#### **Report on Business**

1. Further to the acquisition of 101 mineral claim last December, St-Georges Platinum (Formerly ACAFW) positions itself as a junior Platinum, Palladium, Rhodium, Copper, Cobalt and Nickel explorer with projects in Quebec, Canada.

It jointly owns with Litewave Corp the Villebon property in Abitibi, Quebec and eight North Shore properties that constitute the Manicouagan constellation and owns 100% of the Isukoustouc group of properties on the Quebec's North-Shore near the deep sea port town of Baie-Comeau.

Further to the historical agreement with the Innu Council of Pessamit signed on May 4, 2010, the Company will soon announce a work program and will as well start work on the Isukoustouc group of properties located on the Innu ancestral territory fairly soon.

The agreement provides St-Georges with the consent of the Innus to carry out its mining exploration campaigns on the ancestral lands of the Innus of Pessamit.

Due to the potential of its Quebec North Shore properties, the recent Flow-Through private placement closed in March, will give the Company financial resources to generate value on these properties.
