FOR IMMEDIATE RELEASE

December 18, 2013

## **Enertopia Announces Corporate Update and MMJ Summary**

**Vancouver, BC—Enertopia Corporation (ENRT) on the OTCBB and (TOP) on the CNSX** (the "Company" or "Enertopia") is pleased to announce a corporate summary and a World MMJ update since our November 4, 2013 announcement into the MMJ business sector.

As 2013 draws to a close, Enertopia is very excited about the next steps it will be taking to grow in the rapidly evolving MMJ business sector. Enertopia is optimistic that soon our private producer will be receiving the inspection notice for the Licensed Producer (MMPR) to grow, cultivate and sell up to 420,000 grams (925 lbs) of dried medical marijuana per year at the current production facility under the new Health Canada program.

As patients are signed up the production license can be increased accordingly to meet the growing patient demand as per Health Canada guidelines.

The upgraded production facility will include its own testing laboratory which will be run by Dr. Otchere PH.D in Ecotoxicology. Dr. Otchere will be the Senior Person in charge for quality control under the Health Canada guidelines.

Since our market leading move into the Canadian MMJ sector in November 2013, there has been a steady stream of upbeat MMJ news from around the World. Some of the top news headlines and reports listed below:

Poll after poll shows that the overwhelming majority of Americans feel that medical marijuana should be legal. Earlier this fall, a Gallup survey found that 58% also support the legalization of cannabis for adult use – the first time a clear majority of the population has favored legal marijuana. In 1969, when Gallup first asked the question, just 12% of respondents backed the idea.

“Enertopia wishes its shareholders and the public the very best during this holiday season and a prosperous 2014.” Stated Robert McAllister, President / CEO
