options	1,694,500	\$0.10	March 1, 2018
Warrants	3,684,217	\$0.25	August 31, 2014
Warrants	312,549	\$0.50	August 31, 2014
Special warrants	63,131,687	N/A	August 31, 2015

- (d) number of shares in each class of shares subject to escrow or pooling agreements or any other restriction on transfer.

As at June 30, 2013, the Company had 11,542,736 common shares held in escrow.

4. List the names of the directors and officers, with an indication of the position(s) held, as at the date this report is signed and filed.

Name	Position
Chung Yan Lee	Chief Executive Officer, President, Chairman, Director

Sheng Wang	Chief Financial Officer, Corporate Secretary, Director
George Dorin	Director
Stephen So	Director
Shu Wai Chan	Director

SCHEDULE C: MANAGEMENT DISCUSSION AND ANALYSIS

The Company's Management Discussion & Analysis for the three months ended June 30, 2013 is attached.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Quarterly Listing Statement.
2. As of the date hereof there is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 5 Quarterly Listing Statement is true.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

1. Nature of business and going concern

CINS Holding Corp. (formerly Genius World Investments Limited) (the “Company” or “CHD”) was incorporated on August 3, 2007 under the laws of Cayman Islands. Its principal business activities include software research and development, IT consulting services, and the management and maintenance of network system applications. The Company’s registered office is Scotia Centre, 4th Floor, P.O. Box 2804 George Town, Grand Cayman, KY1-1112.

On December 27, 2007, CHD completed a public offering of its shares as a Capital Pool Company for regulatory purposes as defined by TSX Venture Exchange (“TSXV”) Policy 2.4.

Effective August 31, 2012, the Company completed the acquisition of 100% of the issued and outstanding securities of CINS Holding Limited (“CINS”) that constitutes a reverse acquisition (the “Transaction”). Consequently, the Company is deemed to be a continuation of CINS and CHD is deemed to have been acquired in consideration for its issued and outstanding shares prior to the Transaction. On September 13, 2012, the common shares of CHD were listed on the Canadian National Stock Exchange (“CNSX”) under the symbol “CHD” after the completion of the reverse acquisition and the delisting from TSXV.

These condensed interim consolidated financial statements have been prepared on the basis of a going concern, which assumes that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The Company had accumulated deficit of \$2,303,028 and working capital deficiency of \$1,087,004 as at June 30, 2013 (December 31, 2012: accumulated deficit of \$1,729,839 and working capital deficiency of \$525,872). The continuation of the Company as a going concern is dependent upon the ability of the Company to obtain necessary debt and equity financing to achieve its operating and developing objectives, and the Company’s future profitable operations. Management will continue, as appropriate, to seek other sources of financing on favorable terms as required. The outcome of these matters cannot be predicted at this time and there are no assurances that the Company will be successful in achieving its goals. The condensed interim consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

2. Basis of Preparation

a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively “IFRSs”) issued by the International Accounting Standards Board (“IASB”).

These condensed interim consolidated financial statements were authorized for issuance by the Board of Directors on August 28, 2013.

b) Basis of measurement

The condensed interim consolidated financial statements have been prepared on a historical cost basis and are presented in Canadian dollars.

c) Basis of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, CINS, Dongguang CINS Technology Limited (“DCT”), and Stand Capital Limited (“SCL”) (collectively, the “Company”).

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control and continue to be consolidated until the date when such control ceases.

CINS was incorporated on April 6, 2011 under the laws of Hong Kong with registered office at Room 703 Kowloon Building, 555 Nathan Road, Kowloon, Hong Kong.

DCT is a wholly-owned subsidiary of CINS and it was incorporated under the laws of the People’s Republic of China (“PRC” or “China”) on May 19, 2011 as a wholly foreign owned enterprise in China with a registered capital of USD \$600,000. Its head office is located at Room 201, Productivity Building, Songshan Lake National High-Tech Industrial Development Zone, Dongguan, PRC.

SCL is a wholly owned subsidiary of CHD. SCL was incorporated on April 16, 2012 under the law of Hong Kong. Currently SCL does not have any assets and liabilities. It does not carry any business activities.

All material inter-company transactions and balances have been eliminated for the purpose of these condensed interim consolidated financial statements.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies

The principal accounting policies adopted in the preparation of the condensed interim consolidated financial statements are set out below. The policies have been consistently applied to all the periods presented.

a. Significant accounting judgments and estimates

The preparation of these condensed interim consolidated financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue and expenses. Actual outcomes may differ from these estimates under different assumptions and conditions.

In particular, information about significant areas of estimation uncertainty considered by management in preparing the condensed interim consolidated financial statements is described below:

Recovery of deferred tax assets

Judgment is required in determining whether deferred tax assets are recognized on the statement of financial position. Deferred tax assets, including those arising from un-utilized tax losses require management to assess the likelihood that the Company will generate taxable earnings in future periods, in order to utilize recognized deferred tax assets. Estimates of future taxable income are based on forecast cash flows from operations and the application of existing tax laws in each jurisdiction. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the net deferred tax assets recorded at the reporting date could be impacted.

Additionally, future changes in tax laws in the jurisdictions in which the Company operations could limit the ability of the Company to obtain tax deductions in future periods.

Share-based payment transactions

The Company measures the cost of equity-settled transactions by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

Fair value used in valuing recapitalizations

Management estimated the fair value of the consideration transferred in the Company's recapitalization in 2012 based on the quoted market price of CHD's shares at the date of the transaction.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies (Continued)

b. Foreign Currency Translation

The functional currency for CHD is Canadian dollars, for CINS is HK dollars, and for DCT is Chinese Renminbi ("RMB"). The reporting currency of the Company is Canadian dollars.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities not denominated in the functional currency of an entity are recognized in the statement of loss and comprehensive loss.

Non-monetary items measured at historical cost are translated using the exchange rates at the date of the transaction. Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value is determined.

Assets and liabilities of entities with functional currencies other than Canadian dollars are translated at the period end rates of exchange, and the results of their operations are translated at average rates of exchange for the period. Gains or losses resulting from these translation adjustments are included in shareholders' equity as currency translation reserve. On disposal of the foreign operation the cumulative translation differences recognized in equity are reclassified to statement of loss and comprehensive loss.

c. Cash and cash equivalents

Cash and cash equivalents represent cash on hand, demand deposits and money market fund placed with banks or other financial institutions. All highly liquid investments with a stated maturity of 90 days or less from the date of purchase are classified as cash equivalents. There were no cash equivalents as of June 30, 2013 and December 31, 2012.

d. Property and equipment

Property and equipment, which are located in China, are stated at cost, net of accumulated amortization. Amortization is computed using the straight-line method, with 5% residual value for property and equipment located in China, over the expected useful life at the following annual rates:

Office equipment	-	3 years; straight-line
------------------	---	------------------------

e. Research and development expenditures

Expenditure on research and development is capitalized if it can be demonstrated that:

- it is technically feasible to develop the software so that it will be available for use;
- adequate resources are available to complete the development;
- there is an intention to complete and use the software;
- Either the Company or the third party is able to use the software;
- use of the software will generate future economic benefits; and
- expenditure on the project can be measured reliably.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies (Continued)

e. Research and development expenditures (Continued)

Capitalized research and development expenditure will be amortized over the periods the Company expects to receive economic benefit from the software. Development expenditure not satisfying the above criteria and expenditure on the research phase of internal projects are recognized in the statement of loss and comprehensive loss as incurred.

As at June 30, 2013 and December 31, 2012, no research and development expenditures had been capitalized as such expenditures did not fully meet the capitalization criteria and were expensed as incurred (Note 10).

f. Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) that has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

g. Earnings (loss) per share

Basic earnings (loss) per share is computed using the weighted average number of common shares outstanding during the year. Diluted earnings (loss) per share is calculated giving effect to the potential dilution that would occur if securities or other contracts to issue common shares were exercised or converted to common shares using the treasury method. The treasury stock method assumes that proceeds received from the exercise of stock options and warrants are used to repurchase common shares at the prevailing market rate. Diluted loss per share does not adjust the loss attributable to common shareholders or the weight average number of common shares outstanding as the effect is anti-dilutive.

In accordance with IFRSs, the equity structure in the condensed interim consolidated financial statements following a reverse acquisition reflects the equity structure of the legal acquirer (the accounting acquiree), including the equity interests issued by the legal acquirer to effect the business combination.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies (Continued)

h. Share-based payments

The grant date fair value of options granted to employees is recognized as share-based payments, with a corresponding increase in contributed surplus over the vesting period. A forfeiture rate is estimated on the grant date and is adjusted to reflect the actual number of options that vests.

For equity-settled share-based payments transactions, the goods or services received are measured, and the corresponding increase in equity, directly at the fair value of the goods or services received, unless that fair value cannot be estimated reliably. If the fair value of the goods and services received cannot be estimated reliably, the fair value will be measured indirectly by reference to the fair value of the equity instruments issued.

i. Financial assets

All financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held-to-maturity, available-for-sale, loans and receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through profit and loss.

Financial assets classified as loans-and-receivables and held-to-maturity are measured at amortized cost using the effective interest method less any allowance for impairment. The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period.

Financial assets classified as available-for-sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income (loss) except for losses in value that are considered other than temporary or a significant or prolonged decline in the fair value of that investment below its cost.

Transactions costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies (Continued)

j. Financial liabilities

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other-financial-liabilities.

Financial liabilities classified as other-financial-liabilities are initially recognized at fair value less directly attributable transaction costs. After initial recognition, other-financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Financial liabilities classified as FVTPL include financial liabilities held-for-trading and financial liabilities designated upon initial recognition as FVTPL. Derivatives, including separated embedded derivatives, are also classified as held-for-trading unless they are designated as effective hedging instruments. Transaction costs on financial liabilities classified as FVTPL are expensed as incurred. At the end of each reporting period subsequent to initial recognition, financial liabilities classified as FVTPL are measured at fair value, with changes in fair value recognized directly in profit or loss in the period in which they arise. The net gain or loss recognized in profit or loss excludes any interest paid on the financial liabilities.

k. Impairment of financial assets

The Company assesses at the end of each reporting period whether a financial asset measured at amortized cost is impaired.

Assets carried at amortized cost

If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the asset is then reduced by the amount of the impairment. The amount of the loss is recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed to the extent that the carrying value of the asset does not exceed what the amortized cost would have been had the impairment not been recognized. Any subsequent reversal of an impairment loss is recognized in profit or loss.

(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

3. Accounting Policies (Continued)

k. Impairment of financial assets (Continued)

In relation to trade and other receivables, a provision for impairment is made and an impairment loss is recognized in profit and loss when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Impaired debts are written off against the allowance account when they are assessed as uncollectible.

Available for sale

If an available for sale asset is impaired, an amount comprising the difference between its cost and its current fair value, less any impairment loss previously recognized in profit or loss, is transferred from equity to profit or loss. Reversals in respect of equity instruments classified as available-for-sale are not recognized in profit or loss.

l. Derecognition of financial assets and financial liabilities

Financial assets are derecognized when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Company has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized directly in equity is recognized in profit or loss.

For financial liabilities, they are derecognized when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

m. Fair value measurement hierarchy

IFRS 7 requires certain disclosures which require the classification of financial assets and financial liabilities measured at fair value using a fair value hierarchy that reflects the significance of the inputs used in making the fair value measurement. The fair value hierarchy has the following levels:

- a) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- b) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the financial asset or financial liability is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement. Financial assets and financial liabilities are classified in their entirety into only one of the three levels.

(in Canadian Dollars)

3. Accounting Policies (Continued)

n. Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

o. Income Tax

Income tax expense comprises of current and deferred tax. Tax is recognized in the statement of loss and comprehensive loss except to the extent that it relates to items recognized directly into equity, in which case the related tax effect is recognized in equity.

Current tax expense is based on the results for the period as adjusted for items that are not taxable or not deductible. Current tax expense is calculated using tax rates and laws that were enacted or substantively enacted at the year end.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability in the statement of financial position differs from its tax base, except for differences arising on:

- the initial recognition of goodwill;
- the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting or taxable profit; and

Recognition of deferred tax assets is restricted to those instances where it is probable that taxable profit will be available against which the difference can be utilized.

The amount of the asset or liability is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the deferred tax liabilities/(assets) are settled/(recovered).

Deferred tax assets and liabilities are offset when the Company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority on either:

- the same taxable entity; or
- different corporate entities which intend either to settle current tax assets and liabilities on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered.

A deferred tax assets is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

(in Canadian Dollars)

3. Accounting Policies (Continued)

p. New accounting pronouncements

A number of new standards, and amendments to standards and interpretations, are not yet effective for the period ended June 30, 2013, and have not been applied in preparing these financial statements. The following standards and interpretations have been issued by the International Accounting Standards Board and the International Financial Reporting Interpretations Committees with effective dates relating to the annual accounting periods starting on or after the effective dates as follows:

IFRS 9 Financial Instruments replaces the current standard IAS 39 Financial Instruments: Recognition and Measurement. It replaces the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value. IFRS 9 is effective for annual periods beginning on or after January 1, 2015 with early adoption permitted.

IAS 27 Separate Financial Statements has the objective of setting standards to be applied in accounting for investments in subsidiaries, joint ventures, and associates when an entity elects, or is required by local regulations, to present separate (non-consolidated) financial statements.

IAS 28 Investments in Associates and Joint Ventures prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 applies to all entities that are investors with joint control of, or significant influence over, an investee (associate or joint venture).

The amendment to IAS 32 Financial Instruments addresses inconsistencies when applying the offsetting requirements, and is effective for annual periods beginning on or after January 1, 2014.

The extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.

4. Reverse Acquisition

On August 31, 2012, CHD completed the acquisition of 100% of the issued and outstanding securities of CINS. Although the transaction resulted in CINS becoming a wholly-owned subsidiary of CHD, the transaction constitutes a reverse takeover of CHD as the control of the combined companies passed to the former shareholders of CINS. The transaction has been accounted for as a reverse takeover transaction in accordance with guidance provided in IFRS 2 Share Based Payment and IFRS 3 Business Combinations. As CHD did not qualify as a business according to the definition in IFRS 3, this reverse takeover transaction does not constitute a business combination; rather it is treated as an issuance of shares by CINS for the net monetary assets of CHD followed by a recapitalization of CINS.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

4. Reverse Acquisition (Continued)

Further to the reverse takeover transaction, the consolidated financial statements for the year ended December 31, 2012 reflect the assets, liabilities and results of operations of CINS, the legal subsidiary, and CHD. The comparative statements of financial position as at December 31, 2011, and the comparative statements of operations and cash flows for the period ended December 31, 2011 are those of CINS, the legal subsidiary, prior to the reverse takeover.

In connection with the Transaction, CINS completed a non-brokered private placement of 509,000 CINS shares at a price of \$1.964636 per CINS share for total gross proceeds of \$1,000,000. A \$100,000 finders' fee has been paid in cash to a finder in connection with the private placement.

In connection with the acquisition, the Company issued 15,390,313 common shares and 63,131,687 Special Warrants all of which will be held in escrow, to former CINS shareholders. The Company issued 3,996,700 common shares, 3,684,221 \$0.25 warrants and 312,549 \$0.50 warrants, to replace the 509,000 CINS shares. Each warrant entitles the holder to acquire one common share for a period of two years from the completion of the Transaction at a price of \$0.25/\$0.50 per share. \$136,200 was determined as the fair value of the warrants using the Black-Scholes model.

The net assets acquired at fair value on August 31, 2012 were as follows:

Assets:		
Bank deposits	\$	105,661
Prepayments		1,379
Accounts payable		(5,000)
	\$	102,040

Transaction costs in the amount of \$23,697 were incurred by the Company in the completion of the reverse takeover transaction. Under the provisions of IFRS 2 and IFRS 3, these costs are charged as an expense. In addition, the transaction was measured at the fair value of the shares CINS would have had to issue for the ratio of ownership interest in the combined entity to be equivalent to the ratio of ownership interest (between new and former owners) in the combined entity if the transaction had taken the legal form of CINS acquiring CHD. This assumed value of the stock exchange listing of \$62,960 has been charged to expense as listing expense.

5. Financial Instruments

The Company has classified cash and cash equivalents as financial assets as FVTPL, accounts receivable as loans and receivables, accounts payable and accrued liabilities and due to related parties as other liabilities.

The carrying amount of all the Company's financial assets and financial liabilities approximates their fair value due to their short-term nature. Cash and cash equivalents has been valued based on level one of the fair value hierarchy.

CINS HOLDING CORP.

(formerly Genius World Investments Limited)

Notes to the Condensed Interim Consolidated Financial Statements

For the period ended June 30, 2013

(in Canadian Dollars)

5. Financial Instruments (Continued)

The Company is exposed through its operations to the following financial risks:

- Credit risk
- Fair value or cash flow interest rate risk
- Other market price risk
- Liquidity risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them.

General objectives, policies and processes

The management has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them.

The overall objective is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below:

Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations.

The Company's credit risk mainly arises from cash and cash equivalents and deposits with banks and financial institutions. For banks and financial institutions, only independently rated parties with a minimum rating of "A" are accepted.

The Company does not enter into derivatives to manage credit risk. The carrying amounts of financial assets, comprising cash and cash equivalents and accounts receivable, represent the Company's estimate of maximum credit exposures.

Market risk

Market risk arises from the use of interest bearing, tradable and foreign currency financial instruments. It is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in interest rates (interest rate risk), foreign exchange rates (currency risk) or other market factors (other price risk). The Company does not have significant interest rate risk or price risk.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

5. Financial Instruments (Continued)

Foreign exchange risk

The majority of the Company's assets, liabilities, and expenses are denominated in RMB, which is tied to a basket of currencies of China's largest trading partners, is not a freely convertible currency. The Company's reporting currency is Canadian dollar. The appreciation of the RMB against the Canadian dollar would result in an increase in the assets, liabilities, and expenses of the Company and a foreign currency gain included in comprehensive income. Conversely, the devaluation of the RMB against the Canadian dollar would result in a decrease in the assets, liabilities, and expenses of the Company and a foreign currency loss included in comprehensive income. Management believes the foreign exchange risk derived from currency conversions is minimal and therefore does not hedge its foreign exchange risk. At June 30, 2013, \$628 (December 31, 2012: \$15,693) of cash was held in Canadian dollars, \$nil (2012: \$1,358) was held in US dollars, \$12,151 was held in RMB (2012: \$271), and \$566 (2012: \$377) was held in HK dollars.

Foreign exchange risk (Continued)

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a one year period:

The Company is exposed to foreign currency risk on fluctuations of financial instruments related to cash, accounts receivable, accounts payable and accrued liabilities, and due to related parties that are denominated in Chinese RMB and HK Dollars. Sensitivity to a plus or minus 5% change in the foreign exchange rates between HK Dollars and Canadian dollar would affect comprehensive loss by approximately \$2,484 (2011: \$1,390) for the three months ended June 30, 2013.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company is focused on generating sales revenue and is actively pursuing additional sources of financing to ensure that it can meet its ongoing operating requirements and planned capital expenditures. At June 30, 2013, the Company had working capital deficiency of \$1,087,004 (December 31, 2012: \$525,872).

Capital Disclosures

The Company's objectives when maintaining capital are:

- to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company sets the amount of capital it requires in proportion to risk. The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

CINS HOLDING CORP.

(formerly Genius World Investments Limited)

Notes to the Condensed Interim Consolidated Financial Statements

For the period ended June 30, 2013

(in Canadian Dollars)

5. Financial Instruments (Continued)

Changes in the DCT's registered capital and paid-in capital are subject to approvals of the relevant government authorities in the PRC. There can be no assurance that the Company will be able to obtain adequate financing in the future, or that the terms of such financings will be favorable.

6. Segment Disclosure

The Company operates in one reporting segment only, which is software research and development and related services. All of the Company's operations are located in China. As at June 30, 2013 and December 31, 2012, all of the Company's capital assets are situated in China. Cash in the amount of \$628 of the current assets in Canadian dollars was deposited with a Canadian bank as at June 30, 2013.

7. Property and Equipment

	Office equipment	Total

(in Canadian Dollars)

11. Share Capital

(a) Common shares

Authorized Share Capital

As at June 30, 2013 and December 31, 2012, the authorized share capital comprised 500,000,000 common shares with par value of US\$0.0001. The holders of common shares are entitled to receive dividends and are entitled to one vote per share at meetings of the Company. All shares are ranked equally with regards to the Company's residual assets.

Issued Share Capital

At June 30, 2013 and December 31, 2012, there were 21,387,083 common shares outstanding. On August 31, 2012, CHD completed a reverse acquisition transaction with CINS. Pursuant to the transaction, CHD purchased all of the issued and outstanding CINS shares in exchange for issuing an aggregate of 19,387,083 common shares, 63,131,687 special warrants, and 3,996,770 share purchase warrants to the shareholders of CINS (see Note 4).

(b) Escrow shares

As at June 30, 2013, the Company had 11,542,736 common shares held in escrow (December 31, 2012: 13,851,282 common shares held in escrow). These escrowed shares will be released every six months over a course of three years.

(c) Share Purchase Warrants

On August 31, 2012, in connection with the reverse acquisition transaction with CINS, the Company issued 3,996,770 share purchase warrants, of which, 3,684,223 warrants have an exercise price of \$0.25 and 312,547 warrants have an exercise price of \$0.50. These share purchase warrants will expire two years from the date of issuance. The share purchase warrants have a grant date fair value of \$136,200 using the Black-Scholes option-pricing model with the following assumptions on the grant date: risk-free interest rate of 1.15%, expected life of 2 years and expected volatility of 183%.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

11. Share Capital (continued)

(c) Share Purchase Warrants (continued)

A summary of the Company's warrants as at June 30, 2013 and December 31, 2012 are as follows:

	Number of warrants	Weighted average exercise price \$	Expiry date
December 31, 2011	-		
Warrants issued	3,684,223	0.25	August 31, 2014
Warrants issued	312,547	0.50	August 31, 2014
June 30, 2013 and December 31, 2012	3,996,770	0.27	

The weighted average remaining contractual life for the warrants outstanding as at June 30, 2013 is 1.17 years (December 31, 2012: 1.67 years).

(d) Special Warrants

On August 31, 2012, in connection with the reverse acquisition transaction with CINS, the Company issued 63,131,687 Special Warrants to the founding shareholders of CINS. Ten percent of the Special Warrants were released on the issuance date. The rest will be held in escrow and will be released every six months over a course of three years. As at June 30, 2013, 47,348,765 Special Warrants were held in escrow (December 31, 2012: 56,818,518 Special Warrants).

Each Special Warrant entitles the holder to receive, on exercise or deemed exercise and without payment of further consideration, one common share of the Company. The Special Warrants may not be exercised until, and will be deemed to be exercised wholly or partially from time to time on, the date(s) on which all of the following conditions have been met:

- 1) the Company has raised additional equity financing following the closing date of not less than \$0.065 per Special Warrant exercised or deemed to be exercised; and
- 2) the Company has received confirmation from the CNSX that the CNSX has received evidence satisfactory to the CNSX that on exercise or deemed exercise of the Special Warrants, the public float will still constitute at least 10% of the total issued and outstanding Common Shares;

provided that any Special Warrants not exercised or deemed to be exercised on or before the third anniversary of the listing of the Company's common shares on the CNSX will be deemed to be cancelled and no longer exercisable.

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

11. Share Capital (continued)

(e) Stock Options

The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of common shares issuable pursuant to options granted under the Plan may not exceed 10% of the number of issued common shares of the Company at the time of the granting of the options. Options granted under the Plan will have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the discounted market price of the common shares or such other price as may be agreed to by the Company and accepted by CNSX.

On September 28, 2012, the Company granted incentive stock options to certain directors, officers, and employees, entitling them to purchase up to a total of 2,138,500 shares at a price of \$0.70 per share for a period of five years. The options issued to directors and officers vested at the end of every six months over a course of 18 months. The options issued to employees will vest at the end of every six months over a course of 36 months. These options were later cancelled entirely on December 14, 2012.

On March 1, 2013, the Company granted incentive stock options to certain directors, officers, and employees, entitling them to purchase up to a total of 2,029,000 shares at a price of \$0.10 per share for a period of five years. The options issued to directors and officers will vest at the end of every six months over a course of 18 months. The options issued to employees will vest at the end of every six months over a course of 36 months.

The stock options granted on March 1, 2013 were considered re-issuance of stock options cancelled on December 14, 2012, except for the new options granted to two directors. For the three months ended June 30, 2013, share-based payment has been accounted with a fair value of \$21,807 using the Black-Scholes option-pricing model with the following assumptions on the grant date: risk-free interest rate of 1.30%, expected life of 5 years and expected volatility of 170%, forfeiture rate of 15% for options granted to employees and forfeiture rate of nil for options granted to directors.

A summary of the Company's options as at June 30, 2013 and December 31, 2012:

	Number of options	Weighted average exercise price
December 31, 2011	-	-
Options granted	2,138,500	\$0.70
Options forfeited	(259,500)	0.70
December 31, 2012	1,879,000	0.70
Options canceled	(1,879,000)	0.70
Options granted	2,029,000	0.10
Options forfeited	(334,500)	0.10
June 30, 2013	1,694,500	\$0.10

CINS HOLDING CORP.
(formerly Genius World Investments Limited)
Notes to the Condensed Interim Consolidated Financial Statements
For the period ended June 30, 2013
(in Canadian Dollars)

12. Loss Per Share

In calculating the weighted average number of ordinary shares outstanding (the denominator of the earnings per share calculation) during the period in which the reverse acquisition occurs:

- (a) the number of ordinary shares outstanding from the beginning of that period to the acquisition date shall be computed on the basis of the weighted average number of ordinary shares of the legal acquiree (accounting acquirer) outstanding during the period multiplied by the exchange ratio established in the merger agreement; and
- (b) the number of ordinary shares outstanding from the acquisition date to the end of that period shall be the actual number of ordinary shares of the legal acquirer (the accounting acquiree) outstanding during that period.

As per the above IFRS requirements, as at June 30, 2013 and December 31, 2012, there were 21,387,083 and 17,405,621 weighted average shares outstanding, respectively.

IFRS also requires that the basic earnings per share for each comparative period before the acquisition date presented in the condensed interim consolidated financial statements following a reverse acquisition shall be calculated by dividing:

- (a) the profit or loss of the legal acquiree attributable to ordinary shareholders in each of those periods by
- (b) the legal acquiree's historical weighted average number of ordinary shares outstanding multiplied by the exchange ratio established in the acquisition agreement.

As per the above IFRS requirements, for the three months ended June 30, 2013 and June 30, 2012, there were 21,387,083 and 15,390,313 weighted average shares outstanding, respectively.

13. Related Party Transactions

The Company's key management personnel have authority and responsibility for overseeing, planning, directing and controlling the activities of the Company and consist of the Board of Directors and the Executive management team.

Transactions	Three months ended June 30, 2013	Three months ended June 30, 2012
	\$	\$
CEO and CFO salary	75,000	-

Amount due to CEO	615,380	286,627
	<u>950,917</u>	<u>451,262</u>

The Chief Executive Officer of the Company is also part of the senior management team of Guangdong CINS Technology Limited (“GCT”), a domestic private company incorporated under the laws of PRC. On August 26, 2011, the Company entered into “Technology License and Technical Support Agreement” with GCT, pursuant to which the Company provides technology and marketing services to GCT in exchange of the 30% of the GCT’s net income. For the three months ended June 30, 2013 and June 30, 2012, there was \$nil income earned under the agreement. As of June 30, 2013, the Company owes \$249,912 to GCT (December 31, 2012: \$134,010), the balance is no interest bearing and due on demand.

As at June 30, 2013 and December 31, 2012, DCT owes \$615,380 and \$286,627 to Mr. Chung Yan Lee, respectively. The amount is non-interest bearing, uncollateralized, unsecured and repayable on demand.

On January 1, 2013, DCT and GCT signed a cost recovery agreement whereby GCT will reimburse DCT for expenses incurred by DCT for providing certain technical services to GCT plus a service fee equivalent to 10% of the costs reimbursable by GCT. Pursuant to this agreement, DCT has recorded service fee revenue of \$996 for the three months ended June 30, 2013.

14. Commitments

As at June 30, 2013, the Company has the following commitments:

Office lease agreement:

December 31, 2013	\$ 36,572
December 31, 2014	25,721
Total	<u>\$ 62,293</u>

Internet services and servers

December 31, 2013	<u>\$ 11,895</u>

FORM 51-102F1
Management Discussion and Analysis
CINS Holding Corp.
(formerly Genius World Investments Limited)
For the period ended June 30, 2013

Date: August 28, 2013

The following discussion and analysis should be read in conjunction with the unaudited condensed interim consolidated financial statements of CINS Holding Corp. (formerly Genius World Investments Limited) (“CHD” or the “Company”) for the period ended June 30, 2013 and audited financial statements of the Company for the year ended December 31, 2012, together with the accompanying notes that form part of the statements. Additional information relevant to the Company is available for review on SEDAR at www.sedar.com. All amounts are expressed in Canadian dollars unless otherwise stated. References to notes are with reference to the financial statements.

Forward Looking Information

Certain information in this management discussion and analysis (“MD&A”) is forward-looking within the meaning of certain securities laws, and is subject to important risks, uncertainties and assumptions. The forward-looking information is based on certain assumptions, which could change materially in the future. The forward-looking information in this MD&A describes the Company's expectations as of the date of this MD&A. The results or events anticipated or predicted in such forward-looking information may differ materially from actual results or events. The forward-looking information contained in this MD&A represents the expectations of the Company as of the date of this MD&A and, accordingly, is subject to change after such date. Readers should not place undue importance on forward-looking information and should not rely upon this information as of any other date.

Description of Business and Overall Performance

CINS Holding Corp. (“CHD”) was incorporated on August 3, 2007 under the laws of Cayman Islands. On December 27, 2007, CHD completed a public offering of its shares as a Capital Pool Company for regulatory purposes as defined by TSX Venture Exchange (“TSXV”) Policy 2.4. On September 13, 2012, the common shares of CHD were listed on the Canadian National Stock Exchange (“CNSX”) under the symbol “CHD” after the completion of the reverse acquisition of CINS Holding Limited (“CINS”) and the delisting from TSXV.

CHD completed a reverse acquisition transaction with CINS on August 31, 2012. Pursuant to the transaction, CHD purchased all of the issued and outstanding CINS shares in exchange for issuing an aggregate of 19,387,083 common shares, 63,131,687 special warrants, and 3,996,770 share purchase warrants to the shareholders of CINS.

After the reverse acquisition, CINS became a wholly owned subsidiary of CHD. CINS was incorporated on April 6, 2011 under the laws of Hong Kong with registered office at Room 703 Kowloon Building, 555 Nathan Road, Kowloon, Hong Kong.

Dongguan CINS Technology Limited (“DCT”) was incorporated under the laws of the People’s Republic of China (“PRC” or “China”) on May 19, 2011 as a wholly foreign owned enterprise in China with a registered capital of USD \$600,000. Its head office is located at Room 201, Productivity Building, Songshan Lake National High-Tech Industrial Development Zone, Dongguan, PRC. DCT is a wholly owned subsidiary of CINS. DCT’s business include online game development and technical services.

CINS is a holding company. All business activities are carried through DCT. DCT’s is in the business of software research and development, IT consulting services, and the management and maintenance of network system applications.

Stand Capital Limited (“SCL”) is a wholly owned subsidiary of CHD. SCL was incorporated on April 16, 2012 under the law of Hong Kong. Currently SCL does not have any assets and liabilities. It does not carry business activities.

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards, International Accounting Standards and Interpretations (collectively “IFRSs”) issued by the International Accounting Standards Board (“IASB”).

These condensed interim consolidated financial statements include the accounts of CHD, CINS, DCT, and SCL (collectively, the “Company”). All material inter-company transactions and balances have been eliminated for the purpose of these condensed interim consolidated financial statements.

Selected Annual Information

	Year ended December 31, 2012	From incorporation on April 6, 2011 to December 31, 2011
Total interest income	\$81	\$28
Net loss	\$(1,564,392)	\$(165,447)
Net loss per share	\$(0.09)	\$(0.01)
Total assets	\$55,754	\$91,722

The net loss incurred during the period from incorporation on April 6, 2011 to December 31, 2011 was mainly due to the operating expenses of DCT. Compared with the period ended December 31, 2011, the net loss for the year ended December 31, 2012 increased significantly. The increase was mainly due to increase in salaries, office rents, and non-recurring expenses related to the reverse take-over transaction. As a result of listing on CNSX, the Company incurred higher general and administrative expenses to maintain as a public company. The increase is also attributable by on-going research and development expenses.

Results of Operations

As at June 30, 2013, the Company carried all business activities through DCT to develop online game software and providing technical support.

Due to the relatively short history of operation, the Company has not generated significant revenue for the period ended June 30, 2013. On January 1, 2013, DCT and Guangdong CINS Technology Limited (“GCT”), a domestic private company incorporated under the laws of PRC, signed a cost recovery agreement whereby GCT will reimburse DCT for expenses incurred by DCT for providing certain technical services to GCT plus a service fee equivalent to 10% of the costs reimbursable by GCT. Pursuant to this agreement, DCT has recorded service fee revenues of \$996 and \$4,049 for the three and six months ended June 30, 2013, respectively. The Company incurred operating expenses of \$275,348 and \$577,242 for the three and six months ended June 30, 2013, respectively (three and six months ended June 30, 2012: operating expenses of \$466,275 and \$625,296, respectively).

The net losses for the three and six months ended June 30, 2013 were \$274,351 and \$573,189, respectively (three and six months ended June 30, 2012: net loss of \$466,247 and \$625,263, respectively).

The comprehensive losses for the three and six months ended June 30, 2013 were \$336,251 and \$635,089 (three and six months ended June 30, 2012: comprehensive losses of \$485,689 and \$643,915, respectively).

The operating expenses for the period consisted of the following:

	Three months ended	
	June 30, 2013	June 30, 2012
	\$	\$
Selling expenses	8,138	9,777
Salary, director fee and benefits	193,227	128,096
Amortization	580	27
Share-based payments	21,807	-
Professional fee	529	178,814
Research & development expenses	-	75,200
Rent and utilities	32,061	17,344
Office expense	2,955	8,825
Travel and entertainment	4,499	35,830
Vehicle and transportation	337	5,104
Filing, transfer agent and business license	8,979	-
Other expense	1,619	6,533
Bank charges	616	176
Foreign exchange loss (gain)	1	549
	<u>275,348</u>	<u>466,275</u>

The operating expenses of \$275,348 incurred in the period ended June 30, 2013 was significantly lower than those incurred in the comparable period ended June 30, 2012. The decrease in operating expenses was mainly attributed to the reduced professional fees associated with the reverse acquisition transaction described above.

Compared with the same period ended June 30, 2012, salaries, director fees and benefits were increased substantially as the Company incurred additional salaries and fees for senior officers and directors.

The share-based payment of \$21,807 was a non-cash item that represented fair value of options granted in 2012 and in the period ended June 30, 2013.

Compared with the same period ended June 30, 2012, the Company's rent and filing fees increased due to maintaining operations and the ongoing expenses associated with maintaining a public company.

The Company's research and development continued to be an online game operated by GCT. Pursuant to the cost recover agreement between DCT and GCT, all research and development expenses have been reimbursed by GCT.

Summary of Quarterly Results

In accordance with IFRS, the following table provides selected financial information of the Company for the past quarters:

	For the quarters ended			
	June 30, 2013	March 31, 2013	December 31, 2012	September 30, 2012
Revenue and interest income	\$996	\$3,056	\$35	\$41
Net loss	\$(274,351)	\$(298,838)	\$(475,651)	\$(463,478)
Basic and diluted loss per share	\$ (0.01)	\$ (0.01)	\$ (0.03)	\$(0.02)

	For the quarters ended			
	June 30, 2012	March 31, 2012	December 31, 2011	September 30, 2011
Total interest revenues	-	\$5	\$28	-
Net loss	\$(466,247)	\$(159,016)	\$(96,529)	\$(65,918)
Basic and diluted loss per share	\$(0.03)	\$(0.01)	\$(0.01)	\$(0.00)

The reduction in revenue in the three months ended June 30, 2013 was due to the reduced service provided by DCT to GCT.

Liquidity

As of June 30, 2013, the Company had current assets in the amount of \$19,730 with \$13,345 in cash (December 31, 2012: current assets of \$50,194 with \$17,702 in cash). The Company had current liabilities of \$1,106,734 as of June 30, 2013 (December 31, 2012:

\$576,066). As of June 30, 2013, the Company had working capital deficiency of \$1,087,004 (December 31, 2012: \$525,872). The Company had an accumulated deficit of \$2,303,028 as at June 30, 2013 (December 31, 2012: \$1,729,839). The continuation of the Company as a going concern is dependent upon the ability of the Company to obtain necessary debt and equity financing to achieve its operating and developing objectives, and the Company's future profitable operations.

As at June 30, 2013, the Company had the following commitments:

Office lease agreement:

December 31, 2013	\$ 36,572
December 31, 2014	25,721
<u>Total</u>	<u>\$ 62,293</u>

Internet services and servers

December 31, 2013	\$ 11,895
-------------------	-----------

Capital Resources and Off-Balance Sheet Arrangements

As of June 30, 2013, the Company had no commitments for capital expenditures and no off-balance sheet arrangements. Management will continue, as appropriate, to seek other sources of financing on favorable terms as required.

Related Party Transactions

The Company's key management personnel have authority and responsibility for overseeing, planning, directing and controlling the activities of the Company and consist of the Board of Directors and the Executive management team.

Transactions	Three months ended June 30, 2013	Three months ended June 30, 2012
	\$	\$
CEO and CFO salary	75,000	-
Directors fee	16,875	-
Share-based payments	4,032	-
	<u>91,879</u>	<u>-</u>

Amount owing	June 30, 2013	December 31, 2012
	\$	\$
CEO – salary and director fee payable	16,000	16,000
CFO – salary and director fee payable	66,000	11,000
Directors – directors fee payable	3,625	3,625
Amount due to GCT	249,912	134,010
Amount due to CEO	615,380	286,627
	950,917	451,262

The Chief Executive Officer of the Company is also part of the senior management team of Guangdong CINS Technology Limited (“GCT”), a domestic private company incorporated under the laws of PRC. On August 26, 2011, the Company entered into “Technology License and Technical Support Agreement” with GCT, pursuant to which the Company provides technology and marketing services to GCT in exchange of the 30% of the GCT’s net income. For the three months ended June 30, 2013 and June 30, 2012, there was \$nil income earned under the agreement. As of June 30, 2013, the Company owes \$249,912 to GCT (December 31, 2012: \$134,010), the balance is no interest bearing and due on demand.

As at June 30, 2013 and December 31, 2012, DCT owes \$615,380 and \$286,627 to Mr. Chung Yan Lee, respectively. The amount is non-interest bearing, uncollateralized, unsecured and repayable on demand.

On January 1, 2013, DCT and GCT signed a cost recovery agreement whereby GCT will reimburse DCT for expenses incurred by DCT for providing certain technical services to GCT plus a service fee equivalent to 10% of the costs reimbursable by GCT. Pursuant to this agreement, DCT has recorded service fee revenue of \$996 for the three months ended June 30, 2013.

Loss per share

In calculating the weighted average number of ordinary shares outstanding (the denominator of the earnings per share calculation) during the period in which the reverse acquisition occurs:

- (a) the number of ordinary shares outstanding from the beginning of that period to the acquisition date shall be computed on the basis of the weighted average number of ordinary shares of the legal acquiree (accounting acquirer) outstanding during the period multiplied by the exchange ratio established in the merger agreement; and
- (b) the number of ordinary shares outstanding from the acquisition date to the end of that period shall be the actual number of ordinary shares of the legal acquirer (the accounting acquiree) outstanding during that period.

As per the above IFRS requirements, as at June 30, 2013 and December 31, 2012, there were 21,387,083 and 17,405,621 weighted average shares outstanding, respectively.

IFRS also requires that the basic earnings per share for each comparative period before the

acquisition date presented in the consolidated financial statements following a reverse acquisition shall be calculated by dividing:

- (a) the profit or loss of the legal acquiree attributable to ordinary shareholders in each of those periods by
- (b) the legal acquiree's historical weighted average number of ordinary shares outstanding multiplied by the exchange ratio established in the acquisition agreement.

As per the above IFRS requirements, for the three months ended June 30, 2013 and June 30, 2012, there were 21,387,083 and 15,390,313 weighted average shares outstanding, respectively.

Recent accounting pronouncements

A number of new standards, and amendments to standards and interpretations, are not yet effective for the year ended December 31, 2012, and have not been applied in preparing these financial statements. The following standards and interpretations have been issued by the International Accounting Standards Board and the International Financial Reporting Interpretations Committees with effective dates relating to the annual accounting periods starting on or after the effective dates as follows:

IFRS 9 Financial Instruments replaces the current standard IAS 39 Financial Instruments: Recognition and Measurement. It replaces the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value. IFRS 9 is effective for annual periods beginning on or after January 1, 2015 with early adoption permitted.

IAS 27 Separate Financial Statements has the objective of setting standards to be applied in accounting for investments in subsidiaries, joint ventures, and associates when an entity elects, or is required by local regulations, to present separate (non-consolidated) financial statements.

IAS 28 Investments in Associates and Joint Ventures prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. IAS 28 applies to all entities that are investors with joint control of, or significant influence over, an investee (associate or joint venture).

The amendment to IAS 32 Financial Instruments addresses inconsistencies when applying the offsetting requirements, and is effective for annual periods beginning on or after January 1, 2014.

The extent of the impact of adoption of these standards and interpretations on the financial statements of the Company has not been determined.

Financial Instruments and Other Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities and due to related parties. It is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments and that the fair values of these financial instruments approximate their carrying values. See audited financial statement for detail.

Share Capital

The Company is authorized to issue 500,000,000 common shares with par value of US\$0.0001 per common share.

As at June 30, 2013 and August 28, 2013, the issued and outstanding share capital comprised 21,387,083 common shares (December 31, 2012: 21,387,083 common shares).

In August 2012, as a condition to delist from TSXV, one million (1,000,000) common shares held in escrow by Directors of CHD were cancelled in accordance with TSXV Policy 2.4 to allow the Company to be delisted from TSXV and to be listed on CNSX.

On August 31, 2012, CHD completed a reverse acquisition transaction with CINS. Pursuant to the transaction, CHD purchased all of the issued and outstanding CINS shares in exchange for issuing an aggregate of 19,387,083 common shares, 63,131,687 special warrants, and 3,996,770 share purchase warrants to the shareholders of CINS.

As at June 30, 2013 and August 28, 2013, the Company has 11,542,736 common shares held in escrow (December 31, 2012: 13,851,282 common shares). These escrowed shares will be released at the end of every six months over a course of three years.

Share Purchase Warrants

On August 31, 2012, in connection with the reverse acquisition transaction with CINS, the Company issued 3,996,770 share purchase warrants, of which, 3,684,223 warrants have an exercise price of \$0.25 and 312,547 warrants have an exercise price of \$0.50. These share purchase warrants will expire two years from the date of issuance.

The share purchase warrants have a grant date fair value of \$136,200 using the Black-Scholes option-pricing model with the following assumptions on the grant date: risk-free interest rate of 1.15%, expected life of 2 years and expected volatility of 183%.

Special Warrants

On August 31, 2012, in connection with the reverse acquisition transaction with CINS, the Company issued 63,131,687 Special Warrants to the founding shareholders of CINS. Ten percent of the Special Warrants were released on the issuance date. The rest will be held in escrow and will be released every six months over a course of three years. As at June 30, 2013, 47,348,765 were held in escrow (December 31, 2012: 56,818,518).

Each Special Warrant entitles the holder to receive, on exercise or deemed exercise and without payment of further consideration, one common share of the Company. The Special Warrants may not be exercised until, and will be deemed to be exercised wholly or partially

from time to time on, the date(s) on which all of the following conditions have been met:

- 3) the Company has raised additional equity financing following the closing date of not less than \$0.065 per Special Warrant exercised or deemed to be exercised; and
- 4) the Company has received confirmation from the CNSX that the CNSX has received evidence satisfactory to the CNSX that on exercise or deemed exercise of the Special Warrants, the public float will still constitute at least 10% of the total issued and outstanding Common Shares;

provided that any Special Warrants not exercised or deemed to be exercised on or before the third anniversary of the listing of the Company's common shares on the CNSX will be deemed to be cancelled and no longer exercisable.

Stock Options

The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of common shares issuable pursuant to options granted under the Plan may not exceed 10% of the number of issued common shares of the Company at the time of the granting of the options. Options granted under the Plan will have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the discounted market price of the common shares or such other price as may be agreed to by the Company and accepted by CNSX.

On September 28, 2012, the Company granted incentive stock options to certain directors, officers, and employees, entitling them to purchase up to a total of 2,138,500 shares at a price of \$0.70 per share for a period of five years. The options issued to directors and officers will vest at the end of every six months over a course of 18 months. The options issued to employees will vest at the end of every six months over a course of 36 months. These options were later cancelled entirely on December 14, 2012.

Subsequent to the yearend, on March 1, 2013, the Company granted incentive stock options to certain directors, officers, and employees, entitling them to purchase up to a total of 2,029,000 shares at a price of \$0.10 per share for a period of five years. The options issued to directors and officers will vest at the end of every six months over a course of 18 months. The options issued to employees will vest at the end of every six months over a course of 36 months.

The stock options granted on March 1, 2013 were considered re-issuance of stock options cancelled on December 14, 2012, except for the new options granted to two directors. For the three months ended June 30, 2013, share-based payment has been accounted with a fair value of \$21,807 using the Black-Scholes option-pricing model with the following assumptions on the grant date: risk-free interest rate of 1.30%, expected life of 5 years and expected volatility of 170%, forfeiture rate of 15% for options granted to employees and forfeiture rate of nil for options granted to directors.

Risks and Uncertainties

The Company's limited operating history makes evaluating its business and prospects

difficult. The Company's business strategy has not been proven over time. It is uncertain that the Company will be able to successfully expand our business.

The Company will require external capital to expand its operations and to sustain as a going concern. It must obtain such financing through a combination of equity and debt financing to continue the research and development of online games; otherwise, the Company may not penetrate the market as quickly as anticipated. There can be no certainty that the Company can obtain these funds.

The Company may fail to launch new games according to its timetable. The Company's new games may not be commercially successful. Rapid technological changes may increase the Company's game development costs. The Company may need to incur significant expenses to enforce its proprietary rights. If the Company is unable to protect such rights, its competitive position could be harmed. The Company is dependent upon its existing management, key development personnel and qualified technical personnel. The Company's business may be severely disrupted if the Company loses their services.
