Report on Business

1. *Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month.*

The Issuer is a junior mineral exploration and development company focused on the acquisition and advancement of select, high-potential mineral projects. The Issuer has the option to acquire a 100% undivided interest in and to the mineral claims known as the Sugarloaf Peak Property (the "Property") located in Oro Fino Mining District, La Paz County, Arizona, the property is more particularly described in Item 7 in this report.

In April the Issuer advanced certain of its priorities, in particular we:

- 1) Outlined our exploration plans for Sugarloaf Peak Property;
- 2) Brought a manager of exploration on board; and
- 3) Unveiled our new website.

- 1) **Exploration Plans:** In April, 2011 we announced a multi-phased exploration work plan for Sugarloaf Peak includes a detailed structural mapping of the property and in particular the western portion of the known mineralized zones, which have little historical data, the commencement of a Titian 24 induced polarization survey performed by Quantec Geoscience and a detailed aeromagnetic survey; and a multi-phase combined diamond core and RC drill program. The first phase of 5,000 meters will test extensions of the known mineralized areas open at depth and on strike. A second phase of up to 5,000 meters will be drilled subject to the results of phase 1 and may be enhanced due to the deep and wide along strike untested exploration potential at Sugarloaf Peak.

- 2) **Manager of Exploration:** Brigitte Dejou officially joined the team as of April 15, 2011 and has made a visit to the Sugarloaf Peak Property and will be responsible for advancing our exploration program with an eye to achieving our goal of delineating an economic bulk tonnage gold resource in Arizona. Prior to joining the Issuer, Ms. Dejou spent 2 years as a Senior Geological Engineer with Osisko Mining Corporation and 18 years within Cominco and Teck Cominco managing various exploration programs. Ms. Dejou brings vast experience in running extensive, multimillion dollar exploration projects from grass-roots to pre-feasibility stage across North America. Ms. Dejou holds both a Bachelor of Engineering degree and a Masters of Applied Science degree from Ecole Polytechnique de Montréal. She is a member of the Ordre des Ingénieurs du Québec.
- 3) **Website:** Our website, at www.choicegoldcorp.com, went live in April 2011. The website contains information about the Choice Gold Corp. team, information about the Property and a downloadable version of the most recent technical report.

The Issuer intends to concentrate its efforts on the Sugarloaf Peak property and has agreed to sell its interest in the Maggie Gold Property ("Maggie Gold"), to a non-related third party.

2. *Provide a general overview and discussion of the activities of management.*
During April 2011 management concentrated on the IP survey, taking the website live (www.choicegoldcorp.com) and assembling the team.
3. *Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.*
See Items 1 and 7 for details of the Issuer's property activities on the Sugarloaf Peak Property.
4. *Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.*
This does not apply to the Issuer.
5. *Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.*
