GLOBAL CANNABIS APPOINTS BLOCKCHAIN AND ICO EXPERT TO ADVISORY BOARD

Vancouver, British Columbia, Canada, September 27, 2017 – Global Cannabis Applications Corp. (“**GCAC**” or the “**Company**”) (CSE:APP, FWB:2FA, OTCQB:FUAPF), a leading developer of innovative data technologies for the cannabis industry, is pleased to announce the appointment of Rasool Verjee to its Advisory Board.

Mr. Verjee is a serial entrepreneur with a depth of experience in telecommunications and technology and an extensive, diverse global network. His career has been marked by early adoption of emerging technologies delivering high returns on equity from start-up operations as evidenced by Telemagix, LavaLife Inc., and World Phone Inc. He currently assists several companies planning to launch Initial Coin Offerings (ICOs) and is a partner in a Blockchain consultancy company. He holds both a Bachelor of Laws and a Master in International Law from Cambridge University.

Rasool Verjee will serve to provide guidance and forethought to the Company as it develops a purpose-built GCAC (Citizen Green) Blockchain to provide an immutable trust service for the global medical cannabis supply chain. Mr. Verjee will work with GCAC’s management to define a framework that medical cannabis suppliers can use to secure their supply chain process on the GCAC Blockchain to share knowledge and build trust with medical cannabis regulators. The GCAC Blockchain will also be used to create digital tokens for GCAC apps users to earn credits for engagement and information sharing on Prescriptti and CannaLife.

“As GCAC continues to expand its app data offering, we take great pleasure in having Mr. Verjee with his leadership in Blockchain and ICOs join the Advisory Board,” states GCAC’s CEO, Brad Moore.

“Global Cannabis is taking medical cannabis data to the next level with their Blockchain development,” added Rasool Verjee. “The incentivizing of app users with an ICO token and the use of smart contracts to encourage cannabis suppliers to participate is extremely innovative.”

About Global Cannabis Applications Corp.
