#### **About BlackIce Enterprise Risk Management Inc.**

BlackIce is a global enterprise risk management technology firm delivering practical solutions for problems that global banks face every day.

BlackIce has developed an **Enterprise Risk Aggregation (ERA™)** solution, an open platform software application that delivers end-to-end data and analytical standards to meet regulatory expectations of Basel II/III, as well as the Basel Committee on Banking Supervision (BCBS) Risk Data Aggregation & Risk Reporting (**RDA**) requirements, and the Financial Stability Board Legal Entity Identifier program for monitoring concentration risk.

The Company’s **Governance & Compliance Database (GCD™)** is an application that allows financial institutions to assess, govern and manage adherence and compliance to regulatory guidelines from across multiple regional areas and various BCBS guidelines (e.g., Basel II/III; Corporate Governance, RDA, etc.).
