

FORM 7

MONTHLY PROGRESS REPORT

Name of CNSX Issuer: Nass Valley Gateway Ltd. (the “Company” or the “Issuer”).

Trading Symbol: NVG

Number of Outstanding Listed Securities: 34,676,303

Date: September 7, 2010 for the month of August, 2010

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by the CNSX Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the CNSX.ca website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the CNSX Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term “Issuer” includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is an exploration company engaged in the acquisition, exploration and development resource projects in Canada through its wholly owned subsidiary Greenville Precious Metals Ltd (“PML”) and also in environmentally responsible waste to energy converting projects through its wholly owned subsidiary Greenville Environomic Energy Ltd (“ENV”).

The Company is listed for trading on the CNSX and is co-listed on the “open market” of the Frankfurt Stock Exchange and trading under the symbol “3NV”.

2. Provide a general overview and discussion of the activities of management.

On April 22, 2010, the Company signed an Earn-In-Option agreement (“EIO-Agreement”) with 7510446 Canada Inc.(“CP”), which gives the Company and/or its wholly owned subsidiary an option to acquire a 50% interest in a joint venture which has the exclusive right for the importation and distribution of all production machines based on the patented production technology. This technology converts organic waste into fuel oil and other valuable by products such as carbon black, activated carbon and fertilizers.

Under the EIO Agreement the Company will be the general operator and exclusive distributor for the JV within Canada for the purpose of marketing and selling the production machines and plants and is committed to initiate funding to facilitate the acquisition of the first three plants. The Company will also have the exclusive right to establish Sub Joint Ventures with municipalities or other third Parties in Canada for the conversion of the organic waste with respect to which the Company will, on an exclusive basis, market and distribute the numerous products derived from the conversion process. Subject to successful completion of the due diligence, the Company will initiate funding for the first plant in Canada and will announce its financing plans. This transaction is subject to the completion of a technical due diligence exercise and regulatory approval.

Management visited the operating Utility Unit in China and inspected the latest operating model based on the unique patented pyrolysis system and met with engineers and the inventor of the state of the art technology. Société Générale de Surveillance (“SGS”) has delivered its report on the end products. The Company has reserved \$50,000 cash, which represents the first payment to be effected pursuant to this transaction and is in talks with the CI representatives to finalize certain aspects of the due diligence exercise and the final structure for the business plan.

The company incorporated a wholly owned subsidiary, Greenville Environomic Energy Ltd. (“ENV”) as the actual Joint Venture partner to CI which will own the rights the Company acquired. This company will then be the exclusive distributor of the marketable products derived from the conversion process.

Management continues its evaluation of exploration properties within and outside of B.C. Management is also continuing discussions with Nisga’a leaders and exploring other strategic business opportunities within the Nisga’a Lands with respect to other mineral and energy resource exploration targets.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Company will undertake a comprehensive evaluation of all available data and plan for a thorough exploration program on the exploration of the precious metals and the development of its exportable aggregate products.

Nass Bay Aggregate Project

Exploration work is expected to be carried out on the Crown Claims of the Nass Bay Aggregate Project when funding is available for the exploration program to be approved by the Exploration Committee.

Gold Properties, Kirkland Lake Mining Camp, Ontario

In February 2010, the Company entered into an Acquisition Agreement with Golden Dawn Minerals Inc. (GOM), which gives the Company an option to acquire an 80% Joint Venture interest in three gold prospects within the Larder Lake Mining Division of the Province of Ontario, Canada.

Pursuant to the Acquisition Agreement (the "Agreement"), GOM assigned 100% of its option to acquire the three gold properties from its original vendors, to NVG and both parties will enter into a 20%/80% Joint Venture with NVG as majority interest holder and future operator. Under the terms of the Agreement, NVG is required to spend \$1,000,000 in exploration expenditures, make \$120,000 in property payments and issue 600,000 common shares over three years, of which 450,000 shares will be issued to GOM and 150,000 shares will be issued to the original vendors of the property, in order to earn an 80% ownership of these properties.

The Company incorporated a wholly owned subsidiary under the name of Greenville Precious Metals Ltd. ("PML") and transferred its Gold Properties located within the Kirkland Lake Mining Camp into PML.

The Company has paid \$60,000 cash with respect to the above properties. Pursuant to the agreement with GOM, the Company will issue the common shares upon the receipt of some confirmations and undertakings from GOM.

Greenville Environomic Energy Ltd. ("ENV")

In connection with the possible acquisition of the technology system (described in item 2), the Company intends to activate ENV's marketing and sales of the "Waste to Energy" converting production units (the "Env-X Productions Units") as well as preparing for the numerous marketable products derived from the conversion process immediately after the completion of its due diligence process. The due diligence period was extended due to some delays and the supply of certain documentation on the part of CI.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

None

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

None

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None

8. Describe the acquisition of new customers or loss of customers.

None

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trademarks.

None

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

None

11. Report on any labour disputes and resolutions of those disputes if applicable.

None

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

None

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

On August 13, 2010, the Company entered into a loan agreement with Merfin Management Ltd. ("Merfin"), a private company with a common director for a loan of \$50,000, which will become due on August 13, 2013. Under the terms of agreements, the amounts are unsecured and bear interest at 8% per annum commencing on the first day of the month subsequent to the month of the advance

14. Provide details of any securities issued and options or warrants granted.

Security	Number Issued	Details of Issuance	Use of Proceeds ⁽¹⁾
No securities were issued.			

(1) State aggregate proceeds and intended allocation of proceeds.

15. Provide details of any loans to or by Related Persons.

None

16. Provide details of any changes in directors, officers or committee members.

None

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

The Company has historically relied upon equity financings to satisfy its capital requirements and will continue to depend heavily upon equity capital to finance its activities. There can be no assurance the Company will be able to obtain required financing in the future on acceptable terms. The Company anticipated it will need additional capital in the future to finance ongoing exploration of its properties, such capital to be derived from the exercise of outstanding stock options, warrants and/or the completion of other equity financings. The Company has limited financial resources, has no source of operating income and has no assurance that additional funding will be available to it for future exploration and development of its projects, although the Company has been successful in the past in financing its activities through the sale of equity securities. The ability of the Company to arrange additional financing in the future will depend, in part, on the prevailing capital market conditions and exploration success.

In recent months, the securities markets in the world and in Canada have experienced high volatility in price and volume and companies, particularly in junior exploration industry, have unprecedented decline in their share prices which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that continual fluctuations in the Company's share prices will not occur or that these fluctuations will not affect the ability of the Company to raise equity funding, and if at all, without causing a significant dilution to its existing shareholders. Any quoted market for the common shares may be subject to market trends generally, notwithstanding any potential success of the Company in creating revenue, cash flows or earnings.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to CNSX that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all CNSX Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.

Dated September 7, 2010.
