**Report on Business**

1. *General Overview and Discussion*

**Glenbriar Technologies Inc.** (CNSX:GTI) is a leader in Enterprise IT Innovation for small and medium businesses. Glenbriar integrates information technology, voice and software strategies in a number of market verticals spearheaded by an internally developed Managed Services (MS) approach. Glenbriar's **Peartree Software Inc.** division develops software solutions for specific market verticals. Glenbriar currently has offices in Alberta, British Columbia and Ontario. See [www.glenbriar.com](http://www.glenbriar.com) for more details.

2. *Activities of Management*

To date, Glenbriar has funded its research and development from internal sources, including cash flow and disposition of non-core assets. With some products and solutions now ready, and others expected to be completed in the coming months, additional funds will be required to engage in product rollouts, marketing and sales, and make strategic acquisitions. In response to bank tightening of business credit facilities, Glenbriar was required to renegotiate its borrowing facility with a Canadian chartered bank. See item 6 below.

The Canadian Institute of Chartered Accountants (CICA) has been implementing staged changes to Canadian GAAP to harmonize it with International Financial Reporting Standards (IFRS), which will replace Canadian GAAP in 2011. These changes are being applied retrospectively, which affects prior periods and increases the impact of the changes. Glenbriar early adopted certain policies commencing in fiscal 2008, resulting in a significant non-cash downward revaluation of the software asset. Management further determined that in view of the current global economic crisis, the valuation of the future tax and goodwill assets was too uncertain, so they were written off. Please see the 2008 Annual Report for details regarding these nonrecurring, noncash items.

Glenbriar continued the initial steps in developing a new sales and marketing strategy in June 2009, with a new website being launched for Peartree's Dealership product in June 2009. See [www.peartreedealetship.com](http://www.peartreedealetship.com). More details regarding this initiative will be released over the next few months.

Glenbriar implemented Peartree's new professional services module in its Burnaby location in May 2009, with the Calgary location scheduled for implementation this summer.

3. *New Products or Services Developed or Offered*

**Services.** Glenbriar implemented a WAN rollout and network upgrade for a technology education institute in BC in June 2009, including replacement of Linux routers with Cisco equipment. Glenbriar recabled a food lab testing facility for a BC client, and commenced a network design project for a human resources firm and an Enterprise-in-a-Box network upgrade for Alberta clients in June 2009.

**Communications.** Glenbriar installed a \$200,000 IP telephony solution for an Alberta based client in June 2009, and implemented a network cleanup for a client with an IP call centre with offices in Canada, the US and the Philippines. Glenbriar is currently in the design phase for 3 new IP telephony installations scheduled for the coming months. Glenbriar is completing the migration of its IP telephony client base to Shoreware 8.1.

**Software.** Peartree Software, Glenbriar's software subsidiary, launched a new website for its Dealership product in June 2009 at [www.peartreeddealership.com](http://www.peartreeddealership.com). Additional clients are expected to be added in the next few months for both Dealership and SME modules.

Peartree issued the final release of a new version of its Dealership and SME modules in June 2009. This new version includes substantial improvements and additional features. The new version will be rolled out to all of Peartree's customers over the next 2 months.

4. *Discontinued Products or Services*

Glenbriar did not discontinue any operations in June 2009.

5. *New Business Relationships*

Glenbriar did not enter any significant new business relationships in June 2009.

6. *Expiry or Termination of Contracts or Financing Arrangements*

In response to tightening credit conditions being imposed on small and medium businesses, Glenbriar was required to change the terms of its revolving credit facility with a chartered bank. The loan has been termed out over the next 40 months, with a current balance of \$390,000, with an additional principal payment due on October 31, 2009 to reduce the principal to \$250,000. Glenbriar's management is currently reviewing its options to determine what steps will be required to meet the new repayment schedule.

7. *Acquisitions or Dispositions of Assets*

There were no acquisitions or dispositions of significant assets in June 2009.

8. *Acquisition or Loss of Customers*

This is incorporated into item 3 above.

9. *New Developments or Effects on Intangible Products or Intellectual Property*

Glenbriar and Peartree implemented continuous improvements in June 2009. See item 2 above regarding significant changes to the carrying value of intangible and intellectual property assets for the year ended September 30, 2008 and subsequent periods. See item 3 above regarding a new release of Peartree's Dealership and SME software modules.

10. *Employee Hirings and Terminations*

Glenbriar's staff count did not change in June 2009.

11. *Labour Disputes and Resolutions*

This item is not applicable.

12. *Legal Proceedings*

Glenbriar is party to claims for an estimated amount of \$25,000 plus interest and costs. Management is defending these claims.

13. *Indebtedness Incurred or Repaid*

Glenbriar's non-revolving bank loan balance stood at approximately \$390,000 at June 30, 2009.

14. *Securities Issued and Options or Warrants Granted*

<b>Security</b>	<b>Number Issued</b>	<b>Details of Issuance</b>	<b>Use of Proceeds</b>
Common Shares	560,341	Private placement	Employee purchase plan

On June 3, 2009, Glenbriar issued 560,341 common shares for \$0.05 per share for the second half of April and May employee contributions, plus the matching employer contributions for March, April and May, under the employee share purchase plan. The last closing price on the CNSX prior to issuance was \$0.04 per share.

No options or warrants were granted in June 2009.

15. *Loans to or by Related Persons*

The Glenbriar management advance remained at \$285,000 in June 2009. In addition, a \$50,000 shareholders' loan is carried forward from the Micro-Aid acquisition.

16. *Changes in Officers, Directors or Committee Members*

There were no changes in officers, directors or committee members in June 2009.

17. *Market, Political and Regulatory Trends Affecting Glenbriar*

The rising value of the Canadian dollar reduces revenue from US and Mexican accounts, which are priced in US dollars. With the global recession, demand in the automotive and recreational dealer sectors will be weak, and some automotive parts suppliers and dealers are expected to go out of business. Commodity price variations in energy and mining have led to the postponement or cancellation of some megaprojects. Glenbriar and its subsidiaries serve all of these sectors. Glenbriar expects equipment and software sales will be reduced significantly in the current and coming quarters as businesses postpone capital purchases and cancel capital investments. Glenbriar seeks to partially offset reduced expenditures with cost reductions and emphasizing strong cost reductions available to its clients in total cost of ownership through effective use of its Managed Services, Unified Communications and Enterprise Software.
