

IC Potash Completes Share Redemption of Subsidiary

TORONTO, Oct. 17, 2017 -- **IC Potash Corp.** (TSX:ICP)(OTCQB:ICPTF) ("IC Potash" or the "Company") is pleased to announce that the redemption of the Company's shares in Intercontinental Potash Corp. (USA) ("ICPUSA") has been completed. The redemption is described in the Management Information Circular for the Special Shareholder Meeting of the Company held on October 12, 2017 that was filed with the Canadian Securities Administrators. The Circular can be found at <http://www.sedar.com/>

The Company received an initial payment of USD \$1.4 million on redemption of ICPUSA shares. The Company will receive an additional payment of USD \$1.4 million on or before January 8, 2018. Additional proceeds of disposition on the redemption of the shares in ICPUSA include rights to seventy-five per-cent of water revenues that ICPUSA may earn by selling water to oil and gas companies which are fracking tight oil formations in the Permian Basin. The Ochoa Potash Project, previously held by the Company, is located in the Permian Basin and ICPUSA retained the water rights. Water is in high demand by the oil and gas companies and can be sold at high prices by ICPUSA. The revenues that the Company may earn will be up USD \$12.2 million.

The Company is closely investigating various sectors and companies for potential JV or investment partnerships for deploying the funds.

Mehdi Azodi, President and CEO of IC Potash stated, "We are pleased to see the completion of the redemption transaction. We anticipate a substantial return on the water rights since the water is in high demand by the oil and gas companies located in Lea County and the other counties of southeast New Mexico and West Texas."

About IC Potash

IC Potash is establishing a diversified portfolio of investments and interests with initial focus on organic fertilizers and resource assets. ICP Organics, a wholly owned subsidiary of IC Potash Corp., is focused on research, development and investment in the fertilizer and medical cannabis sectors, with emphasis on organic fertilizers and pesticide free products. Organic products provide value-enhancing opportunities to medical cannabis and other agricultural growers allowing the producers to sell products at premium prices.

IC Potash intends to establish joint research and development partnerships with Canadian Licensed Producers operating under ACMPR regulations in Canada. The Company is also establishing commercial relationships with medical and recreational cannabis producers in the United States. IC Potash has made an equity investment in cannabis operations in South America. As IC Potash grows, it plans to build a diversified portfolio in commercial-scale cannabis cultivators and related downstream cannabis industry providers. The Company may invest in various private and public companies in diversified sectors on an opportunistic basis.
