## **AssistGlobal launches MicroViewFM Version 2.65**

**Vancouver, BC – October 13, 2004, – AssistGlobal Technologies Corp. (CNQ: AGBT.U, NASD OTC BB: AGBTF and FWB: IGN1 )** (the “Company”) is pleased to announce the launch of MicroViewFM version 2.65. This updated version of the Company’s mobile facilities management technology includes improvements to existing functionality as well as new features, many driven by user requests.

The new features include new functionality within the building operations and condition assessment activities. Also included are significant improvements to the overall usability of all modules and enhancements designed to take advantage of new features within the latest ARCHIBUS/FM release.

Geoff Dryer, President and Chief Technical Officer, states, “The launch of MicroViewFM 2.65 was planned to coincide with the release of ARCHIBUS/FM version 14.3. The successful timing was a result of anticipating client needs and combining upcoming trends to produce the best results within a window of opportunity. This forward thinking positions AssistGlobal to better capitalize on the market momentum.”

### **About AssistGlobal:**

With more than 700 clients in 15 countries, AssistGlobal is a leader in the Facilities, Infrastructure and Project Management industry and has been providing first-rate products and services since 2000.

### **Software Sales**

MicroViewFM Software for Facilities and Infrastructure Management provides reliable, robust mobile solutions to coordinate, simplify and enhance operational activities. Facilities data can be recorded and updated on-the-fly using MicroView software for handheld computers (PDAs) - a valuable timesaver when mobilizing for large-scale reorganizations, corporate moves or undertaking extensive maintenance activities. The Company’s existing products include MicroView Parking Manager™, HVAC and Electrical Module™ and MicroView/FM™.

### **Application Hosting**

AssistGlobal provides turnkey hosted solutions for Project and Facility Management software applications. AssistGlobal hosts complex, robust vertical applications including products from Primavera Systems Inc. and Archibus Inc. AssistGlobal offers complete, end-to-end solutions that enable its customers to launch new and enhanced services within tight deadlines, improve application performance and system security, reduce overall cost of ownership, and retain profitable customers. Applications are securely delivered through the Internet enabling global access to central data for geographically dispersed companies.

### **Custom Solutions**

AssistGlobal works with clients to provide custom solutions, which include custom application development and deployment for enterprise systems integration.

Key organizations using AssistGlobal technologies include:

- MetLife
- The United States Army and Navy
- The Universities of Texas, Colorado and Princeton
- Macromedia
- Chase Manhattan Bank
- Blue Cross/Blue Shield
- Cedar Sinai, Mount Sinai and Methodist Hospitals
- Unisys
- The CIA
- Intrawest

On behalf of the Board of Directors,

"Sokhie S. Puar"

Sokhie S. Puar  
Director
