### NO EASEMENT FOR CLIFFS ON CANADA CHROME CLAIMS

Toronto, Canada, September 11, 2013 – The Ontario Mining and Lands Commissioner today ordered that the application of 2274659 Ontario Inc., a subsidiary of Cliffs Natural Resources Inc., be dismissed.

The applicant had sought an Order to dispense with the consent of Canada Chrome Corporation, a subsidiary of **KWG Resources Inc. (TSX-V: KWG)**, to an easement over mining claims that it had staked from Exton to the *Ring of Fire*. The easement was sought to build a road for the development of the Black Thor deposit, while Canada Chrome Corporation seeks to facilitate the possible construction of a railroad to develop its interests in the *Ring of Fire*, including the Big Daddy and Black Horse deposits. The full text of both the Order and Reasons of the Commissioner are available at [http://www.kwgresources.com/investors/mining\\_lands/](http://www.kwgresources.com/investors/mining_lands/)

**About KWG:** KWG has a 30% interest in the Big Daddy chromite deposit and the right to earn 80% of the Black Horse chromite deposit. KWG also owns 100% of Canada Chrome Corporation which has staked claims and conducted a \$15 million surveying and soil testing program for the engineering and construction of a railroad to the *Ring of Fire* from Exton, Ontario.
