CLI RESOURCES INC. CALLED TO TRADE ON CANADIAN NATIONAL STOCK EXCHANGE

VANCOUVER, British Columbia, Canada /May 27, 2010/ CNSX:LIC/ CLI Resources Inc. ("CLI" or the "Company") announced that the Company will begin trading on the Canadian National Stock Exchange ("CNSX"), on May 28 , 2010 under the symbol LIC.

CLI Resources Inc. is a newly incorporated company, which was recently involved in an Arrangement with Arris Resources Inc, whereby Arris Resources spun off resource properties to CLI Resources, in exchange for shares. In addition to the properties acquired as part of the spin off, CLI has also acquired the Maggie gold property near Squamish, British Columbia (the "Maggie Gold Property") and intends to implement a work program on the Property following the recommendations in the NI 43-101 technical report prepared by Jacques Houle, P.Eng., available on SEDAR (www.sedar.com).

The Maggie Gold Property is located approximately 12 kilometers southeast Squamish, British Columbia. The 439.46 hectare (1,085.93 acres) property is near the headwaters of the Indian River. The past-producing Britannia Mine, adjacent to the west, was in operation from 1905 to 1977 and produced 493,000 ounces of gold, 5.8 million ounces of silver and 165 million tons of copper. While former explorers of the Maggie Gold Property were seeking Britannia-style mineralization, two parallel quartz-chlorite veins with very high gold grades were discovered in 1982. The Maggie Gold Mine property is now viewed as a small-tonnage, high-grade gold-silver prospect with additional credits in copper and zinc.

Concurrent with listing, the Company has completed a non-brokered private placement for proceeds of CAD\$100,000 (the "Private Placement"). Pursuant to the Private Placement, the Company issued a total of 2,000,000 units at a price of CAD\$0.05 per unit. Each unit consists of one common share and one common share purchase warrant. Each common share purchase warrant entitles the holder to purchase one additional common share at an exercise price of CAD\$0.07 for a period of two years. The proceeds from the Private Placement will be used for general working capital purposes.

CLI Resources has a strong management team with extensive experience in managing early stage resource companies. The board is comprised of Mr. Thomas R. Tough, P.Eng., as President and CEO; the other directors are Mr. Lucky Janda, and Mr. Curt Huber. Mr. Jamie Lewin has been appointed as the Company's CFO.

Thomas Tough commented, "I am looking forward to working with this strong and experienced management team, and given the strengthening trends in today's resource market, the work program on the Maggie Gold Property is a good start, along with other possible future acquisitions of projects of merit, toward building stakeholder value."

Management expresses its appreciation for the effort and dedication the members of the CLI team demonstrated in achieving publicly traded status for the Company.

On behalf of the Board of Directors,

"Thomas R. Tough"
President and
Chief Executive Officer
