LA IMPERIAL RESOURCES INC. ANNOUNCES UPDATE

La Imperial Resources, Inc. (LAMP:CNQ exchange)

The Company has an interest in seven mineral concessions totaling 13,210 hectares that lie within the prolific Sierra Madre gold belt in the Uruachic district of Chihuahua and the southern part of the Ocampo Mineral Region, Mexico.

The properties lie within a strongly mineralized trend paralleling the Sierra Madre Occidental, with numerous epithermal gold deposits situated to the north, such as Moris, Ocampo, Candamena, and to the south (La Cienega, El Sauzal, Palmarejo). The Company plans to carry out exploration including to further advance the property, as gold, silver, copper, lead, and zinc mineralization occurs on the property in a number of lithologic settings.

The Company has recently made application for a listing on the TSX Venture Exchange to further enhance the investment exposure of the Company.

About La Imperial Resources, Inc.:

The Company is focused on exploring and developing commercial scale gold, silver and related base metal projects in North America. The Company is based in Vancouver, British Columbia, Canada and trades on the CNQ Exchange under the symbol LAMP.

On behalf of the Board of La Imperial Resources, Inc.

"Ray Strafehl"

Director

T: (250) 860-9650
