With Solex now a reporting issuer, Zimtu will issue common shares of Solex to its shareholders as announced December 7, 2003. Shareholders will receive one common share of Solex for every 4 common shares of International Zimtu owned, provided that the shareholder owns 2,000 common shares or more. Shareholders owning less than 2,000 shares will receive a cash equivalent equal to one cent (\$0.01) for every 4 shares of International Zimtu owned. The record date to determine the shareholders of International Zimtu entitled to receive the shares or cash equivalent is December 15, 2003.

Due to securities regulations in the United States of America ("US"), all US residents will receive the cash equivalent of the transaction, regardless of the number of common shares owned. As well, fractional shares will not be issued; they will be accumulated and retained by Zimtu.

Solex Resources Corp. is a development stage company engaged in the acquisition and exploration of mineral properties. The company is focused on exploring the high-grade Pilunani zinc-silver-lead project in southern Peru. Pilunani, long recognized for its high-grade zinc anomalies at surface, remains largely unexplored by modern methods.
