About Cielo Waste Solutions Corp.

Cielo Waste Solutions Corp. is a publicly traded company with its shares listed to trade on the Canadian Securities Exchange ("CSE") under the symbol "CMC". Cielo is commercializing a transformational, patent-pending, technology that can convert multiple different waste streams into renewable diesel, at a significantly lower cost than biofuel companies. Landfills are one of the world's leading contributors to Green House Gas emissions and are projected to double in size over the next 7 years. Cielo can potentially resolve this crisis, on a cost-effective basis, by converting multiple different waste-derived feedstocks, including sorted municipal solid waste (garbage), wood and agriculture waste, tires, blue-box waste, all plastics and virtually any other cellulous waste product into high grade renewable diesel.
