AssistGlobal Announces Listing on The Frankfurt Stock Exchange

Vancouver, BC – August 30, 2004, – AssistGlobal Technologies Corp. (CNQ: AGBT.U, NASD OTC BB: AGBTF and FWB: IGN1) (the "Company") is pleased to announce that it has received approval for the listing of its common shares on the Frankfurt Stock Exchange. The Company's common shares will trade under the symbol "IGN1" on the Frankfurt Stock Exchange (FWB), one of the world's largest trading centers for securities. The FWB is the largest of the eight German stock exchanges and is operated by Deutsche Börse AG. The FWB is an international trading center. This is reflected by its member structure in which approximately 140 of its more than 320 market participants come from abroad.

This listing marks an important step in AssistGlobal's corporate strategy to create shareholder value and increase exposure. The FWB listing will provide easy access to trading in the company's common shares for new and existing shareholders in the European community. "Through expansion of products and services into Europe, we have received keen interest from European investors in making an investment in AssistGlobal," stated AssistGlobal's CEO, Catherine Stauber. "The new FWB listing will not only facilitate investment in AssistGlobal by European investors but also create further liquidity and increased awareness of our Company."

Separately, the Company announces that its VP of Sales, Richard Variyan, has left the Company to pursue other opportunities. The Company and its Board of Directors would like to thank Richard for his past service and wish him well in his endeavors.

About AssistGlobal:

With more than 700 clients in 15 countries, AssistGlobal is a leader in the Facilities, Infrastructure and Project Management industry and has been providing first-rate products and services since 2000.

Software Sales

MicroViewFM Software for Facilities and Infrastructure Management provides reliable, robust mobile solutions to coordinate, simplify and enhance operational activities. Facilities data can be recorded and updated on-the-fly using MicroView software for handheld computers (PDAs) - a valuable timesaver when mobilizing for large-scale reorganizations, corporate moves or undertaking extensive maintenance activities. The Company's existing products include MicroView Parking Manager™, HVAC and Electrical Module™ and MicroView/FM™.

Application Hosting

AssistGlobal provides turnkey hosted solutions for Project and Facility Management software applications. AssistGlobal hosts complex, robust vertical applications including products from Primavera Systems Inc. and Archibus Inc. AssistGlobal offers complete, end-to-end solutions that enable its customers to launch new and enhanced services within tight deadlines, improve application performance and system security, reduce overall cost of ownership, and retain profitable customers. Applications are securely delivered through the Internet enabling global access to central data for geographically dispersed companies.

Custom Solutions

AssistGlobal works with clients to provide custom solutions, which include custom application development and deployment for enterprise systems integration.

Key organizations using AssistGlobal technologies include:

- MetLife
- The United States Army and Navy
- The Universities of Texas, Colorado and Princeton
- Macromedia
- Chase Manhattan Bank
- Blue Cross/Blue Shield
- Cedar Sinai, Mount Sinai and Methodist Hospitals
- Unisys
- The CIA
- Intrawest

On behalf of the Board of Directors,

"Sokhie S. Puar"

Sokhie S. Puar
Director
